Since 1960 - Made in Italy

History

Unità produttive

Design, qualità e una continua ricerca tecnologica volta all'innovazione stanno alla base del successo che dal 1960 accompagna la costante crescita di Bossini Spa in Italia e nel mondo.

Fondata da Leonardo Bossini, la società si avvale oggi dell'operato di 168 dipendenti all'interno di due unità produttive ed esporta in oltre 60 Paesi nel mondo.

Leader riconosciuta nel mercato docce e accessori, Bossini si rivolge con i suoi prodotti ad una clientela posizionata in un target medio-alto garantendo alti standard di sicurezza, una particolare attenzione all'impatto ambientale ed il massimo della funzionalità.

Certificata UNI EN ISO 9001:2015, IATF 16949: 2016 e UNI EN ISO 14001:2015, Bossini è sinonimo di qualità di prodotto e, grazie ad una sempre rinnovata strategia commerciale, è in grado di rispondere a qualsiasi richiesta avanzata dal mercato, orientandosi per particolari progetti della propria clientela sul tailor made only made in Italy.

Production plants

Design, quality and continuous technological research centred on innovation are the foundation of the success that, since 1960, has accompanied Bossini Spa in its persistent growth, both in Italy and around the world.

Founded by Leonardo Bossini, today the company is supported by a team of 168 employees across two production units and exports to over 60 countries around the world.

A recognised leader in the shower and accessories market, Bossini's products are aimed at customers in the medium-high target group, guaranteeing high standards of security, special attention to the environmental impact and maximum functionality.

UNI EN ISO 9001:2015, IATF 16949: 2016 and UNI EN ISO 14001:2015 certified, Bossini is synonymous with product quality and, thanks to a constantly renewed business strategy, it is capable of responding to any demands presented by the market, with Bossini basing specific projects undertaken for its clients on the tailor-made, only made in Italy concept.

Il design è un elemento fondamentale nella progettazione e realizzazione dei prodotti Bossini, non solo manufatti tecnici di alta qualità, ma elementi pensati per inserirsi in modo armonico in ogni contesto di arredo.

Bossini offre una gamma ricca e versatile in cui la ricerca di linee e forme innovative incontra le soluzioni funzionali più all'avanguardia, consentendo al cliente la massima personalizzazione del proprio ambiente e contribuendo alla trasformazione del bagno tradizionale in un autentico spazio benessere "su misura".

Non più un banale luogo di passaggio, bensì un luogo da vivere e in cui concedersi momenti unici di intimità e relax.

Design is a basic element in the planning and realization of Bossini products and therefore our manufacts are more than just high-quality technical objects: they become creations conceived to be introduced harmoniously in any interior setting. Bossini offers a wide versatile range of products in which the study of innovative lines and shapes meets face to face with state-of-the-art functional solutions. This gives customers the chance to have the maximum personalization of their home while transforming traditional bathrooms into a space for well-being that is perfectly in tune with their individual taste. Bathrooms can now go beyond their function as a banal

MISSION & VISION

La mission di Bossini è offrire ai clienti soluzioni creative uniche, frutto dell'applicazione di un solido know-how e di una grande flessibilità, che caratterizza ogni fase del processo produttivo sempre in armonia con il rispetto ambientale.

- Concept & Design
- Ingegnerizzazione dei Prodotti
- Produzione

Innovazione, design, rispetto dell'ambiente, passione: qualità che da sempre fanno parte della storia dell'Azienda.

Bossini's mission is to offer its customers unique creative solutions based on established know-how and flexibility through each stage of the production process always in harmony with respect for the environment.

- Concept & Design
- Product Engineering
- Manufacture

Innovation, design, respect for the environment, passion: qualities that have always been part of the Company's history.

GENERAL CONDITIONS OF SALE

These general conditions regulate all present and future sales contracts between the parties, subject to any exceptions specifically agreed upon in writing. Any general conditions of the purchaser will not apply to future contractual relations between the parties unless expressly accepted in writing by Bossini spa (below "the seller").

1. Formation of the Contract

The purchaser placing the order fully accepts the application of these general terms to the Contract for sale. Seller reserves the right to accept or refuse it. Offers made by Agents, Representatives or auxiliaries of the seller do not bind him until they are confirmed by the seller itself.

