

MASTELLA 2018

L I S T I N O P R I C E L I S T

GENTILE CLIENTE,
LA LETTURA E L'UTILIZZO DI QUESTO LISTINO TI PORTERÀ
RISULTATI E SODDISFAZIONI.
IL LISTINO RIUNISCE QUATTRO COLLEZIONI DI NOTEVOLE
POTENZIALITÀ ESPRESSIVA.
CON L'USO E LA PRATICA POTRAI CREARE PROPOSTE
ORIGINALI, UNICHE NEL LORO GENERE E NON
CONFRONTABILI CON ALTRE.

DEAR CLIENT,
UNDERSTANDING AND USING THIS PRICE LIST WILL ALLOW
YOU TO ACHIEVE GREAT RESULTS AND SATISFACTION. IN
THIS BOOK YOU WILL FIND FOUR COLLECTIONS OF GREAT
EXPRESSIVE POTENTIAL.
WITH USE AND PRACTICE YOU WILL BE ABLE TO CREATE
AMAZING BATHROOM SETS, UNIQUE AND BEYOND
COMPARISON.

SEHR GEEHRTER KUNDE,
UNSERE NEUE PREISLISTE UMFASST 4 KOLLEKTIONEN UND
ERMÖGLICHT AUSSERGEWÖHNLICH EXPRESSIVE UND
INDIVIDUELLE BADPLANUNGEN, EINZIGARTIG UND NICHT
VERGLEICHBAR IN IHRER ART.

MESDAMES, MESSIEURS
LA LECTURE APPROFONDIE ET L'UTILISATION RÉPÉTÉE DE
CE TARIF VOUS PERMETTRONS D'OBTENIR DES RÉSULTATS
QUI FERONT VOTRE SATISFACTION AINSI QUE CELLE DE VOS
CLIENTS.
CE TARIF RÉUNIT QUATRE COLLECTIONS REMARQUABLES
PAR LEUR DESIGN ET LEUR POTENTIEL.
IL EST POSSIBLE DE CRÉER DES COMPOSITIONS
ORIGINALES, UNIQUES ET INIMITABLES.

BYTE 2.0

BYTE E' UN PROGRAMMA MODULARE CON APERTURA A MANIGLIA, PULL-OUT E FRONTALI BATTENTI.

BYTE IS A MODULAR PROGRAMME WITH OVERLAY FRONTS FITTED WITH HANDLES, PULL-OUT.

BYTE IST EIN MODULARES PROGRAMM MIT GRIFFÖFFNUNG, PULL-OUT UND FRONTEN MIT ANSCHLAG.

BYTE EST UN PROGRAMME MODULAIRE AVEC SYSTÈME D'OUVERTURE PAR POIGNÉE, PULL-OUT ET FAÇADES BATTANTES

IDENTITA' :: IDENTITY :: MERKMALE :: CARACTERISTIQUES

IL PROGRAMMA BYTE 2.0 E' DISPONIBILE CON APERTURA A MANIGLIA E PULL-OUT: SCEGLIERE LA MANIGLIA DESIDERATA (PAG.298) ANTE E CASSETTI SONO A CHIUSURA RALLENTATA. APERTURA A PRESSIONE (PULL-OUT): PER OGNI CASSETTO SARA' APPLICATA UNA MAGGIORAZIONE;

BYTE 2.0 COLLECTION IS AVAILABLE WITH HANDLE AND PULL-OUT OPENING. PLEASE SELECT HANDLE MODEL (PAGE 298). UNITS HAVE SOFT-CLOSE DOORS AND DRAWERS. PUSH OPENING (PULL-OUT): A SURCHARGE IS APPLIED TO EACH DRAWER

DIE SERIE BYTE 2.0 IST MIT GRIFF- UND PULL-OUT ÖFFNUNG VERFÜGBAR: DEN GEWÜNSCHTEN GRIFF AUF DER SEITE 298 AUSWÄHLEN FRONTEN UND SCHUBLADEN MIT GEDÄMPFTEM SELBSTEINZUG. DRUCKÖFFNUNG PULL-OUT: AUFPREIS PRO SCHUBLADE

LA COLLECTION BYTE EST DISPONIBLE AVEC OUVERTURE POIGNÉE ET PULL-OUT : CHOISIR LA POIGNÉE DÉSIRÉ SUR PAGE 298 PORTES ET TIROIRS AVEC FERMETURE AMORTIE

MAGGIORAZIONE: 1 CASSETTO PULL-OUT
 EXTRA CHARGE: 1 PULL-OUT DRAWER.
 AUFPREIS: PULL-OUT PRO SCHUBLADE.
 MAJORATION: 1 TIROIR PULL-OUT

STRUTTURA
 IDROPAN: MATERIALE IN PARTICELLE DI LEGNO, TRATTATO IDROREPELLENTE. BORDATURA CON COLLA POLIURETANICA.

SUPERFICIE
 FINITURA LEGNO: RIVESTIMENTO MELAMINICO.
 FINITURA MAT: LACCATURA OPACA SATINATA.
 FINITURA LUX: LACCATURA LUCIDA.
 FINITURA GRAFITE-HPL / FENIX: LAMINA DI RESINA TERMOINDURENTE AMINOPLASTICA TRATTATA AD ALTISSIMA TEMPERATURA E PRESSIONE.

FINITURA INTERNA: I MODULI FINITURA LEGNO HANNO INTERNAMENTE LA FINITURA LEGNO. I MODULI IN GRAFITE/FENIX HANNO INTERNAMENTE LA FINITURA GRAFITE/FENIX. I MODULI FINITURA MAT - LUX HANNO INTERNAMENTE LA FINITURA MELAMINICA COLOR TORTORA. I MODULI IN FINITURA LEGNO, FENIX E GRAFITE HANNO LA SCHIENA IN MELAMINICO COLOR TORTORA.

IDROPAN: PANEL MADE OF PARTICLES OF WATER-REPELLENT TREATED WOOD. POLYURETHANE GLUE ON THE EDGE.

WOOD FINISH: MELAMINE COATING
 MAT FINISH: SATIN MATT LACQUER
 LUX FINISH: HIGH GLOSS LACQUER
 GRAFFITE-HPL / FENIX FINISH: HIGH PRESSURE THERMOSET AMINOPLASTIC RESIN LAMINATE
 INTERNAL FINISH: WOODEN UNITS HAVE WOODEN INTERNAL FINISH. GRAFFITE/FENIX UNITS HAVE GRAFFITE/FENIX INTERNAL FINISH. IN MAT AND LUX UNITS THE INSIDE IS IN TORTORA-COLOUR MELAMINE. PLEASE NOTE THAT THE BACK PANEL OF WOOD, FENIX AND GRAFFITE UNITS IS IN TORTORA-COLOUR MELAMINE

STRUKTUR
 IDROPAN: WASSERABWEISENDE SPANPLATTE, KANTENANLEIMUNG MIT POLYURETHANKLEBSTOFF.

OBERFLÄCHE HOLZ: MELAMINBESCHICHTET
 OBERFLÄCHE MAT: MATT SATINIERTER LACKIERUNG.
 OBERFLÄCHE LUX: HOCHGLANZLACKIERUNG
 OBERFLÄCHE GRAFITE / FENIX: HPL (HIGH PRESSURE LAMINATE)

OBERFLÄCHE KORPUSINNENSEITEN: BEI HOLZDEKOR IST AUCH DIE INNERE OBERFLÄCHE IN HOLZDEKOR. BEI MODULEN IN GRAFITE/FENIX IST DIE INNEN-OBERFLÄCHE AUCH IN GRAFITE/FENIX. BEI ALLEN LACK-OBERFLÄCHEN MAT-LUX IST DER KORPUS INNEN TORTORA MELAMINBESCHICHTET. BEI ALLEN MODULEN IN HOLZDEKOR- UND GRAFITE/FENIX OBERFLÄCHEN IST DIE RÜCKWAND TORTORA MELAMINBESCHICHTET.

STRUCTURE
 IDROPAN: MATERIEL DE PARTICULES DE BOIS TRAITE HYDRO REPELLENT. BORD AVEC COLLE POLYURETHANE

FINITION
 FINITION BOIS: REVETEMENT MELAMINE
 FINITION MAT: LAQUAGE OPAQUE SATINE
 FINITION LUX: LAQUAGE BRILLANT
 FINITION GRAFITE-HPL / FENIX: FEUILLE SPECIALE THERMODURCISABLES AMINO-PLASTIQUES TRAITÉES A TRÈS HAUTE TEMPERATURE ET PRESSION.

FINITION INTERIEURE: TOUS LES MODULES EN BOIS ONT FINITION INTERIEURE EN BOIS. TOUS LES MODULES GRAFITE/FENIX ONT FINITION INTERIEURE GRAFITE/FENIX TOUS LES MODULES FINITION MAT-LUX ONT FINITION INTERIEURE MELAMINE COULEUR TORTORA. TOUS LES MODULES FINITION BOIS, FENIX ET GRAFITE ONT LES DOS EN FINITION MELAMINE COULEUR TORTORA

