CARATTERISTICHE DI PRODOTTO

SGANCIO RAPIDO DEL SEDILE

Tutti i nuovi sedili a chiusura rallentata sono dotati di sistema a sgancio rapido. Estrarre il sedile dal suo alloggiamento diventa semplice, facilitando la completa pulizia delle superfici.

QUICK-RELEASE SEAT

All new, soft-close seats are fitted with a quick-release mechanism. The seat is quick and simple to take off, making it easy to clean all surfaces.

FISSAGGI NASCOSTI:

PULIZIA DI FORMA E DI SOSTANZA

Tutti i nuovi vasi e bidet, sia sospesi che a terra, sono dotati di fissaggi invisibili che, oltre ad esaltare il design delle forme, permettono di installare correttamente il sanitario, semplificando anche il lavoro di pulizia.

HIDDEN FIXTURES:

FOR CLEAN LINES AND A CLEAN PRODUCT

All new toilets and bidets, whether wall-hung or floor-standing, have hidden fixtures. As well as giving the products a sleek design, they make the sanitary ware easy to install correctly and also simplify cleaning.

RISTRUTTURAZIONI SENZA INTERVENTI STRUTTURALI

Lo scarico traslato di Ceramica Dolomite è una caratteristica specifica dei vasi Back to Wall che permette l'alloggiamento di una curva tecnica finalizzata ad installare il vaso anche in presenza di un preesistente scarico a terra, tipico degli impianti del passato.

Con lo scarico traslato il pavimento è salvo: sarà sufficiente scegliere la corretta combinazione di curve tecniche e raccordi per installare il vaso senza rompere le piastrelle.

UPGRADE WITHOUT ANY STRUCTURAL WORK

A specific feature of Ceramica Dolomite's back to wall bowl is the position of the drain. It allows you to use a bowl connector, meaning you can install the bowl even where there is already a floor drain, as in older installations.

By moving the drain position as shown, there's no need to touch the flooring. All that's required is the right combination of bowl connectors and couplings to install the bowl without having to take up any floor tiles.
