DECORRENZA	=	Il presente listino annulla e sostituisce tutti i precedenti.	VALIDITY	=	This price list cancels and replaces all previous versions.
PREZZI	=	I prezzi sono quotati al pubblico, I.V.A. esclusa, per merce resa franco ns. stabilimento di Colle Val d'Elsa (SI), comprensivo di contributo CONAI.	PRICES	=	The prices indicated in this Price List are to be considered as Public Prices, excluding VAT and Ex-works our warehouse in Colle Val d'Elsa (SI).
TERMINI DI CONSEGNA	=	La data di consegna è indicativa. La Karol si impegna comunque a rispettarla nel modo più preciso possibile. Non si accettano penalità né responsabilità per ritardata consegna.	DELIVERY TERMS	=	The lead time shown in our order confirmations has an indicative value. Penalties and responsibilities due to delayed delivery are not accepted. Anyway Karol engages in respecting them properly.
TRASPORTO	=	Le consegne in Italia sono effettuate con ns. spedizionieri alle seguenti condizioni: - Porto Franco con addebito in fattura di € 30,00 per singole consegne d'importo netto merce (I.V.A. esclusa) da € 55,00 a € 250,00; - Porto Franco con addebito in fattura di € 20,00 per singole consegne d'importo netto merce (I.V.A. esclusa) da € 251,00 a € 649,00; - Porto Franco senza addebito in fattura per singole consegne d'importo netto merce (I.V.A. esclusa) € 650,00 ed oltre.	TRANSPORT	=	The receiver is due to inspect the goods immediately upon delivery and to report any defect or transport damage in the delivery document, as well as with an official claim sent to Karol within 7 days from the arrival of the goods. No transport claims will be accepted after this term.
ACCETTAZIONE MERCE	=	È obbligo del ricevente controllare lo stato della merce e segnalare eventuali danni o difetti nel DDT, e farne comunicazione scritta alla Karol entro 7 giorni dalla data della ricezione. Qualora non fosse possibile controllare lo stato della merce al momento della ricezione, è necessario accettare la consegna con riserva di controllo; il ricevente ha comunque 7 giorni di tempo per controllare gli articoli e segnalare eventuali danni occulti all'azienda Karol. Trascorsi sette giorni dall' arrivo della merce, non saranno accettate contestazioni per danni di trasporto.	PAYMENTS	=	If the client is insolvent or in default, Karol has the right to suspend any deliveries and pending order, without notice or obligation. Furthermore, Karol reserves the right to take legal action to seek compensation for damages suffered.
PAGAMENTI	=	Al verificarsi di un mancato pagamento nei termini stabiliti, la Karol ha la facoltà di sospendere immediatamente tutte le consegne, senza preavviso, e di annullare gli eventuali ordini in corso. La Karol si riserva di adire le vie legali a tutela dei propri diritti e per il risarcimento dei danni subiti e subendi.	RETURNS	=	Goods returns are not accepted if not previously authorized. Authorized goods returns shall be sent free of charge to the warehouse of our company in Colle val d'Elsa (Siena, Italy). The sender shall always give copy of the return authorization in the delivery note, so that our staff can accept the goods. Unpacked or badly packed goods will be immediately checked by Karol staff, who will assess their conditions and charge their value to the sender.
RESI	=	Non si accettano resi di merce se non precedentemente autorizzati. I resi autorizzati dovranno esser spediti in Porto Franco al ns. stabilimento. Lo spedente dovrà sempre evidenziare nel DDT il numero di autorizzazione o allegare la copia affinché il ns. personale possa accettare la merce. Eventuali resi senza imballo o imballati in modo precario, saranno immediatamente analizzati dalla Karol che si riserva la facoltà di valutarne lo stato e di addebitarne il valore allo spedente.	INSTALLATION	=	Karol is not liable if the products are incorrectly installed or improperly used. An incorrect use of the product releases Karol from all responsibilities.
INSTALLAZIONE	=	La Karol declina ogni responsabilità in caso di errata installazione od uso improprio dei prodotti di nostra fabbricazione. I danni diretti o indiretti, subiti dall'acquirente per errata installazione, trascuratezza, uso scorretto del prodotto, escludono la Karol da ogni responsabilità. L'azienda non si farà carico di spese conseguenti al montaggio di merce difettosa.	MODIFICATIONS	=	At any time, Karol reserves the right to make modifications to the products, prices, or dimensions included in this price list, without any obligation to provide advance notice.
MODIFICHE	=	La Karol si riserva il diritto di apportare in qualsiasi momento, senza alcun obbligo di preavviso, tutte le modifiche di prodotto, di prezzo e di dimensioni che riterrà opportune agli articoli inseriti nel presente listino.	DISPUTES	=	The Court of Torino is the sole place of Jurisdiction for any dispute.
CONTROVERSIE	=	Per qualunque controversia è solo competente il Foro di Torino.			