INFO TECNICHE :: TECHNICAL INFORMATION :: TECHNISCHE INFORMATIONEN :: INFORMATIONS TECHNIQUES

TUTTI I PORTALAVABO DI PROFONDITA' 50 CM SONO PRIVI DEL FONDO SUPERIORE E QUELLO INFERIORE E' SEMPRE IN FINITURA LEGNO O MELAMINICO TORTORA. TUTTI I MODULI PROFONDITA' 50 CM HANNO SEMPRE I FONDI SUPERIORE ED INFERIORE IN LEGNO O IN MELAMINICO TORTORA.	ALL 50 CM DEEP WASH BASIN UNITS ARE SUPPLIED WITHOUT TOP PANEL.THE BOTTOM PANEL IS ALWAYS IN WOODEN FINISH OR MELAMINE TORTORA.THE TOP AND BOTTOM PANEL OF THE 50 CM DEEP MODULES ARE ALWAYS IN WOODEN FINISH OR IN MELAMINE TORTORA.	ALLE WTU IN TIEFE 50CM SIND OHNE ABDECKPLATTE, DER BODEN IST IMMER IN HOLZDEKOR ODER IN TORTORA MELAMINBESCHICHTET. ALLE MODULE IN TIEFE 50CM SIND IMMER MIT ABDECKPLATTE UND BODEN IN HOLZDEKOR ODER TORTORA MELAMINBESCHICHTET.	TOUS LES PORTE LAVABOS EN PROFONDEUR 50 CM SONT SANS LE FOND SUPERIEUR ET LE FOND INFERIEUR EST TOUJOURS EN FINITION BOIS OU MELAMINE TORTORA. TOUS LES MODULES PROFONDEUR 50 CM ONT TOUJOURS LES FONDS SUPERIEURS ET INFERIEURS EN FINITION BOIS OU EN MELAMINE TORTORA.
CASSETTI: STRUTTURA INTERNA IN METALLO CON CHIUSURA RALLENTATA.	DRAWERS: SOTF-CLOSE DRAWERS WITH METAL STRUCTURE	SCHUBLADEN: SEITEN IN METALL MIT SOFT CLOSE SYSTEM (GEDÄMPFTER SELBSTEINZUG).	TIROIRS: STRUCTURE INTERIEURE EN METAL ET FERMETURE ARMOTIE.
RIPIANI INTERNI: SONO FORNITI DI SERIE IN VETRO CON REGGI RIPIANO IN METALLO.	INTERNAL SHELVES: GLASS SHELVES WITH METAL BRACKETS AS STANDARD	Einlegeböden: AUS GLAS, HALTERUNGEN AUS METALL.	ETAGERES INTERIEURES: LES ETAGERES SONT EN VERRE AVEC SUPPORT EN METAL.
FINITURE MISTE: QUANDO UN MODULO VIENE RICHIESTO CON FRONTALI DI FINITURA MISTA (LEGNO+LACCATO) IL PREZZO È QUELLO DEI FRONTALI FINITURA "TUTTO LACCATO".	COMBINATION OF FINISHES: IN CASE YOU CHOOSE A COMBINATION OF FINISHES FOR THE FRONTS OF YOUR UNITS, FRONTS MUST BE PRICED IN THE HIGHEST PRICE RANGE (I.E. ALL LACQUERED)	GEMISCHTE OBERFLÄCHEN: WENN EIN MODUL MIT FRONTEN IN VERSCHIEDENEN OBERFLÄCHEN GEWÜNSCHT IST (HOLZ-LACK) WIRD DER PREIS DER LACKIERTEN VERSION BERÜCKSICHTIGT.	FINITIONS MIXTES: MODULES AVEC FACADES FINITION MIXTE (BOIS+LAQUE) PRIX FINITION "TOUT LAQUE".
ALTEZZE: I MODULI DI SERIE SONO FORNITI PER ESSERE SOSPESI A PARETE, A RICHIESTA POSSONO ESSERE DOTATI DI ZOCCOLI (H8 CM) O SUPPORTI VARI LE CUI ALTEZZE VANNO AGGIUNTE A QUELLE DEI MODULI.	HEIGHTS: WALL-HUNG UNITS WITH ANTI-FALL SYSTEM AS STANDARD; UNITS CAN BE SUPPLIED WITH PLINTH (H8 CM) OR OTHER SUPPORTS UPON REQUEST. PLEASE NOTE HEIGHT OF SUPPORT MUST BE ADDED TO THE HEIGHT OF THE UNIT.	HÖHEN: DIE MODULE SIND FÜR WANDMONTAGE VORGESEHEN. AUF ANFRAGE SIND DIE MODULE MIT SOCKEL (8CM HÖHE) ODER ANDEREN TRÄGERN VERFÜGBAR.	HAUTERS: LES MODULES STANDARD SONT SUSPENDUS. ILS PEUVENT ETRE FOURNIS AVEC SOCLE (H 8 CM) OU SUPPORTS DIFFERENTS DONT LES HAUTERS DOIVENT ETRE AJOUTEES A L'HAUTER DES MODULES.

KAMI

KAMI E' UN PROGRAMMA MODULARE CON APERTURE A MANIGLIA , GOLA E PULL-OUT.

I FRONTALI SONO INCASSATI NEI FIANCHI TERMINALI SPESSI 18 MM.

KAMI IS A MODULAR PROGRAMME WITH HANDLE, GOLA AND PULL-OUT OPENING SYSTEM. THE INSET FRONTS SIT FLUSH WITH THE 18 MM SIDES

KAMI IST EIN MODULARES PROGRAMM MIT GRIFF-GRIFFMULDEN- ODER PULL-OUT ÖFFNUNG.

DIE FRONTEN SIND ZWISCHEN DEN 18MM STARKEN SEITENWANGEN EINGEBAUT.

KAMI EST UN PROGRAMME MODULAIRE AVEC SYSTÈME D'OUVERTURE PAR POIGNÉE, PRISE DE MAIN ET PULL-OUT.

LES FAÇADES SONT CONTENUES DANS LES CÔTÉS TERMINALES ÉPAISSEUR 18 MM

IDENTITA' :: IDENTITY :: MERKMALE :: CARACTERISTIQUES

KAMI E' RICONOSCIBILE PER LA PRESENZA DI FIANCHI TERMINALI CON SPESSORE 18 MM. QUESTA CARATTERISTICA CONSENTE DI OFFRIRE TRE TIPI DI APERTURA: MANIGLIA, PULL-OUT E GOLA.
APERTURA A MANIGLIA: SCEGLIERE IL TIPO DI MANIGLIA. (PAG. 298)
APERTURA A GOLA: NEI LACCATI IL COLORE DELLA BARRA (GOLA) E' UGUALE AL FRONTALE. PER LE FINITURE LEGNO E GRAFITE GLI ABBINAMENTI FRONTALI-GOLA SONO:

KAMI IS CHARACTERIZED BY UNITS WITH 18 MM EDGE SIDES. THIS FEATURE ALLOWS 3 TYPES OF OPENING SYSTEMS: HANDLE, PULL-OUT AND GOLA.
HANDLE OPENING SYSTEM: HANDLE MODELS ARE ON PAGE 298
GOLA OPENING SYSTEM: IN LACQUERED UNITS, THE COLOUR OF GOLA PROFILE IS THE SAME AS THE COLOUR OF THE FRONT OF THE UNIT. IN UNITS WITH WOOD AND GRAFFITE FINISHES, THESE ARE OUR FRONT-GOLA COLOUR COMBINATION:

KAMI ERKENNT MAN AN DEN 18MM STARKEN SEITENTEILEN. DIESE ERMÖGLICHEN VERSCHIEDENE ÖFFNUNGSSYSTEME: GRIFF, PULL-OUT UND GRIFFMULDE.
GRIFFÖFFNUNG: AUSWAHL DER GRIFFE (SEITE 298)
GRIFFMULDE: BEI LACKIERTEN MODULEN IST DIE FARBE DER GRIFFMULDE IMMER DIE DER FRONTEN.
 BEI HOLZDEKOR UND GRAFITE OBERFLÄCHEN GIBT ES FOLGENDE FRONT-GRIFFMULDE KOMBINATIONEN:

KAMI: COTES TERMINALES EPAISSEUR 18MM. TROIS SYSTEMES D'OUVERTURE : POIGNEE, PULL-OUT, PRISE DE MAIN
POIGNEE : CHOISIR POIGNEE PAG 298

DRESS 2.0

DRESS 2.0 E' UN PROGRAMMA MODULARE CON APERTURE A MANIGLIA , GOLA E PULL-OUT.

I FRONTALI SONO INCASSATI NEI FIANCHI TERMINALI STONDATI SPESSI 30 MM.

DRESS IS A MODULAR PROGRAMME WITH HANDLE, GOLA AND PULL-OUT OPENING SYSTEM. THE INSET FRONTS SIT FLUSH WITH THE 30 MM CURVED SIDES.

DRESS IST EIN MODULARES PROGRAMM MIT GRIFF-GRIFFMULDEN- ODER PULL-OUT ÖFFNUNG.

DIE FRONTEN SIND ZWISCHEN DEN 30MM STARKEN GERUNDETEN SEITENWANGEN EINGEBAUT.

DRESS 2.0 EST UN PROGRAMME MODULAIRE AVEC SYSTÈME D'OUVERTURE PAR POIGNÉE, PRISE DE MAIN ET PULL-OUT.

LES FAÇADES SONT CONTENUES DANS LES CÔTÉS TERMINALES ÉPAISSEUR 30 MM

DRESS 2.0: I FIANCHI SONO SEMPRE LACCATI

DRESS 2.0: SIDES ARE ALWAYS LACQUERED

DRESS 2.0: DIE SEITENTEILE SIND IMMER LACKIERT

DRESS 2.0: COTES TOUJOUR LAQUES

DRESS 2.0 E' RICONOSCIBILE PER LA PRESENZA DI FIANCHI TERMINALI CON SPESSORE 30 MM E PROFILO STONDATE. QUESTA CARATTERISTICA CONSENTE DI OFFRIRE TRE TIPI DI APERTURA: MANIGLIA, PULL-OUT E GOLA.

APERTURA A MANIGLIA: SCEGLIERE IL TIPO DI MANIGLIA. (PAG. 298)

APERTURA A GOLA: NEI LACCATI IL COLORE DELLA BARRA (GOLA) E' UGUALE AL FRONTALE. PER LE FINITURE LEGNO E GRAFITE GLI ABBINAMENTI FRONTALI-GOLA SONO:

DRESS 2.0 IS CHARACTERIZED BY UNITS WITH 30 MM EDGE CURVED SIDES. THIS FEATURE ALLOWS 3 TYPES OF OPENING SYSTEMS: HANDLE, PULL-OUT AND GOLA.

