Overview

Wood in the bathroom – isn't that a bit precarious?

Our products are not made from solid wood; we use sought-after wood veneers that are moulded into shape and then sealed up to eight times with a special artificial resin. As a consequence, our products can neither become saturated with water nor can bacteria build up inside them. Thus they can be used like conventional bathtubs or washstands made of ceramics or acrylics.

Service life

Our products are extremely resistant and still look as good as new after many years of use. A bathtub lasts for at least 40 years. This means that our products are an investment for life.

Usage

Whether in a hotel spa area, in an en-suite bathroom or in your own bathroom, our bathtubs can be used just like conventional “ceramic or acrylic” bathtubs. The magnificent wooden surfaces also give each space a warm and elegant atmosphere.

Cleaning

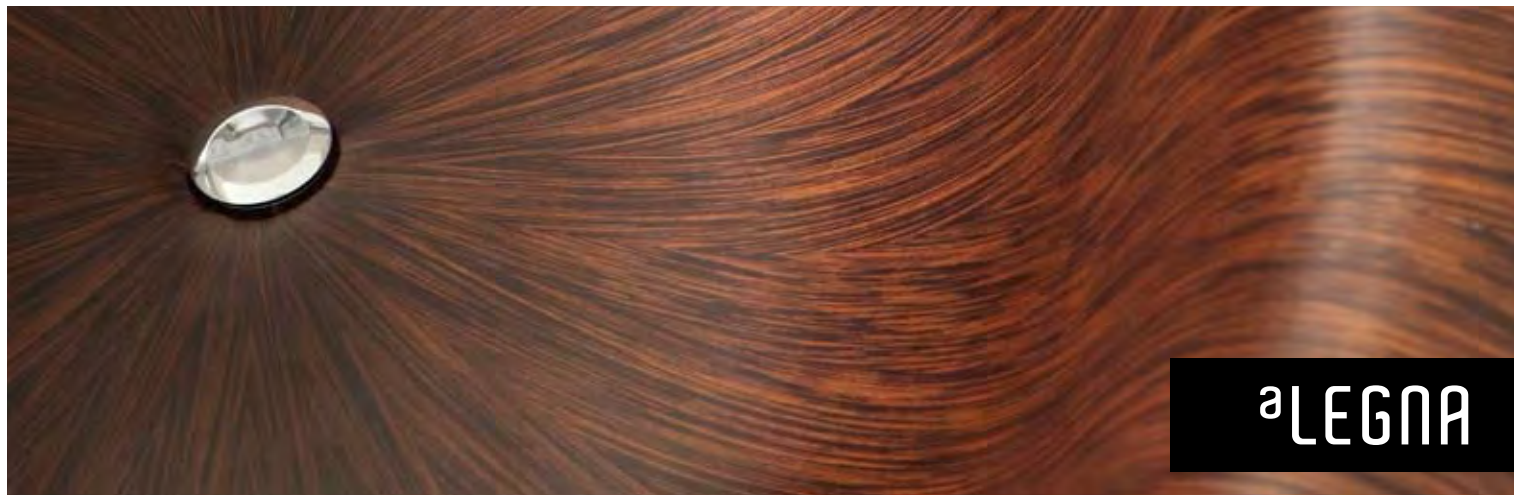

Our bathtubs can be cleaned just like conventional ceramic or acrylic bathtubs. You can use your usual bathroom cleaning products for this. Simply rub the bathtub down with a sponge or microfiber cloth, finished! The wood does not require any additional cleaning or aftercare.

Delivery

The delivery period for our bathtubs is approximately eight weeks after the order is submitted. Products are delivered by lorry or via air cargo to their destination. The respective daily prices for hired haulage companies apply for transport costs.

In which countries are our bathtubs delivered?

We deliver our bathtubs worldwide. New Zealand, the USA, Dubai, Saudi Arabia – our bathtubs can be found almost anywhere in the world.

passion made of wood

laguna BASIC

A masterpiece made from wood, forming a uniform and integrated whole. LAGUNA BASIC is soft, with a curved and stable form, reflects the running water as well as a warm aura. Whether being in ones or twos, the perfect ergonomics guarantees an enjoyable bath. As a result of the modular form of construction, our wooden bathtubs can be supplied in different forms of execution. Moreover, every model is available as fully equipped Jacuzzi.