2. Prices

The prices indicated in this price list do not include V.A.T. or any other tax whatsoever. Seller may modify the prices / price list without prior notice. 3. Surrender of the goods Unless agreed to the contrary, the supply of the products is intended ex-factory: transport and insurance are therefore at the charge of the purchaser, this also when it is decided that the delivery or part of it will be taken care of by the seller, in which case the latter will act as the purchaser's agent, it being understood that the transport will be carried out at the expense and risk of the purchaser. The risks relative to the supply pass to the purchaser, at the latest at the time in which the products leave the seller's plant.

4. Delivery terms

The delivery limits are agreed approximately in favor of the seller and not binding for him. Any liability of the seller is excluded for damage deriving from anticipated, delayed or missed delivery, total or partial. The purchaser is always held to take delivery of the products, even in the case of partial deliveries and even when the products are consigned before the established delivery date or successively to that date. The seller shall not be deemed to be in breach of this agreement, or otherwise be liable to the purchaser, by reason of any delay in delivery, to the extent that the delay is due to any Force Majeure, and the time for performance of delivery shall be extended accordingly.

5. Guarantee

The seller guarantees the compliance of the products supplied; by the term compliance of the products it is meant that they correspond in quality, quantity and type to what was agreed in the contract and that they are without defects that could render them unfit for the use to which they are intended to be put. The guarantee against defects is limited only to product defects due to defects in planning, materials or construction that can be attributed to the seller, and does not apply in the case where the purchaser is unable to prove a correct preservation of the product and where he has modified them without the agreement of the seller. The seller is not liable for defects in product compliance due to the normal wear of those parts which, by nature, are subject to rapid and continuous wear and tear. The warranty does not cover damages caused by improper installation and/or use, incorrect design of the system in which the products are installed/connected, scale or impurity deposits, use of cleaning products and maintenance different than those specifically indicated in the assembly instructions of the seller. If the product is intended to be resold, it is understood that the buyer will be liable to its customers for any warranty claims, with express renunciation of the buyer to the right of recourse against the seller for what is given to the private consumer, unless otherwise agreed in writing between buyer and seller.

6. Claims

The purchaser is required to control the compliance of the products and the absence of flaws. Claims relevant to evident non-conformities of the goods must be made, on pain of forfeiture, within and not later than 8 days from the goods arrival at their place of destination. Hidden flaws, defect or non-compliances must be reported immediately after the discovery and in any event, on pain of forfeiture, not later than the duration of the guarantee. Claims must be made by registered letter, addressed to the seller and must describe in detail the flaws or disputed non-compliances. The guarantee is for a limited period of twenty four (24) months from delivery date to the buyer, except for all products not in chrome finishing for which the guarantee is for a limited period of twelve (12) months always from delivery date to the buyer. 7. Remedies

In case of faulty products and following to a report by the purchaser, the seller may at his discretion:

a) supply ex-factory to the purchaser products of the same kind and quantity as those that proved not in compliance, on receiving returns for checking at buyer's expense. Any replacement carried out promptly by the seller cannot be considered as implicit recognition of defects claimed: said recognition must always be explicit and following control by seller on goods challenged; should the seller, on controlling, find the goods in compliance, he will invoice for those sent in replacement; or b) issue to the purchaser a credit note in the amount equal to the value of the defective products. In both cases the purchaser shall return the faulty products to the seller.

This warranty is a substitute for the legal guarantee for defects and conformity and excludes any other relief or claim, including any labor costs for dismantling and/or reinstallation, in favor of the buyer.

8. Limit of the seller's liability

Except in the case of fraud or gross negligence on the seller's part, compensation of any damage to the purchaser will not, in any event, be greater than invoice price of the disputed products.

9. Payments

The payment and every other sum due to the seller, are understood as net at the registered office of the seller. Any delay or irregularity in the payment gives the seller the right to suspend the supply or to cancel the contract in course, even if they are not relevant to the payments in question, as well as the right to compensation for eventual damages. The seller has also the right - starting from the payment deadline - to interests for delay as per art. 5 of Italian Legislative Decree no. 231 of 9/10/2002. The delays of payment likewise give the seller the right to exclusion from guarantee, for the whole period that the delay may persist.

10. Retention of Title

The delivered products remain the seller's property until the moment of the complete payment of the price.

11. Applicable Law and Competent Law-Court All Contracts ruled by these general conditions are submitted to Italian Law. For any controversy relative to, or connected to the contractual products to which this general conditions apply, the seller's Law-Court has the exclusive competence; the latter, however, will have the opportunity to act also in the purchaser's Law-Court.