HANDLE OPENING SYSTEM: HANDLE MODELS ARE ON PAGE 298

GOLA OPENING SYSTEM: IN LACQUERED UNITS, THE COLOUR OF GOLA PROFILE IS THE SAME AS THE COLOUR OF THE FRONT OF THE UNIT. IN UNITS WITH WOOD AND GRAFFITE FINISHES, THESE ARE OUR FRONT-GOLA COLOUR COMBINATION:

DRESS 2.0 ERKENNT MAN AN DEN 30MM STARKEN GERUNDETEN SEITENTEILEN. DIESE ERMÖGLICHEN VERSCHIEDENE ÖFFNUNGSSYSTEME: GRIFF, PULL-OUT UND GRIFFMULDE.

GRIFFÖFFNUNG: AUSWAHL DER GRIFFE (SEITE 298)

GRIFFMULDE: BEI LACKIERTEN MODULEN IST DIE FARBE DER GRIFFMULDE IMMER DIE DER FRONTEN.

BEI HOLZDEKOR UND GRAFITE OBERFLÄCHEN GIBT ES FOLGENDE FRONT-GRIFFMULDE KOMBINATIONEN:

DRESS 2.0: COTES TERMINALES EPAISSEUR 30MM ET COURBEES.

TOIS SYSTEMES D'OUVERTURE : POIGNEE, PULL-OUT, PRISE DE MAIN

POIGNEE : CHOISIR POIGNEE PAG 298

SUMMIT 2.0

SUMMIT 2.0 E' UN PROGRAMMA MODULARE CON APERTURE A MANIGLIA , GOLA E PULL-OUT.

**I FRONTALI SONO INCASSATI NEI FIANCHI E FONDII SPESSI 12 MM.
TOP SPESSORE 12 MM A PAG. 245**

SUMMIT 2.0 IS A MODULAR PROGRAMME WITH HANDLE, GOLA AND PULL-OUT OPENING SYSTEM. THE INSET FRONTS SIT FLUSH WITH THE 12 MM SIDES AND BOTTOM PANEL.

12 MM TOP ON PAGE 245

SUMMIT IST EIN MODULARES PROGRAMM MIT GRIFF-GRIFFMULDEN-ODER PULL-OUT ÖFFNUNG.

DIE FRONTEN UND DIE BODEN SIND ZWISCHEN DEN 12MM STARKEN SEITENWANGEN EINGEBAUT

**DIESE SEKTION ERLAUBT DIE PLANUNG PERSONALISIERTER MODULE.
(SEITE 245)**

SUMMIT EST UN PROGRAMME MODULAIRE AVEC SYSTÈME D'OUVERTURE PAR POIGNÉE, PRISE DE MAIN ET PULL-OUT

LES FAÇADES SONT CONTENUES DANS LES JOVES ET FONDS ÉPAISSEUR 12 MM.

PLAN EPAISSEUR 12 MM PAGE 245

SUMMIT 2.0: FIANCHI E FONDO SONO SEMPRE LACCATI
SUMMIT 2.0: SIDES AND BOTTOM PANEL ARE ALWAYS LACQUERED
SUMMIT 2.0: SEITENTEILE UND BODEN SIND IMMER LACKIERT
SUMMIT 2.0: COTES ET FONDS EXCLUSIVEMENT LAQUES

SUMMIT 2.0 E' RICONOSCIBILE PER LA PRESENZA DI FIANCHI TERMINALI E FONDO CON SPESSORE 12 MM. QUESTA CARATTERISTICA CONSENTE DI OFFRIRE TRE TIPI DI APERTURA: MANIGLIA, PULL-OUT E GOLA.
APERTURA A MANIGLIA: SCEGLIERE IL TIPO DI MANIGLIA. (PAG. 298)
APERTURA A GOLA: NEI LACCATI IL COLORE DELLA BARRA (GOLA) E' UGUALE AL FRONTALE. PER LE FINITURE LEGNO E GRAFITE GLI ABBINAMENTI FRONTALI-GOLA SONO:

SUMMIT 2.0 IS CHARACTERIZED BY UNITS WITH 12 MM EDGE SIDES AND 12 MM EDGE BOTTOM PANEL. THIS FEATURE ALLOWS 3 TYPES OF OPENING SYSTEMS: HANDLE, PULL-OUT AND GOLA.
HANDLE OPENING SYSTEM: HANDLE MODELS ARE ON PAGE 298
GOLA OPENING SYSTEM: IN LACQUERED UNITS, THE COLOUR OF GOLA PROFILE IS THE SAME AS THE COLOUR OF THE FRONT OF THE UNIT. IN UNITS WITH WOOD AND GRAFFITE FINISHES, THESE ARE OUR FRONT-GOLA COLOUR COMBINATION:

SUMMIT 2.0 ERKENNT MAN AN DEN 12MM STARKEN SEITEN UND BODEN. DIESE ERMÖGLICHEN VERSCHIEDENE ÖFFNUNGSSYSTEME: GRIFF, PULL-OUT UND GRIFFMULDE.
GRIFFÖFFNUNG: AUSWAHL DER GRIFFE (SEITE 298)
GRIFFMULDE: BEI LACKIERTEN MODULEN IST DIE FARBE DER GRIFFMULDE INMIMER DIE DER FRONTEN.
BEI HOLZDEKOR UND GRAFITE OBERFLÄCHEN GIBT ES FOLGENDE FRONT-GRIFFMULDE KOMBINATIONEN:

SUMMIT 2.0: COTES TERMINALES EPAISSEUR 12MM
TROIS SYSTEMES D'OUVERTURE : POIGNEE, PULL-OUT, PRISE DE MAIN
POIGNEE : CHOISIR POIGNEE PAG 298

STRUTTURA
IDROPAN: MATERIALE IN PARTICELLE DI LEGNO, TRATTATO IDROPELLENTE. BORDATURA CON COLLA POLIURETANICA.

SUPERFICIE
FINITURA LEGNO: RIVESTIMENTO MELAMINICO.
FINITURA MAT: LACCATURA OPACA SATINATA.
FINITURA LUX: LACCATURA LUCIDA.
FINITURA GRAFITE-HPL / FENIX: LAMINA DI RESINA TERMOINDURENTE AMINOPLASTICA TRATTATA AD ALTISSIMA TEMPERATURA E PRESSIONE.

FINITURA INTERNA: TUTTI I MODULI HANNO LA FINITURA INTERNA IN MELAMINICO COLOR TORTORA.
ANTE E FRONTALI CASSETTO SONO IN MELAMINICO COLOR TORTORA NEI COLORI MAT E LUX. ANTE E FRONTALI CASSETTO LEGNO, GRAFITE / FENIX HANNO LA STESSA FINITURA SIA ALL'ESTERNO CHE ALL'INTERNO.

IDROPAN: PANEL MADE OF PARTICLES OF WATER-REPELLENT TREATED WOOD. POLYURETHANE GLUE ON THE EDGE.

WOOD FINISH: MELAMINE COATING
MAT FINISH: SATIN MATT LACQUER
LUX FINISH: HIGH GLOSS LACQUER
GRAFITE FINISH-HPL / FENIX: HIGH PRESSURE THERMOSET AMINOPLASTIC RESIN LAMINATE

INTERNAL FINISH: THE INSIDE OF THE UNITS IS IN TORTORA-COLOUR MELAMINE. PLEASE NOTE THAT WOOD AND GRAFFITE / FENIX DOORS AND DRAWER FRONTS HAVE THE SAME FINISH ON THE INSIDE AND ON THE OUTSIDE, WHILE MAT AND LUX DOORS AND DRAWER FRONTS HAVE TORTORA FINISH ON THE INSIDE.

STRUKTUR:
IDROPAN: WASSERABWEISENDE SPANPLATTE, KANTENANLEIMUNG MIT POLYURETHANKLEBSTOFF.

OBERFLÄCHE HOLZ: MELAMINBESCHICHTET
OBERFLÄCHE MAT: MATT SATINIERTE LACKIERUNG.
OBERFLÄCHE LUX: HOCHGLANZLACKIERUNG
OBERFLÄCHE GRAFITE / FENIX: HPL (HIGH PRESSURE LAMINATE)

OBERFLÄCHE KORPUSINNENSEITEN: DIE INNEN-OBERFLÄCHE ALLER MODULE IST IMMER TORTORA MELAMINBESCHICHTET. FRONTEN UND SCHUBKASTENVORDERSTÜCKE SIND BEI LACKIERTEN OBERFLÄCHEN (LUX U. MAT) IMMER IMMER TORTORA MELAMINBESCHICHTET. FRONTEN UND SCHUBLADENVORDERSTÜCKE: IN HOLZDEKOR ODER IN GRAFITE / FENIX HABEN INNEN UND AUSSEN DIESELBE OBERFLÄCHE.

STRUCTURE :
IDROPAN: MATERIEL DE PARTICULES DE BOIS TRAITE HYDRO REPELLENT. BORD AVEC COLLE POLYURETHANE.

FINITION BOIS: REVETEMENT MELAMINE
FINITION MAT: LAQUAGE OPAQUE SATINE
FINITION LUX: LAQUAGE BRILLANT

RIPIANI INTERNI:

I RIPIANI INTERNI HANNO LA SPAZIATURA OGNI 24 CM.
- NEI MODULI H60 E PROF.19 CI SONO DUE RIPIANI EQUAMENTE RIPARTITI.
- NEI MODULI H60 E PROF. 34 VI È UN SOLO RIPIANO INTERNO.
- NEI MODULI H180 LA SPAZIATURA DEL RIPIANO PIÙ ALTO È DI 36 CM.

A RICHIESTA FORI SUPPLEMENTARI PER RIPIANI PASSO 32 MM - CODICE MGG1 € 70

INTERNAL SHELVES:

THE INTERNAL SHELVES HAVE BEEN POSITIONED EVERY 24 CM.
- INSIDE THE MODULE H.60 AND DEPTH 19CM THERE ARE 2 SHELVES EVENLY DIVIDED.
- INSIDE THE MODULE H.60 AND DEPTH 34CM THERE IS ONLY ONE SHELF
- INSIDE THE MODULE H.180 THE MODULARITY OF THE HIGHEST SHELF IS 36CM.