KUT Collection

La collezione KUT si inserisce tra i più innovativi scenari del design contemporaneo. Il principale segno distintivo che caratterizza la collezione è la maniglia, rappresentata da una linea inclinata che ‘spezza’ forme assolute, personalizzabile grazie all’ampia gamma di possibili finiture. Lo sviluppo di materiali innovativi, in primis la raffinatissima gamma di metalli spazzolati studiati appositamente per questa linea conduttrice, si riscontra anche in altri elementi della collezione (posta-salviette, profilo luminoso, mensola portaoggetti). Con KUT, Karol “taglia” delicatamente i volumi del mobile realizzando fianchi ultra sottili in metallo che creano, in contrasto con top e maniglia, un’inclinazione che ritroviamo ancora sulla raffinata forma interna del lavabo integrato, disponibile in Solid Surface o Gres porcellanato. KUT offre una grande possibilità di personalizzazione degli spazi interni con cassetti-organizer (proposti come elementi indipendenti oppure come cassetti interni) e accessori porta-oggetti realizzati in un elegante tessuto lavabile e idrorepellente, il quale riveste anche il fondo dei cassetti della collezione.

KUT collection stands out as a highly innovative range in Contemporary Design. Its main distinctive feature is the handle, an inclined line that breaks absolute shapes, thus becoming an exquisitely personal expression trait, thanks to the wide range of possible finishes. The use of innovative materials, such as the extremely refined brushed metals specifically studied for this “leading line”, can be found in other elements of the range (towel holder, decorative profile with light, wall-mounted storage shelf). With KUT collection, Karol delicately “cuts” the volume of the cabinet with the introduction of extra-thin metal sidess which create, in contrast with the top and the handle, an inclination that can be found also in the polished inclination of the integrated basin, available in Solid Surface or in porcelain Stoneware. KUT offers the possibility to customize the internal space of the cabinets with the introduction of drawers-organizer (proposed as independent elements or as internal drawers) and accessories made in a washable and water-repellent carpet, the same fabric used to clad the bottom of all drawers included in the collection.

Karol

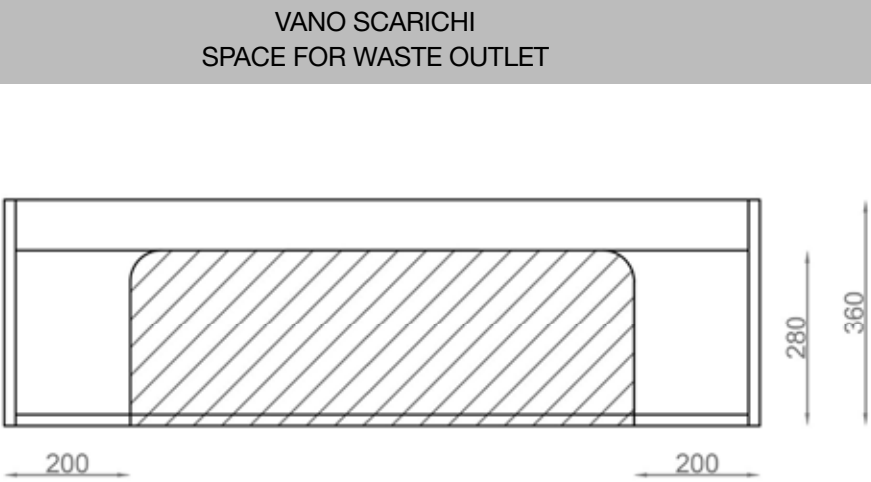

5

CARATTERISTICHE
FEATURES

- Forme inedite caratterizzate da linee inclinate
- Nuovo sistema di apertura con maniglia funzionale e decorativa, realizzabile in finitura laccata, legno, metallo, gres porcellanato
- Possibilità di sfruttare tutto il cassetto portalavabo (senza scasso per sifone)
- Fianchi in acciaio verniciato che nascondono lo spessore dell’anta
- Top con vasca integrata con una parete inclinata e scarico a lama (Solid Surface o gres)
- Fondo dei cassetti arricchito da un tappeto realizzato in un tessuto lavabile e idrorepellente
- Possibilità di inserire porta-oggetti interni e cassetto organizer