Our long experience in combination with modern know-how from yacht-building, the use of high-grade wood, as well as careful treatment of modern composite materials make it possible to manufacture beautiful wooden bathtubs in perfect quality.

each bathroom gets great

A beautiful interior tub with a flexible outside shape makes it possible, to build LAGUNA BASIC in every bathroom. Conventional bathtubs can be replaced without plain. Therefore, there are many flexible and individual possibilities. Whether an absolute highlight in a bathroom, on a yacht, or in wellness and sauna areas – we make it possible.

Thanks to an exact adjustment on-location, the tub can be fit in every niche. Trap and valve are already installed, so the time of assembly is reduced to a minimum.

details

Our bathtubs are manufactured of the best possible materials. Carefully selected wood veneers are compressed together under high pressure and completely saturated with resin. The wonderful wooden surfaces convince optically and the upkeep is simple. And – should a few scratches have appeared after some years – then these can be easily polished away again by the customer. Basically, we can manufacture our products from every conceivable type of wood. However, in view of the very large number of different sorts of wood, we have limited our stock to a selected range at the present time. Nevertheless, through our good relationships with our suppliers, we can obtain any particular wood that might be desired within a reasonable period of time. Just let us know your wishes.

We only use certified wood from forests with controlled felling and reforestation.

All LAGUNA models are developed in collaboration with IDCONNECT DESIGN SOLUTIONS, an internationally renowned design studio. Their long experience in designing cars and luxury goods guarantee a forward-looking design together with best practicality.

passion made of wood

laguna PEARL

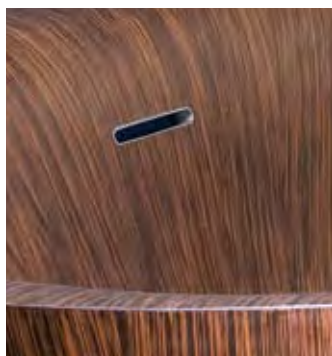

Dive in and float. Take a seat in our pearl, maybe the most tempting nut-shell in the world, and let your thoughts flow. Whether in ones or twos, perfect ergonomics guarantees an enjoyable bath. LAGUNA PEARL turns every bathroom in a real piece of jewellery. Select your personal model. We offer the most beautiful wood, shapes, and fittings.

Our partner's long experience especially comes into effect. This together with our know-how from yacht building makes it possible to manufacture timeless beautiful wooden bathtubs in a perfect quality.

the tub as a sculpture

LAGUNA PEARL, the free-standing model allows an incredible variety of positions. Your imaginations know no bounds. Every room gets a special character and an enhancement through a free-standing wooden bathtub.

passion made of wood

laguna SPA

Relaxed ideas are our passion. A bathtub with the highest standards from spa-culture, made from fine wood. A wonderful sight, tempting everybody with its qualities. Its wide rim and the overflow integrated there in enable the tub to be filled brimful. Excess water will then gurgle pleasantly away between the pebbles. This system gives you the possibility to relax your neck and head in warm water.

perfect symbiosis

Whether in ones or twos, perfect ergonomics guarantees an enjoyable bath. LAGUNA SPA is a real piece of jewellery, turning every room into something special. Select your personal model. We offer the most beautiful wood, shapes, and fittings. Attractive optical accents can be set with the employment of different pebbles or even other materials. It is as well available as fully equipped Jacuzzi.

laguna PURE OVAL

Modern, and yet a glimmer of classic, the new lavatories LAGUNA PURE OVAL are outstanding due to their timeless form. The lavatories are perfectly complementary to other products of the Laguna family, and give your bathroom a glimmer of luxury.

Selected wood veneers are pressed under high pressure and are coated with a special synthetic resin. In this way, the lavatories permanently get their noble look and can be maintained without much effort.

different sizes

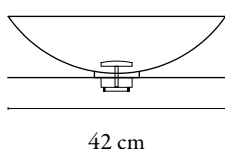

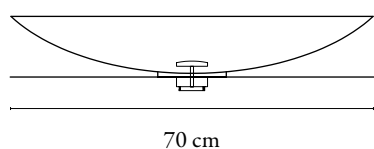

The Laguna PURE OVAL lavatories can be produced in different sizes. They are manufactured individually and according to the customer's request, as a custom-made item and by hand. Furthermore, they can be delivered in almost every kind of wood, just according to your desire.