ON REQUEST: EXTRA HOLES FOR INTERNAL SHELVES PACE 32MM - CODE MGG1 € 70

Il telaio del Lumus In è in alluminio laccato opaco: usare lo stesso colore della laccatura del vano a giorno.
Per tutti gli altri casi fare riferimento agli abbinamenti consigliati a pagina 38.

Lumus In frame is made of aluminum and is supplied matt lacquered: use the same colour of the lacquer finish of the open shelf.
For all other cases, please refer to the suggested colour combinations on page 38.

Der Lumus In Rahmen besteht aus einem matt lackierten Aluminiumprofil: dieselbe Farbe des offenen Modules auswählen.
Siehe in allen anderen Fällen die empfohlenen Kombinationen der Seite 38.

Le cadre du Lumus In est en Aluminium laqué mat : utiliser la même finition du module ouvert.
Dans tous les autres cas voir les combinaisons conseillées sur page 38.

BARRA DI RINFORZO AI TOPS DI LEGNO, GRAFITE, MAK, TECNORIL, VETRO
VIENE INSTALLATA IN PRESENZA DI LAVABI SOPRAPIANO.
È DOTATA DI VITE DI REGOLAZIONE.

STRENGTHENED BAR FOR WOODEN TOP, GRAFITE, MAK, TECNORIL, GLASS
IT IS USED IN THE CASE OF SIT ON BASIN AND HAS BEEN PROVIDED WITH ADJUSTMENT SCREW

VERSTÄRKUNGSSTANGE FÜR HOLZDEKORPLATTEN, GRAFITE, MAK, TECNORIL, GLAS
DIESE WIRD IM FALL VON AUFSATZBECKEN EINGEBÄUT UND HAT EINEN VERSTELLSCHRAUBE.

BARRE DE RENFORCEMENT POUR LES PLANS EN BOIS, GRAFITE, MAK, TECNORIL, VERRE
BARRE INSTALLEE POUR LES VASQUES A POSER AVEC VIS DE REGLEMENT.

ATTACCAGLIA PER BASI E PORTALVABI.
HA UNO SPESSORE DI SOLI 10MM, UNA REGOLAZIONE ORIZZONTALE DI 19MM E VERTICALE DI 22MM.
HA UN SISTEMA DI FISSAGGIO CHE IMPEDISCE LO SGANCIO ACCIDENTALE DALLA PARETE. PORTATA 120KG PER ATTACCAGLIA.

HANGER FOR UNITS AND WASH BASIN UNITS.
THICKNESS OF (ONLY)10 mm, AN HORIZONTAL ADJUSTMENT OF 19 mm AND A VERTICAL ADJUSTMENT OF 22 mm.
THE WALL MOUNTING SYSTEM IS DESIGNED NOT TO UNHOOKING ACCIDENTALLY.WEIGHT CAPACITY: 120 KG EACH HANGER.

BEFESTIGUNGSBESCHLAG FÜR WTU UND UNTERSCHRÄNKE
DIESER HAT EINE STÄRKE VON NUR 10MM UND HAT EINEN VERSTELLMCHANISMUS VON 19MM WAAGERECHT UND 22MM SENKRECHT.
DAS BEFESTIGUNGSSYSTEM VERHINDERT EINE VERSEHENTLICHE AUSHÄNGUNG UND HAT EINE TRAGKRAFT VON 120KG PRO ELEMENT.

CROCHET POUR MODULES ET MEUBLES SOUS-VASQUES.
EPAISSEUR 10MM, REGLEMENT HORIZONTAL 19MM ET VERTICAL 22MM.
LE SYSTEME EMPECHE UN DECROCHEMENT ACCIDENTEL DE LA PAROI. CROCHET AVEC 120KG DE PORTEE.

ATTACCAGLIA PER PENSILI E COLONNE. (VISTA DAL RETRO)
UNA REGOLAZIONE VERTICALE DI 12MM, UNA ORIZZONTALE DI 10MM
DOTATA DI SISTEMA ANTISGANCIO. PORTA 65KG PER ATTACCAGLIA

HANGER FOR WALL UNITS AND TALL UNITS. (BACK VIEW)
VERTICAL ADJUSTMENT OF 12 mm, AN HORIZONTAL ADJUMENT OF 10mm,
EQUIPPED WITH ANTI-UNHOOKING SYSTEM. WEIGHT CAPACITY: 65 KG EACH HANGER

BEFESTIGUNGSBESCHLAG FÜR HÄNGE- UND HOCHSCHRÄNKE. (SICHTPUNKT VON HINTEN)
VERSTELLMÖGLICHKEIT SENKRECHT 12MM, WAAGERECHT 10MM,
INKLUSIVE ANTAUSHÄNGUNGSSYSTEM, TRAGKRAFT 65KG PRO BESCHLAG.

CROCHET POUR MODULES SUSPENDUS ET COLONNES. (VUE PAR L'ARRIERE)
REGLEMENT VERTICAL 12MM, HORIZONTAL 10MM AVEC SYSTEME
D'ACCROCHAGE ANTI-DECROCHEMENT DE LA PAROI ET UNE PORTEE DE 65KG.

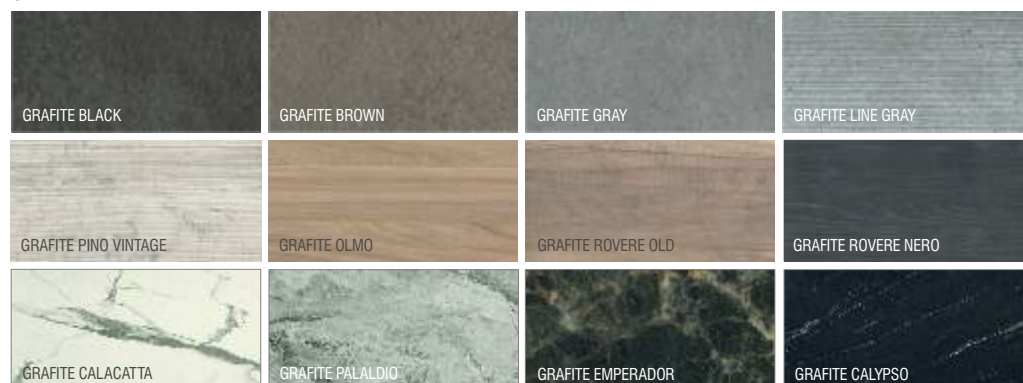

ATTACCAGLIA PER PENSILI E COLONNE. (VISTA DALL'INTERNO)
HANGER FOR WALL UNITS AND TALL UNITS (INTERNAL SIGHT)
BEFESTIGUNGSBESCHLAG FÜR HÄNGE- UND HOCHSCHRÄNKE. (SICHTPUNKT VON INNEN)
CROCHET POUR MODULES SUSPENDUS ET COLONNES. (VUE PAR L'INTERIEUR)

INFO MATERIALI :: MATERIAL'S INFORMATION :: INFO MATERIALIEN :: INFO MATERIAUX

CRISTALPLANT®

COMPOSIZIONE: CristalPlant® è un materiale innovativo, gradevole al tatto, di finitura opaca e bellezza simile alla pietra naturale; CristalPlant® essendo un materiale omogeneo in tutto il suo spessore non teme graffi o scheggiature e può essere ripristinato con semplice uso di spugnette e pulitori abrasivi normalmente in commercio. CristalPlant® è un materiale tecnologicamente avanzato ed unico, formato da un'alta percentuale di cariche minerali naturali ed una bassa percentuale di polimeri poliesteri ed acrilici di elevata purezza; è un materiale inerte, ipoallergenico e non tossico, riciclabile al 100%, ignifugo (classe 1), con un'ottima resistenza agli UV. CristalPlant® è ripristinabile al 100%, ciò significa che può essere riportato all'aspetto originale con un semplice detergente ed una spugnetta abrasiva.

CURA E PULIZIA: prendersi cura di CristalPlant® è semplice e veloce. Alcune sostanze come inchiostro, cosmetici e tinture, a contatto prolungato con il materiale possono rilasciare coloranti sulla superficie. È sufficiente pulire CristalPlant® con acqua saponata o comuni detergenti per rimuovere la maggior parte delle macchie e dello sporco che si possono depositare sulla superficie. Sono in particolare consigliati detergenti abrasivi utilizzati con una spugna abrasiva tipo Scotch Brite® ; in questo modo verrà mantenuta la finitura opaca originale, caratteristica distintiva del CristalPlant®. Inoltre la pulizia frequente di CristalPlant® assicura il mantenimento della bellezza originaria ed impedisce anche i segni di usura nel tempo. Superficie colorata esterna (SOFT TOUCH bicolor): è sufficiente pulire con comuni detergenti per superfici spray e spugna morbida o panno in cotone. NON usare spugne abrasive e NON usare detergenti abrasivi.

MACCHIE: la superficie ha una buona resistenza alle macchie in genere; ciò nonostante si sconsiglia l'utilizzo di prodotti chimici aggressivi quali acetone, trielina, acidi o basi forti. Alcune sostanze come inchiostro, cosmetici e tinture, a contatto prolungato con CristalPlant® possono rilasciare coloranti sulla superficie che possono essere rimosse facilmente con detergente e spugna abrasiva.

DANNEGGIAMENTI: CristalPlant® è un materiale omogeneo in tutto il suo spessore, può quindi essere riparato dalle aggressioni superficiali, quali graffi, bruciature di sigaretta e macchie ostinate semplicemente adoperando una spugnetta abrasiva Scotch Brite® (marchio registrato 3M) ed un comune pulitore abrasivo, strofinare dunque superficialmente la parte danneggiata. Nel caso in cui il danno fosse ancora visibile ripassare levigando con carta abrasiva molto fine. Attenzione: non usare la spugna abrasiva o la carta abrasiva nella parte colorata Soft touch bi-color.

DA EVITARE: solventi come alcool denaturato, acetone, trielina o altri usati nel settore verniciatura, acidi e basi forti come acido muriatico e soda caustica possono alterare le superfici di CRISTALPLANT e della parte colorata Soft touch (bicolor). Non usare prodotti per sturare gli scarichi. Non utilizzare spugne abrasive e carta abrasiva nella parte colorata Soft touch bicolor. Per detergenti di cui non si conosce la potenziale aggressività è bene fare una prova applicativa in una piccola zona non a vista prima di utilizzare il prodotto.