- Innovative shapes with inclined lines
- New opening system with functional and decorative handle, available in different finishes (lacquered, wood, metal, porcelain stoneware)
- Possibility to fully use the space insides the drawer (no cut for siphon)
- Thin sidess made in painted metal that hide the thickness of the door
- Top with integrated basin, inclined shape and slit waste (Solid Surface or porcelain stoneware)
- Bottom of drawers enriched by a washable and water-repellent carpet
- Possibility to introduce internal object-holder and drawer-organizer

MUTEVOLE Collection

Mutevole è una collezione originale, che introduce finiture e caratteristiche uniche, attenta alle esigenze di praticità e adattabilità. Grazie alle linee essenziali e ai cambi di profondità, si adatta perfettamente a tutti gli ambienti, ed i suoi elementi offrono infinite possibilità compositive e soluzioni versatili per una massima libertà di espressione. L'innovatività di Mutevole risiede nella possibilità di personalizzare ciascun elemento della composizione: la reversibilità dei moduli installabili secondo i propri gusti e necessità, e la possibilità di scelta tra ante in essenza a vena verticale o orizzontale oppure laccate nei colori preferiti, consente soluzioni stilisticamente originali e uniche. Caratteristica che la rende singolare è inoltre l'unione tra legno e metallo, quest'ultimo presente in molti elementi e componenti della collezione (maniglia, gamba decorativa, mensole, elementi di giunzione, pensili). Mutevole introduce un nuovo modello di ampio lavabo in Solid Surface, disponibile in diversi colori, che occupa tutta la larghezza del mobile, facendo sì che non sia più necessaria la presenza del top. Completa la collezione un'ampia gamma di accessori che permette di organizzare lo spazio interno dei cassetti.

Mutevole is a new and original collection, highly customizable for every kind of space and style, with unique features and finishes. Thanks to its basic lines and possible changes in depth, the collection meets any space requirement: it is perfect for small bathrooms and can be an elegant solution for bigger contexts. What makes the Mutevole collection truly innovative is the possibility to customize every element of the composition and create flexible combinations in any environment. The reversible modules can be installed according to any taste and requirements, also offering the possibility to choose between vertical or horizontal grain wood and lacquered doors in all Karol colours, to create original and unique solutions. The distinguishing feature of Mutevole is the union between two materials: wood and metal, the latter being the finish of many elements in the collection (handle, decorative leg, shelves, connecting elements, wall-mounted cabinets). Mutevole introduces a new model of wide basin in Solid Surface, available in different colors, which takes the same width as the vanity unit, thus avoiding the presence of the top.

BANIA Collection

design Luca Bojola

Bania si distingue dalle altre serie Karol come la più romantica e raffinata. Tutti gli elementi della collezione sono caratterizzati da forme morbide e linee curve, risultato dell'abilità e qualità produttiva della nostra azienda. La serie è composta non solo da mobili porta lavabo (sia in versione sospesa sia a terra), ma anche da una serie di complementi d'arredo, quali colonne, contenitori a terra, chaise-longue, pouf, vasca da bagno, specchi, lampade e vari accessori (disponibili in finitura cromo e oro). I mobili Bania sono realizzabili in tutti i colori laccati Karol, lucidi e opachi, mentre ebano e piuma di mogano sono le finiture legno di pregio disponibili in esclusiva per questa serie. Con l'obiettivo di ottenere un perfetto abbinamento funzionale ed estetico con i mobili porta lavabo, Karol ha selezionato 3 modelli di lavabo da semi-incasso di diverse misure e forme, disponibili in Solid Surface, ceramica, e nelle pietre Bianco Carrara, Nero Marquinia, Pietra Dakar. Grazie alle varie possibilità di scelta e di composizione con i diversi elementi della collezione, Bania è una serie che ben si adatta sia ad ambientazioni classiche, sia in contesti contemporanei.

