

To all our clients/
Purchasing Team

OBJECT: PRICE LISTS INCREASE STARTING 1° AUGUST 2021

Dear Client,

since the entry into force of the last price list, there has been a generalized increase in the production costs mainly due the following factors:

- Progressive increases in raw materials costs.
- Considerable increase in energy costs (freights and transports in general).
- Fluctuation in USD/ EUR exchange rate, thus creating a considerable pressure on prices

Over the last period our company undertook, wherever possible, not to transfer these increases to its clients. Unfortunately, this situation is no longer bearable today and we are forced to revise our price lists. For this reason we are informing you in advance that starting 1° August 2021 our new price lists will come into force with the following increases:

Division Arredobagno (Furniture)

- **5%** increase on the price list Arredobagno 020 (Furniture), except for Kut cabinets which shall be increased by **12%**.

Division Bath+Shower

- **5%** increase on price list Bath+Shower 020, except for KSolid and KStone bathtubs which shall be increased by **12%**.

Available for any further clarifications, we would like to thank you for the trust you have placed in us day by day and we take this opportunity to extend our best regards.