CRISTALPLANT®

COMPOSITION: CRISTALPLANT® is an innovative material which top companies and outstanding designers have chosen for its soft touch effect, its beauty and its similarity to natural stone. Add to its aesthetic quality is technical superiority. Whilst other materials used in this segment once scratched or chipped remain damaged CristalPlant® is a unique, technologically advanced composite material, consisting of a high percentage of natural mineral charges and of a low percentage of polyester and acrylic polymers of considerable purity; it is an inert material, hypoallergenic and non-toxic, 100% recyclable, fireproof (class 1); it has a great resistance to UVs, it is dense and non-porous, hygienic, durable and pleasant-touching, easy on the hands for its velvety texture, similar to natural stone. It is very important to emphasize that frequent cleansing of CRISTALPLANT® ensures that its original beauty is maintained and prevents any signs of wear and ageing.

CARE AND CLEANING: Caring for CRISTALPLANT® is both fast e and easy. Just wash with soapy water and normal detergent to remove most stains and dirt which deposits on the surface. The detergent can be applied with a soft sponge, cotton cloth or abrasive pad like Scotch Brite®. After cleaning, rinse the surface well to prevent halos from forming. Surfaces painted externally with SOFT TOUCH (bi-color): clean with normal detergents for surfaces, using a spray product and soft sponge or cotton cloth. Don't use abrasive sponge and abrasive products.

STAIN: The inner surface of the CRISTALPLANT® is subject to intensive use that could cause signs of surface wear (scratches, zones with different levels of shine, halos). The original beauty of CRISTALPLANT® can easily be restored using an abrasive Scotch Brite® pad with normal detergent. To clean CRISTALPLANT® and parts painted with SOFT TOUCH you can use the following products: Ammonia solution 10%, Ajax classic, Glassex, Vetril multiuse cleanser, Lysosform for the home, Rio for the home, Mia for floors, Mr. Clean. After cleaning, rinse the surface well to prevent the formation of halos. CRISTALPLANT® is a material that is homogeneous throughout its thickness and scratches, cigarette burns and stubborn stains.

DAMAGE: In case of scratches or deeper damage, we recommend smoothing the surface with fine sandpaper (320 grain). Note: do not use the abrasive pad or sandpaper on the external part painted with SOFT TOUCH (bicolor)

TO AVOID: Do not use: products containing bleach: they can create halos on surfaces painted with Soft touch bicolor. Solvents like denatured alcohol, acetone, cleaning fluid or other solvents used in painting can alter the surface of white Cristalplant and lacquered bicolor. Acids and strong basics such as muriatic acid and lye can alter the surfaces of Cristalplant and lacquered bicolor. Do not use drain cleaning products. IMPORTANT: Do not use abrasive pads and sandpaper on the parts tinted with Soft touch bicolor. If you are not sure of the aggressive potential of a product, try it first on a small zone out of sight before using it (for both surfaces).

CRISTALPLANT®

ZUSAMMENSETZUNG: CRISTALPLANT® ist ein Verbundmaterial aus Mineralien mit niedrigem Anteil an Polyester u. Acrylpolymere. Das Material ist inert, hypoallergisch und ungiftig, ist 100% wiederverwertbar, feuerfest (Klasse 1) und besitzt eine optimale UV-Beständigkeit; es ist kompakt, nicht porös, hygienisch und widerstandsfähig. Dank der samtigen Endverarbeitung fühlt es sich so angenehm wie ein Naturstein an. CRISTALPLANT® ist 100% regenerierbar.

PFLGE UND REINIGUNG: CRISTALPLANT® ist einfach und schnell zu pflegen. Es genügt, CRISTALPLANT® mit Seifenwasser oder mit handelsüblichen Reinigern zu säubern, um die meisten Flecken und Schmutz, der sich auf der Oberfläche absetzen kann, zu entfernen. Es können folgende Produkte sowohl für die Oberflächen aus Cristalplant als auch für die Soft Touch (BI-COLOR) lackierten Bereiche benutzt werden: 10%-iges Ammoniak, Ajax Allzweckreiniger Klassik, Glassex, Vetril Hygieneallzweckreiniger, Lysosform Reiniger, Rio Casa Mia Bodenreiniger, Meister Propper. Nach vorgenommener Reinigung muss die Oberfläche gut abgespült werden, um die Bildung von Rändern zu vermeiden. SOFT TOUCH lackierte Oberflächen (BI-COLOR): Zur Reinigung genügen herkömmliche Reiniger für Oberflächen in Spray und ein weicher Schwamm oder Baumwolltuch. KEINE abrasiven Schwämme und KEINE abrasive Reiniger benutzen.

FLECKEN: Insbesondere werden Gelreiniger oder Scheuerreiniger zusammen mit Scheuerschwämmen vom Typ „Scotch-Brite TM“ empfohlen. Dabei ist darauf zu achten, dass die Oberfläche anschließend gut abgespült wird. Auf diese Weise bleibt das für CRISTALPLANT® kennzeichnende, ursprünglich matte Aussehen der Oberfläche erhalten.

SCHÄDEN: Da CRISTALPLANT® ein über seine ganze Stärke einheitliches Material ist, können oberflächliche Schäden wie Kratzer, Zigarettenbrandflecken so wie sonstige hartnäckige Flecken entfernt werden, so dass die Oberfläche wieder ihre ursprüngliche Schönheit erhält. Dazu genügt es, die nachstehenden Hinweise zu befolgen: Bei geringen Schäden kann die Oberfläche ganz einfach mit einem Scotch-BriteTM-Scheuerschwamm (eingetragenes Warenzeichen von 3M) und einem handelsüblichen Scheuermittel durch Reiben an der beschädigten Stelle wiederhergestellt werden. Wenn der Schaden dann trotzdem noch sichtbar sein sollte, noch einmal kurz mit sehr feinem Schleifpapier (Körnung 320) nachschleifen. Achtung: Keine abrasiven Schwämme und abrasives Schleifpapier auf dem gefärbten SOFT TOUCH (BI-COLOR) Bereich benutzen.

ZU VERMEIDEN: Auch wenn die Oberfläche von CRISTAL PLANT ® generell sehr widerstandsfähig gegen Flecken ist, wird doch vom Gebrauch von aggressiven chemischen Produkten wie Aceton, Trichlorethylen und starken Säuren oder Laugen abgeraten. Einige Stoffe wie Tinte, Kosmetikprodukte und Farben können bei langem Kontakt mit dem Material Farbstoffe an die Oberfläche von CRISTALPLANT® abgeben, dasselbe gilt für brennende Zigaretten: Doch alle solche Flecken können wieder entfernt werden. Keine abrasiven Schwämme und abrasives Schleifpapier auf dem gefärbten SOFT TOUCH Bereich benutzen. Bei Reinigungsmittel, deren potentielles, korrosives Verhalten unbekannt ist, sollte ein Test auf einem kleinen, nicht sichtbaren Bereich vorgenommen werden bevor das Produkt selbst benutzt wird (auf beiden Oberflächen).

CRISTALPLANT®

COMPOSITION: CRISTALPLANT® est un matériau innovant, agréable au toucher, finition opaque de la même beauté de la pierre naturelle; CRISTALPLANT ® est un matériau homogène dans toute son épaisseur, ne craint pas de rayures ou écaillage et peut être rétabli avec une simple utilisation d'éponges abrasives. CRISTALPLANT® est un matériau technologiquement avancé et unique constitué d'un pourcentage élevé de charges minérales naturelles et d'un bas pourcentage de polymères polyesters et acryliques d'une pureté extrême; c'est une matière inerte, hypoallergique et non toxique, recyclable à 100%, ignifuge (classe1), offrant une excellente résistance aux rayons UV. CRISTALPLANT® peut être rétabli à 100%, cela signifie qu'il peut retrouver son aspect d'origine à l'aide d'un simple détersif et d'une éponge abrasive.

ENTRETIEN ET NETTOYAGE: Cristalplant® est d'un entretien facile et rapide. Certaines substances comme l'encre, les cosmétiques et les vernis, en contact prolongé avec le matériel, peuvent libérer des colorants sur la surface. Il suffit de nettoyer Cristalplant® à l'eau savonneuse ou avec des détergents courants pour éliminer la plupart des taches et de la saleté pouvant se déposer sur la surface. Ils sont particulièrement recommandés nettoyeurs abrasifs utilisés avec une éponge abrasive comme Scotch Brite ® ; on conservera ainsi la finition opaque d'origine, signe distinctif du Cristalplant®. Le nettoyage fréquent de CRISTALPLANT® permet de conserver sa beauté originelle et empêche également les signes d'usure. Surface laquée extérieure (SOFT TOUCH Bi-couleur). Il suffit de nettoyer avec des communs détergents sprays et une éponge douce ou un chiffon en coton. NE PAS utiliser d'éponges abrasives et NE PAS utiliser de détergents abrasifs.

TACHES: En général, la surface a une bonne résistance aux taches ; toutefois, nous déconseillons l'utilisation de produits chimiques agressifs tels que l'acétone, le trichloréthylène, les acides ou les bases fortes. Certaines substances comme l'encre, les cosmétiques et les vernis, en contact prolongé avec le matériel, peuvent libérer des colorants sur la surface que il est possible de les éliminer avec un détergent et une éponge abrasive.

DOMMAGES: Cristalplant® est un matériau homogène dans toute l'épaisseur, on peut donc le protéger des attaques superficielles telles que les éraflures, les brûlures de cigarette et les taches tenaces en utilisant une éponge abrasive scotch-Brite (marque enregistrée 3m) et un produit abrasif courant. Polir en surface la partie endommagée. Si le défaut est encore visible, recommencer en passant du papier-émeri très fin. Attention : NE PAS utiliser d'éponges abrasives et NE PAS utiliser de détergents abrasifs dans la surface laquée SOFT TOUCH Bi-couleur.