Bania is recognized as Karol most romantic and charming collection. All the elements included in the range are characterized by pleasant curving lines, which are manufactured with our production skills and thanks to our high quality standards. The series is composed of washbasin cabinets (wall and floor standing version) in different widths, and complementary items such as tall units, floor standing cabinets, chaise-longue, pouf, bathtub, mirrors, lamps and a wide range of accessories (available in chrome or gold finish). Bania furniture can be lacquered in all Karol colors (matt or glossy), while ebony and WENGE are the wood finishes exclusively chosen for this collection. With the aim to reach a perfect match with Bania washbasin cabinets, Karol selected 3 semi-recessed basins available in different finishes: Solid Surface, ceramic, Bianco Carrara marble, Nero Marquinia marble, Dakar Stone. Thanks to the possibility to choose among the different elements and finishes of the collection, Bania collection is suitable for both classic contexts and modern bathroom design.

KS Collection

design Marc Sadler

I mobili della collezione KS nascono dal concetto di eleganza nascosta: all'interno dei cassetti, delle colonne e delle armadiature, la presenza di guide e altre parti metalliche è opportunamente celata alla vista. La collezione si contraddistingue inoltre per la qualità progettuale: grazie ad un vano tecnico ispezionabile sullo schienale del mobile porta lavabo, tutti i collegamenti idraulici sono nascosti. Tale innovazione offre l'opportunità di collocare il lavabo nella posizione desiderata indipendentemente dalla posizione degli scarichi. Possibilità di abbinare al mobile lavabi da appoggio, sottopiano in ceramica oppure lavabi in Corian® dalla particolare forma integrata. Da non dimenticare Kalla, lavabo dalla forma sinuosa, caldo e morbido al tatto, con effetto insonorizzante allo scroscio dell'acqua. Il "plus" del prodotto è dato dal materiale e dalla verniciatura, che lo rendono molto durevole e resistente agli agenti esterni (graffi, prodotti chimici, cambiamenti climatici e di luce).

The cabinets included in KS collection derive from the idea of concealed elegance: drawers are made in birch multilayer plywood and don't need to have any cut-out, since the structure of the washbasin cabinet is equipped with a 7 cm inspectable section on the back which has the function to hide the plumbing space. This innovation allows to have the basin in the requested position (central or off-centre), and does not depend on the drain position. Possibility to match the furniture with counter basins, undercounter basin in ceramic or integrated basins in Corian® with a unique "KS" shape. The series also includes the special basin KALLA, which evokes a flower's corolla, made in an innovative, warm and soft material belonging to polymers. Available in white, red and black, the basin is able to muffle the sound of flowing water. Its material and external painting make the basin very resistant and extremely long lasting; the surface is easy to clean and does not change neither with temperature nor with light variations, thus being very suitable for bathrooms.

CARATTERISTICHE
FEATURES

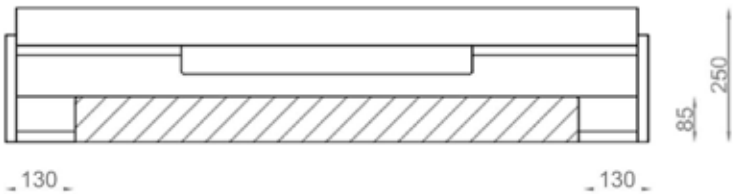

- Portalavabi con struttura a monoblocco
 - Dimensioni: larghezza da cm 80 a cm 180, altezza cm 25, cm 45 e cm 65, profondità cm 51
 - L'altezza cm 65 è dotata di cassetto interno
 - Cassetti in multistrato di betulla grigia
 - Vano tecnico di 7 cm nella parte posteriore del portalavabo
 - Sifone da collocare sul retro del mobile in modo da rendere fruibile e libero il sottolavabo
 - Apertura possibile grazie ad un'ampia impugnatura a gola
 - Serie completa di colonne
 - Possibilità di utilizzare sifoni salva spazio.
- Vanity units with monobloc structure
 - Sizes: width from 80 to 180 cm, height 25 cm, cm 45 and 65 cm, depth cm 51
 - The units in height cm 65 are equipped with internal drawer
 - Drawers made in multi-layer birch plywood
 - Technical space of 7 cm on the back of vanity units
 - The siphon can be put on the back of the unit in order to save space and to have full drawers (no cut)
 - No visibile handle: opening is possible thanks to the doors structure
 - The collection includes tall units
 - Possibility to use space-saving siphons

