SICIS

Spessori, trasparenze, proiezioni di luce, vetro, specchio.

La collezione Structura propone pannelli di mosaico realizzati con tessere quadrate di mosaico caratterizzate da spessore, dimensione, colore e texture differenti, per un intrigante effetto tridimensionale.

Mosaici abbinati "ton sur ton" o a contrasto, in abbinamenti che paiono casuali ma che sono stati sapientemente abbinati a creare movimenti materici, volti ad enfatizzare la particolarità e la luminosità di questa collezione.

Structura punta sulla tridimensionalità di un mosaico che, in un gioco di forme e spessori, ricrea l'effetto di una cascata che scorre scintillante su pareti che brillano di un effetto studiato per stupire, originale ed unico.

Thicknesses, transparencies, light projections, glass, mirrored.

The Structura collection features mosaic panels made of square tesserae that vary in thickness, size, colour and texture to create an intriguing three-dimensional effect.

Available in matching or contrasting tones, the mosaic combinations appear random but have actually been expertly calibrated to create material movement, with the aim of emphasising the uniqueness and luminosity of the collection.

Structura focuses on the three-dimensionality of mosaic that, in a play of shapes and thicknesses, creates the effect of a sparkling waterfall flowing down the walls, which shine with an original, unique effect designed to astonish.