À EVITER: Solvants comme l'alcool, l'acétone, solvants de nettoyage dénaturé ou d'autres fluides utilisés dans la peinture qui peuvent modifier la surface du CRISTALPLANT et la surface laquée SOFT TOUCH Bi-couleur. N'utilisez pas de produits pour déboucher les drains. Ne pas utiliser éponges abrasives ou papiers abrasif dans la partie laquée SOFT TOUCH Bi-Couleur. Pour détergents pour lesquelles vous ne connaissez pas l'agressivité potentielle faire une application d'essai dans une petite surface non visible avant d'utiliser le produit.

LAMINAM® GRES

COMPOSIZIONE E ASPETTO : Porcellana laminata ottenuta per macinazione ad umido di materie prime argillose, rocce granitiche e metamorfiche, a componente feldspatica e pigmenti ceramici. Compattata da speciale formatura e sinterizzazione a 1200°C, con cottura a gas e rinforzo strutturale di materiale inerte (stuola in fibra di vetro applicata sul retro). Caratteristiche : facilità di pulizia e manutenzione, superficie compatta porosità assente, resistente a funghi e muffe, alle macchie ed ai prodotti detergenti, all'umidità , a graffi e abrasioni (Laminam LUX presenta maggiore sensibilità a graffi)

CURA E PULIZIA: In generale, per pulire quotidianamente Laminam® è possibile utilizzare acqua calda ed eventualmente detergenti neutri, utilizzando un panno morbido. Questi dovranno essere diluiti sulla base delle indicazioni fornite sulle confezioni degli stessi. Risciacquare con abbondante acqua e asciugare la superficie con panni morbidi.

LAMINAM LUX: Alcune tipologie di macchie non tempestivamente rimosse potrebbero lasciare un alone sulla superficie più o meno visibile, rientrando nella tolleranza della specifica tipologia di finitura. Non utilizzare spugne abrasive. Evitare il trascinamento di oggetti direttamente sul piano .

MACCHIE : Per la rimozione di macchie o residui particolarmente resistenti sulla superficie Laminam si consiglia di procedere con una prima pulizia con acqua calda e detergente neutro. In caso non fosse sufficiente, utilizzare tecniche di pulizia via via più incisive utilizzando alcuni specifici prodotti, a seconda dalla macchia da trattare, quali: > Detergenti non abrasivi a pH neutro > Detergenti leggermente abrasivi > Detergenti acidi o basici > Detergenti a base solvente

DANNEGGIAMENTO :In caso di danneggiamento o scalfittura superficiale durante la vita d'uso del piano di lavoro, viste le specifiche caratteristiche tecniche e meccaniche del gres porcellanato e dei materiali ceramici in generale, non è possibile ottenere un ripristino completamente a differenza di altri prodotti. Pur non consigliato, il ripristino può essere eseguito con adesivi epossidici bicomponenti scelti con colore simile a quello della lastra Laminam , ma con proprietà e finitura differenti rispetto alla superficie originaria. DA EVITARE: Per evitare la formazione di patine opache si consiglia di non utilizzare prodotti contenenti cere. Laminam LUX: Non utilizzare spugne abrasive. Evitare il trascinamento di oggetti direttamente sul piano .

MAK MAT

COMPOSIZIONE: Mak Mat è il risultato di una miscela composta da minerali e resine acriliche. Il particolare film di rivestimento della superficie, rende il manufatto in Mak Mat satinato e setoso al tatto. Resiste agli sbalzi termici ad alti livelli , ai raggi UV e alle macchie. E' antibatterico e ha una buona resistenza agli urti (trazione e flessione). Aspetto: finitura opaca/satinata.

CURA E PULIZIA: per rimuovere le macchie di calcare e sporco che normalmente si depositano sulla superficie, è sufficiente pulire con acqua saponata o comuni detergenti non abrasivi utilizzati con spugne non Abrasive.

MACCHIE: in presenza di macchie ostinate, la superficie del MAK MAT può essere ripristinata con l'utilizzo di prodotti leggermente abrasivi (CIF crema).

DANNEGGIAMENTI: alcuni usi impropri possono provocare dei difetti visibili sulla superficie. Rimediare a graffi , lievi scheggiature, macchie ostinate è spesso possibile intervenire sulla superficie utilizzando prodotti per la levigatura: se il film in superficie non è stato danneggiato in tutto lo spessore, è sufficiente pulire levigando leggermente la superficie utilizzando detergenti e spugne abrasivi (CIF crema o VIM + Scotch Brite). Nel caso di graffi o scheggiature più marcate è possibile carteggiare con carte abrasive finissime (grana 800-1000) fino ad uniformare completamente la superficie.

DA EVITARE: Non usare prodotti chimici aggressivi quali acetone, trielina, acidi , svernicianti , prodotti per la pulizia del forno e per la pulizia di metalli. Alcune sostanze come inchiostro, cosmetici e tinture a contatto prolungato con il manufatto, possono rilasciare colorante sulla superficie. Non appoggiare sulla superficie sigarette accese, non tagliare direttamente sulla superficie: Mak Mat è un prodotto con buona resistenza al calore, tuttavia meglio evitare di appoggiare sulla superficie oggetti roventi .

LAMINAM® GRES

COMPOSITION AND ASPECT: Laminated porcelain obtained by wet grinding of clayish raw materials, granite and metamorphic, feldspar-containing rocks and ceramic pigments. Compacted by a special shaping in compacter and sintering at 1200°C, with hybrid firing. With single gauge square edge, with double slab coupled with a structural reinforcement in inert material (fiberglass blanket placed between the two slabs). Characteristics: easy to clean, it has no special maintenance requirements, compact surface, non porous, resistant to mould, fungi, staining, detergents, humidity, scratching and abrasion (Laminam Lux is more sensitive to scratching than other Laminam surfaces)

MAINTENANCE AND CLEANING: Generally, for everyday cleaning of Laminam surface, clean first with warm water and neutral detergents if required, with a soft cloth. Follow the instructions given on the detergent package. Rinse with plenty of water and dry the surface with a soft cloth. LAMINAM LUX: Stains not promptly removed may leave more or less visible traces on the surface, in accordance with the tolerance of the specific type of finishing. Do not use abrasive sponges. Do not drag objects directly on the top.

STAINS: to remove stains or particularly resistant residues from the Laminam surface, clean first with warm water and neutral detergent. If this is not sufficient, use increasingly incisive cleaning techniques and specific products, depending on the stain, including: - Non-abrasive neutral pH detergents - Slightly abrasive detergents - Acid or alkaline detergents - Solvent-based detergents

DAMAGES: If the surfaces become damaged or chipped during the use of the top, given the specific technical and mechanical characteristics of porcelain stoneware and ceramic materials generally it is not possible to make these defects completely disappear as it can be done with other materials. While not advised, the slabs can be restored using epoxy 2-component glues in a similar colour to that of the Laminam slab, though with different properties and finishes from the original surface.

AVOID: To prevent matt stains, do not use products containing wax. Laminam Lux: Do not use abrasive sponges. Do not drag objects directly on the top.

MAK MAT

COMPOSITION: Mak Mat MAK MAT is the result of a mixture of minerals and resins (acrylic). The particular application of the gel , makes the MAK MAT solution satin and matt at touch. It resists at wide temperature variations, UV rays and stains. Is antibacterial and has a good impact strength (tensile and bending).

CARE AND CLEANING: To remove water stains and dirt that normally settles on the surface, simply wipe with soapy water or common non-abrasive detergent used with non-abrasive sponge.

STAIN: In case of stubborn stains, the surface of MAK MAT can be restored with the use of slightly abrasive products (Cif cream).

DAMAGE: Some improper use can cause visible defects on the surface. Remedy deep scratches, minor nicks and stains can often operate on the surface, using products for sanding. If the film surface was not damaged in all the thickness, just fine sandpaper (800-1000 grit) until completely uniform surface.

TO AVOID: Do not use harsh chemicals such as acetone, turpentine, acids, paint strippers, cleaning for ovens or for the cleaning of metals. Some substances such as ink, cosmetics and dyes in prolonged contact with the product, they can leave stains on the surface. Do not put lighted cigarettes on the surface, do not cut directly on the surface. MAK MAT is a product with good resistance to heat but avoid placing hot objects on the surface.

LAMINAM® GRES

ZUSAMMENSETZUNG UND AUSSEHEN: Laminiertes Porzellan, das durch Nassvermahlung von tonigen Rohstoffen, granitischen und metamorphen Gesteinen mit einer Feldspatkomponente und keramischen Pigmenten erhalten wird. Verdictet durch spezielle Formgebung und Sintern bei 1200 ° C, mit Gasbrand und Strukturverstärkung aus inertem Material (Glastasermatte auf der Rückseite aufgebracht). Eigenschaften: einfache Reinigung und Wartung, kompakte Oberfläche ohne Porosität, resistent gegen Pilze und Schimmelpilze, Flecken und nachweisbare Produkte, Feuchtigkeit, Kratzer und Abrieb (Laminam Polished weist eine höhere Empfindlichkeit gegenüber Kratzern auf)

PLENGE UND REINIGUNG: Im Allgemeinen sollten für die tägliche Reinigung von Laminam warmes Wasser und eventuell Neutralreiniger und ein weiches Tuch verwendet werden. Der Reiniger sollte den Herstelleranweisungen auf der Verpackung entsprechend verdünnt werden. Die Platte mit reichlich Wasser abspülen und mit weichen Tüchern trocknen. LAMINAM LUCIDATO: Einige Arten von Flecken, die nicht sofort entfernt werden, können einen Halo auf der mehr oder weniger sichtbaren Oberfläche hinterlassen, die innerhalb der Toleranz der spezifischen Art der Oberflächenbehandlung liegt. Verwenden Sie keine scheuernden Schwämme. Vermeiden Sie das Ziehen von Objekten direkt in der Ebene.