MANHATTAN Collection

design Giancarlo Vegni

Con la serie Manhattan Karol offre al mercato una collezione capace di esprimere una forte personalizzazione, in modo da creare un layout di facile adattabilità alle proprie esigenze. Sebbene non sia componibile, poiché costituita da monoblocchi, presenta un'ampia scelta di dimensioni. Inoltre, la serie offre molteplici soluzioni che comprendono cassetti, ante, ribalte o cestoni diversamente combinabili tra loro. Peculiarità di Manhattan è la gola personalizzabile, ovvero un elemento decorativo verticale di 5 cm che può essere realizzato sia nella finitura del mobile sia in qualsiasi altra finitura disponibile a catalogo, o addirittura con piastrelle fornite dal cliente. La ripartizione degli spazi interni è ben organizzata, grazie anche alla possibilità di attrezzare i cassetti con mensole portaoggetti e divisori.

The collection is the highest expression of customizable possibilities, and allows to adapt the furniture layout to the personal needs and preferences. Although Manhattan is not made up of modular units, it offers many solutions which include drawers, doors or flap-doors differently combined with each other. What makes the Manhattan range unique is the customizable vertical recess that joins the elements of each unit. The 5 cm element can be realized in the same finish of the cabinet as well as in any other finish included in our Finishes Book, including leather, marble, stone, mirror or even tiles supplied by the customer. The internal space is well-organized, thanks to the possibility to introduce internal shelves, spacers and object holders.

Karol

URBAN CHIC Collection

design Giancarlo Vegni

URBAN CHIC

Urban Chic costituisce un progetto d'arredo che permette un'ampia scelta compositiva e di organizzazione interna. La struttura semplice e rigorosa della collezione, caratterizzata da una particolare lavorazione dell'anta, è composta da moduli in larghezza 60 e 45 cm (in altezza 61,2 cm) disponibili con anta ad apertura convenzionale, a vasistas oppure estraibile. I moduli contenitori possono essere completati con cassetti interni comprensivi di scomparti make-up e di chiusura di sicurezza per farmaci, ma anche con tutte quelle attrezzature necessarie nel bagno (portaspazzolino, portasapone, portaoggetti, cestino, porta-phon, porta salviette e vassoi contenitori). Le colonne possono essere inoltre dotate di illuminazione interna comandata da un sensore, e sono ideali per essere incassate in nicchie o pareti in cartongesso. Da sottolineare la possibilità di rivestire ante e frontali in cuoio, disponibile in otto colorazioni (naturale, bianco, nero, melanzana, rosso, warm grey e smoke), oppure specchio.

Urban Chic range gives our customers the opportunity to create their own composition and to organize the internal space of the cabinets with internal fittings and accessories. The simple and functional structure of the collection is made up of modules measuring 45 and 60 cm in width. Urban Chic includes a wide range of tall units that can be equipped with an internal lighting kit commanded by a sensor, and they constitute a perfect solution when they are recessed into a niche. The fronts can be made with three different opening types (door, LIFT-UP DOOR or pull out drawers) and are available in lacquered finish (glossy or mat), wood finish, leather ((natural, white, black, aubergine, red, warm grey and smoke). The 51 cm deep cabinets can contain internal drawers with make-up storage or with safety lock, as well as a wide range of equipment solutions which are very useful for the bathroom (toothbrush holder, soap holder, general holder, stainless steel basket, hairdryer holder, towel holder and storage trays).

CARATTERISTICHE
FEATURES

- Collezione modulare, adatta per soluzioni con lavabi sottopiano, da appoggio o integrati
 - Organizzazione degli spazi interni con vari accessori e attrezzature
 - Misure Portalavabi: Larghezza: cm 60-90-120, Altezza cm 61,2
 - Misure colonne e pensili: Profondità cm 28, cm 16 e cm 51, altezza cm 60, cm 120 o cm 180
 - Possibilità di rivestimento ante in cuoio, oppure specchio
 - Sistemi di apertura: vasistas, estraibili o anta convenzionale
 - Kit di illuminazione interno con interruttore comandato da un sensore termico (optional)
-
- Modular collection, suitable for counter, under counter and integrated basins
 - Organisation of internal spaces with a wide range of accessories and fittings
 - Vanity units sizes: width cm 60-90-120, height cm 61,2
 - Tall units and wall cabinets sizes: depth cm 28, cm 16 and cm 51, height cm 60, cm 120 and 180 cm
 - Possibility to add leather coating or mirror on front doors/drawers
 - Opening systems: lift-up door, drawers and simple doors
 - Internal lighting kit with sensor for tall units and wall cabinets (optional)

XIL Collection

design Giancarlo Vegni

Xil è una collezione contraddistinta da una morfologia monoblocco con spessori in evidenza. I mobili porta lavabo sono caratterizzati da una struttura a cornice che delimita lo spazio interno, a giorno o con cestoni estraibili. I frontali sono personalizzabili nelle varie finiture disponibili: laccati, legno, in cuoio, Solid Surface effetto Diamond, con possibilità di scegliere tra apertura con maniglia esterna oppure con sistema push-pull. Tutto ciò concorre a rendere XIL una collezione estremamente elegante ma al contempo funzionale.

Xil range intentionally transcends the solutions that have been used up to now in the bathroom. The collection is characterized by tick shapes and considerable sizes (58 cm depth). The monobloc units are available in different widths and all the washbasin cabinets have a structure with a 8 cm thick frame. The drawers fronts are available in different finishes: lacquered, wood finish, Solid Surface Diamond, leather. Furthermore, it is possible to choose between opening with external handle or push-pull system. Its features make XIL range a very elegant but also functional collection.

Karol

141

- Portalavabi con struttura a monoblocco in 5 larghezze cm 79-110,5-142-173,5-205
- Versione sia sospesa (altezza cm 47,5), che a terra (altezza cm 87)
- Realizzabile in tutte le essenze del legno ed in tutti i colori laccati lucidi ed opachi
- Possibilità di rivestimento ante in cuoio o "diamond"(superficie in Solid Surface con struttura che ricorda le sfaccettature del diamante e disponibile in tutte le finiture laccate)
- Profondità cm 58
- Adatta per soluzioni con lavabi sottopiano, da appoggio o integrati
- Spessore del bordo dei portalavabi, delle mensole e delle cornici degli specchi di cm 8
- Pensili, colonne, teche e mensole nelle stesse essenze

- Vanity units with monobloc structure available in 5 widths: cm 79 - 110,5 - 142 - 173,5 - 205
- Wall-mounted version (H. 47,5 cm), floor standing (H.87 cm)
- Available in all wood finishes and in all matt/glossy lacquered colours
- Possibility to have doors and drawers fronts covered with leather, "Diamond" Solid Surface pattern.
- Depth: 58 cm
- Suitable for undercounter-, counter-, integrated basins
- Thickness of the cabinets frame, shelves, mirrors' frames: 8 cm
- Wall cabinets, tall units, open cabinets and shelves available in the same finishes

LIGNUM Collection

design Giancarlo Vegni

La storica serie Lignum – vero e proprio best seller aziendale – costituisce una collezione dal carattere minimale che permette un’ampia varietà di soluzioni compositive. Tutti gli elementi sono di profondità cm. 51 e sono dotati di cassetti, cesti o cestoni ad estrazione totale. Disponibile nella versione con anta liscia e maniglia esterna, in quella con anta con fresature e maniglia incassata, oppure ancora con anta liscia e sistema di apertura “push-pull”, la collezione offre la possibilità di creare architetture personalizzate nell’ambito di contesti stilistici del tutto diversi. Collezione estremamente versatile, grazie alle caratteristiche facilmente adattabili e personalizzabili.

Lignum – a Karol best seller – is a modular collection with a plain and minimalistic design, and allows to create a wide range of solutions and compositions.

All the cabinets are available with three different opening systems: simple door and external handle (Lignum H), carved door and built-in handle (Lignum), push-pull system (Lignum M). The cabinets’ sizes can be customized and adapted to the clients’ needs, thus allowing to generate different solutions which perfectly suit every kind of bathroom style. For this reason, the collection can be considered as Karol most versatile range.