FLECKEN: Für die Entfernung von besonders hartnäckigen Flecken oder Rückständen auf der Laminam Oberfläche wird zunächst eine Reinigung mit warmem Wasser und Neutralreiniger empfohlen. Sollte dies nicht ausreichend sein, sind nach und nach stärkere Reinigungsmethoden mit spezifischen Produkten (abhängig von der Art des Fleckens) durchzuführen: > Nicht scheuernde Reinigungsmittel mit neutralem pH-Wert > Leicht scheuernde Reinigungsmittel > Saure oder basische Reinigungsmittel > Reinigungsmittel auf Lösungsmittelbasis

BESCHÄDIGUNGEN: Sollte die Oberfläche der Arbeitsplatte mit der Zeit beschädigt oder verkratzt werden, kann aufgrund der technischen und mechanischen Eigenschaften von Feinsteinzeug und Keramikmaterialien im Allgemeinen das ursprüngliche, makellose Erscheinungsbild nicht komplett wiederhergestellt werden, wie dies bei anderen Produkten der Fall ist. Die Oberfläche kann mithilfe von Zweikomponentenklebern auf Epoxidbasis mit einer der Laminam Platte gleichenden Farbgebung ausgebessert werden. Die Eigenschaften und die Oberfläche der Platte unterscheiden sich jedoch dann von denen der ursprünglichen Oberfläche.

ZU VERMEIDEN: Verwenden Sie keine scheuernden Schwämme. Vermeiden Sie das Ziehen von Objekten direkt in der Ebene.

MAK MAT

ZUSAMMENSETZUNG: Mak Mat ist ein Material aus einer Mischung von Mineralien und Harzen (Acryl). Die besondere Ausarbeitung der Oberfläche, lässt das Objekt in Mak Mat satiniert und seidig anfühlen. Resistent gegen Temperaturschwankungen auf hohem Niveau , UV-Spots, und Flecken. Es ist "anti-bakteriell" und hat eine gute Widerstandsfähigkeit (Zug und Biegungen). Aussehen: matt / seidenmatte Oberfläche

PFLERGE UND REINIGUNG: Um Wasserflecke und abgelegten Schmutz zu entfernen, einfach mit Seifenwasser oder mit nicht scharfen Reinigungsmitteln wischen. Nicht Scheuermittel benutzen die auf abrasive Schwämme aufgetragen werden.

FLECKEN: Flecken entfernen: Bei hartnäckigen Flecken kann die Oberfläche des Mak Mat mit der Anwendung von leicht abrasiven Produkte (Viss Scheuermilch, Email Star von Cramer) wiederhergestellt werden.

SCHÄDEN: Beseitigung eventueller Schäden: Einige nicht korrekte Behandlungen des Materials können zu sichtbaren Defekten auf der Oberfläche führen. Die Ausbesserung tiefer Kratzer, kleinerer Kerben, oder Flecken, kann durchgeführt werden durch die Auftragung auf der Oberfläche von Schleifprodukten: wenn die Lackoberfläche nicht in der ganzen Dicke beschädigt ist, kann man ein feines Sandpapier (800-1000 Körnung) benutzen um die Oberfläche völlig gleichmäßig auszuarbeiten.

ZU VERMEIDEN: Verwenden Sie keine scharfen Chemikalien wie Aceton, Terpentin, Säuren, Abbeizmittel, Mittel zur Reinigung des Ofens und der Reinigung von Metallen. Einige Substanzen wie Tinte, Kosmetika und Farbstoffe in längerem Kontakt mit dem Material, können Flecken auf der Oberfläche hinterlassen. Legen Sie keine brennende Zigaretten auf die Oberfläche, und nicht direkt auf der Oberfläche schneiden: Mak Mat ist ein gutes hitzefestes Produkt , aber trotzdem vermeiden Sie heiße Gegenstände mit direkten Kontakt auf der Oberfläche.

LAMINAM® GRES

COMPOSITION ET ASPECT : Porcelaine stratifiée obtenue par le broyage humide de matières premières argileuses, roches granitiques et métamorphiques, avec un composant de feldspath et des pigments céramique. Compacté par un formage spécial et frittage à 1200 ° C, avec cuisson au gaz et renforcement structurel en matériau inerte (tapis de fibre de verre appliqué sur le dos). Caractéristiques : facilité de nettoyage et d'entretien, surface compacte sans porosité, résistant aux moisissures, aux taches et aux produits détectables, à l'humidité, aux rayures et aux abrasions (Laminam Lucidato présente une plus grande sensibilité aux rayures).

ENTRETIEN COURANT ET TACHES FREQUENTES En général, pour nettoyer quotidiennement Laminam, il est possible d'utiliser de l'eau chaude et, éventuellement, des détergents neutres, en se servant d'un chiffon doux. Ceux-ci devront être dilués en fonction des indications fournies sur leurs emballages. Rincer avec une quantité abondante d'eau et sécher la surface avec des chiffons doux. LAMINAM LUCIDATO : Certaines typologies de taches peuvent laisser une auréole, plus ou moins visible, sur la surface si elles ne sont pas immédiatement enlevées. Cela fait partie de la tolérance admise de la typologie de finition spécifique. Ne pas utiliser d'éponges abrasives. Évitez de faire glisser des objets directement sur le plan. TACHES

Pour l'élimination de taches ou de résidus particulièrement résistants sur la surface Laminam, il est conseillé d'effectuer un premier nettoyage avec de l'eau chaude et du détergent neutre. Dans le cas où cela ne serait pas suffisant, utiliser des techniques de nettoyage de plus en plus incisives avec des produits spécifiques, en fonction de la tâche à traiter, comme ci-après : > Détergents non abrasifs à pH neutre > Détergents légèrement abrasifs > Détergents acides ou basiques > Détergents à base de solvant

DEGATS En cas de dommage ou de rayures superficielles pendant la durée d'utilisation du plan de travail, compte tenu des caractéristiques techniques et mécaniques spécifiques du grès cérame et des matériaux céramiques en général, il n'est pas possible d'obtenir une restauration complètement parfaite contrairement à d'autres produits. Bien que cela ne soit pas conseillé, la restauration peut être réalisée à partir de colles époxydes bicomposants choisis dans une couleur semblable à celle de la plaque Laminam, mais avec des propriétés et une finition différentes de la surface d'origine.

A EVITER Pour éviter la formation de patines opakes, il est conseillé de ne pas utiliser de produits contenant des cires Laminam.

MAK MAT

COMPOSITION: MAK MAT est le résultat d'un mélange des minéraux et résines (acrylique). L'application particulière du gel rend l'artefact en MAK MAT satinée et soyeuse au toucher. Il est résistant à haute températures, les rayons UV et les taches. Il est antibactérien et il a bonne résistance aux chocs (traction et flexion). Aspect : finition mat.

ENTRETIEN ET NETTOYAGE: Pour supprimer les taches, les saletés et le calcaire qui normalement se déposent sur la surface, il suffit de nettoyer avec de l'eau savonneuse ou détergent non abrasif utilisés avec une éponge non abrasive.

TACHES: En présence de taches tenaces, la surface du MAK MAT peut être restaurée avec produits légèrement abrasifs (Cif crème).

DOMMAGES: Une utilisation pas correcte peut causer des anomalies visibles à la surface. Remédier à profondes éraflures, écaillage, taches obstinés est possible. Il faut intervenir sur la surface à l'aide de produits de ponçage: si le film sur la surface n'a pas été endommagé dans l'importe quelle épaisseur, c'est suffisant passer la surface avec détergents et éponges abrasifs (cif crème ou VIM + Scotch Brite). Dans le cas de rayures ou entailles peut être poncé avec du papier abrasif fine (800 à 1 000 grains) jusqu'à normaliser la surface complètement.

À EVITER: N'utiliser pas des produits chimiques comme l'acétone, trichloréthylène, acides, décapants, produits pour le nettoyage du four, pour le nettoyage des métaux. Certaines substances comme l'encre, les cosmétiques à contact prolongé avec l'artefact, ils peuvent déposer le colorant à la surface. Ne placez pas de cigarettes éclairées sur la surface, ne coupez pas directement sur la surface: MAK MAT est un produit de bonne résistance à la chaleur, cependant, éviter de poser des objets chauds sur la surface

INFO MATERIALI :: MATERIAL'S INFORMATION :: INFO MATERIALIEN :: INFO MATERIAUX

MAK LUX

COMPOSIZIONE: Mak Lux è il risultato di una miscela composta da minerali e resine acriliche. Il particolare film di rivestimento della superficie in gel rende il manufatto in Mak Lux perfettamente lucido ed inalterabile nel tempo. Resiste agli sbalzi termici ad alti livelli, ai raggi UV ed alle macchie. E' antibatterico ed ha una buona resistenza agli urti (trazione e flessione) Aspetto: finitura lucida.

CURA E PULIZIA: per la pulizia quotidiana utilizzare solo prodotti non abrasivi idonei alla pulizia del bagno applicandoli con un panno morbido.

MACCHIE: In caso di macchie ostinate o di leggeri graffi la superficie può essere ripristinata con l'utilizzo di polish (o di prodotti per la lucidatura della carrozzeria), applicandoli con panno morbido e con movimento circolare. Il ridotto effetto abrasivo di tale prodotto toglie i piccoli danni e ripristina la brillantezza della superficie.

DANNEGGIAMENTI

In caso di rigature più evidenti, che comunque non superano lo spessore del gel di superficie, levigare con carta abrasiva sottilissima, 1200/1500, sempre con movimento circolare, quindi procedere alla lucidatura con il polshi.

DA EVITARE: non usare solventi quali acquaaragia, acetone, trielina, svernicianti, prodotti per la pulizia del forno e per la pulizia metalli. In caso accidentale di contatto con la superficie di tali prodotti, risciacquare immediatamente con acqua corrente, quindi , in caso di opacizzazione della superficie procedere alla lucidatura con polish. Mak Lux è resistente agli urti , tuttavia oggetti pesanti o appuntiti possono lasciare segni e ammaccature.

MAK LUX

COMPOSITION: Mak Lux is the result of a mixture of minerals and resins. The particular application of the gel, makes the MAK LUX solution perfectly bright and unalterable. It resists at wide temperature variations, UV rays, and stains. Is antibacterial, and has a good impact strength (tensile and bending)

CARE AND CLEANING: For daily cleaning, use only non-abrasive products, suitable for cleaning the bath, apply with a soft cloth.

STAIN: The surface can be restored with the use of products for the polishing of bodywork (polish) available in Hobby stores and applied with a soft cloth and a circular motion. The low abrasive effect of this product, remove minor damage and restore the shine of the surface.

DAMAGE: In the case of more evident scratches, which may not exceed the thickness of the gel surface, rub down with very fine sandpaper (grain 1200 / 1500) always in a circular motion, then proceed as for stains.

TO AVOID: Do not use solvents (such as paint thinner, acetone, trichlorethylene), paint strippers, oven cleaners and metals cleaning. In case of accidental contact with the surface of these products, rinse immediately with running water, then, in the case of opaque surface, proceed as for stains. MAK LUX is impact resistant, but heavy or sharp objects may leave marks and bruises.

MAK LUX

ZUSAMMENSETZUNG: Mak Lux ist das Ergebnis einer Mischung aus Mineralien und Harzen. Die besondere Anwendung des Gels macht das Objekt aus Mak Lux perfekt poliert, glänzend und über längere Zeit stabil. Es ist resistent gegen Temperaturschwankungen auf hohem Niveau, und UV-Spots. Das Material ist "anti-bakteriell" und hat eine gute Widerstandsfähigkeit (Zug und Biegung) Aussehen: Glanzlack

PFLEGE UND REINIGUNG: Für die tägliche Reinigung, verwenden Sie mit einem weichen Tuch nur nicht-abrasive Produkte geeignet für die Reinigung des Bades (z.B. Mineralguss-Reiniger von Cramer).

FLECKEN: Entfernung von Flecken, Reparaturen von Oberflächenkratzern und kleinere Verbrennungen: Die Oberfläche kann wiederhergestellt werden mit der Anwendung von Produkten für das Polieren der Autokarosserie die man in Hobby-Shops findet, oder Acryl Star von Cramer, die leicht und mit runden Bewegungen aufzutragen sind. Die geringe abrasive Wirkung dieser Produkte bessert die kleineren Schäden aus, und führt zur Wiederherstellung des Glanzes der Oberfläche.

SCHÄDEN: Entfernen tieferer Kratzer: Im Falle tieferer Kratzer, die nicht die ganze Dicke des Gels durchdringen, darf man die Oberfläche mit sehr feinem Schleifpapier (1200/1500 Körnung) glätten, immer mit Kreisbewegungen. Danach mit einer handelsüblichen Autopolitur den ursprünglichen Glanz wieder herstellen.

ZU VERMEIDEN: Verwenden Sie keine Lösungsmittel (wie Farbverdünner, Aceton, Trichlorethylen), Abbeizmittel, Backofenreiniger und Reinigung von Metallen. Im Falle eines aussersehtlichen Kontakt der Oberfläche mit diesen Produkten, sofort gründlich mit fließendem Wasser abwaschen und dann, im Falle einer Oberflächentrübung wieder mit Politur bearbeiten. Das Mak Lux ist schlagfest, aber schwere oder scharfe Gegenstände können Einkerbungen und Prellungen verursachen.

MAK LUX

COMPOSITION: Mak Lux Le MAK LUX est le résultat d'un mélange composé de minéraux et de résines acryliques. L'application particulière du gel rend l'artefact parfaitement brillant et inaltérable dans le temps. Résiste à haute température, les UV et les taches. Il est antibactérien et a une bonne résistance aux chocs (traction et flexion). Aspect : finition brillant.

ENTRETIEN ET NETTOYAGE: Pour le nettoyage de tous les jours utiliser seulement produits non abrasifs appropriés pour le nettoyage de la salle de bain et appliquées avec un chiffon doux.

TACHES: Dans le cas des taches tenaces ou des rayures légères la surface peut être reconstituée par l'utilisation du polish (ou produits pour polissage de carrosserie) avec un chiffon doux et un mouvement circulaire. L'effet abrasif réduit de ce produit supprime les petits dégâts et restaure la brillance de la surface

DOMMAGES: Dans le cas d'une rayure plus évidente, qui toutefois, ne dépassent pas l'épaisseur du gel en surface, lisser avec de la carte abrasive à grains très fins 1200/1500 avec mouvement circulaire. Puis suivre comme pour les taches.

À EVITER: N'utiliser des solvants (comme la benzine, acétone, trichloréthylène), décapants, produits pour le nettoyage du four et des métaux. En cas de contact accidentel avec la surface de ces produits, rincer immédiatement avec de l'eau, puis, dans le cas d'opacification de la surface utiliser le polish. Le MAK LUX est résistant aux impacts, cependant objets lourdes ou à pointe peuvent laisser des marques et des signes).

TECNORIL®

COMPOSIZIONE: Tecnoril® è un materiale principalmente costituito utilizzando il 70% di minerale naturale in combinazione con resina acrilica al 100 % di altissima qualità (ATH & PMMA) e non resina poliestere. Questo permette al materiale di rimanere inalterato nel tempo conservando il suo colore originale, non ingiallendo. Grazie alla sua caratteristica di materiale compatto, igienico e ignifugo, non rivestito o laminato, Tecnoril® consente di ottenere installazioni eleganti e di alto rendimento. La superficie compatta e non porosa infatti è durevole e facile da pulire con i comuni prodotti in commercio per la pulizia domestica. Grazie alla sua composizione ed al colore omogeneo lungo l'intero spessore della sua massa, piccoli tagli, graffi e bruciature di sigarette possono essere facilmente rimossi per restituire al prodotto la sua bellezza originale.

CURA E PULIZIA: Tecnoril® è un materiale resistente e durevole ma, come tutti i prodotti di elevato pregio, può essere danneggiato se utilizzato in modo improprio. Come trattamento generale di manutenzione vi consigliamo di pulire la superficie con acqua tiepida e detergente delicato, usando un panno o una spugna morbidi, umidi. Asciugate quindi con un panno morbido.

MACCHIE: Tecnoril® è un materiale non poroso, dunque difficilmente le macchie saranno assorbite dalla superficie. Tuttavia tutto dipende dalla durata del contatto con l'agente macchiante. A tal proposito si consiglia di rimuovere subito eventuali macchie. Nel caso di macchie causate da acqua ricca di calcare, da saponi o da prodotti minerali, pulire con un detergente anticalcare (es: aceto, VIAKAL®, AJAX®, CIF® anticalcare). Terminare la pulizia con acqua tiepida ed un panno morbido. Asciugare quindi con un panno morbido. Nel caso di macchie di altra natura (pennarello, rossetto, grassi, residui di cibo, ecc) pulire con un detergente a base di ammoniaca (es: CIF® con ammoniacale). Terminare la pulizia con acqua tiepida ed un panno morbido. Asciugare dunque con un panno morbido.

DANNEGGIAMENTI: Nel caso di macchie particolarmente persistenti o piccoli tagli e graffi, usare un detergente abrasivo (es: VIM®, AJAX®) ed una spugnetta abrasiva (es: SCOTCH-BRITE®). Terminare la pulizia con acqua tiepida ed un panno morbido. Asciugare quindi con un panno morbido. Nel caso di bruciature di sigaretta o di piccoli tagli, utilizzare una sequenza di carte vetrata 220/320/500 e 1000, a finire, con l'accortezza di pulire la zona con acqua calda e panno morbido tra una levigatura e l'altra.

DA EVITARE: attenzione, alcuni prodotti chimici particolarmente aggressivi, quali acidi forti (es:acido solforico concentrato), chetoni (es:acetone), solventi clorurati (es. cloroformo) o combinazioni di solventi (es. prodotti per la sverniciatura), possono macchiare e danneggiare il materiale. Nel caso di contatto accidentale con questi prodotti, si consiglia di rimuovere subito ogni traccia degli stessi. Inoltre è opportuno proteggere il Tecnoril® dal contatto diretto con le fonti di elevato calore. Qualunque cosa accada non c'è nulla di irreparabile: infatti il Tecnoril® può essere riparato e ripristinato in modo facile e veloce, rivolgendosi ad un artigiano specializzato.

TECNORIL®

COMPOSITION: Tecnoril® is a material consisting of 70% natural mineral material combined with high quality acrylic resin (ATH & PMMA), rather than polyester resin. This ensures that it will maintain its original color for a long time without yellowing. Since it is a solid material, hygienic and flame-retardant, not coated or laminated, Tecnoril® can be used to obtain high-performance, elegant installations with excellent yield. The compact, non-porous surface is durable and easy to clean with normal household detergents. With its composition and uniform color through the entire thickness, small cuts, scratches and cigarette burns can be easily repaired to restore the product its original beauty (in this case we suggest contacting an expert).

CARE AND CLEANING: Tecnoril® is a sturdy, durable material but, like all sophisticated products, it can be damaged if used improperly. To ensure the long life of your sink or counter in Tecnoril®, we provide a few recommendations for easy maintenance, so you can be satisfied for many years with the product purchased. For general maintenance, we recommend cleaning the surface with warm water and mild detergent, using a soft damp cloth or sponge. Dry with a soft cloth.

STAIN: Tecnoril® is a non- porous material and therefore stains are not absorbed below the surface. However, since the degree of damage will depend on the durations of the contact with the staining agent, it is best to remove stains immediately. In case of stains caused by hard water, soap or mineral products, clean with a scale-removing detergent (e.g.: vinegar, VIAKAL®, AJAX®, CIF® scale remover). Rinse with warm water and dry with a soft cloth. In case of other kinds of stains (markers, lipstick, grease, food residues, etc.) clean with an ammonia-based detergent (e.g.: CIF® ammoniacal). Rinse with warm water and dry with a soft cloth.

DAMAGE: In case of particularly stubborn stains or small cuts or scratches, use an abrasive detergent (e.g.: VIM®, AJAX®) and an abrasive sponge (e.g.: SCOTCH-BRITE®). Rinse with warm water and dry with a soft cloth. In case of cigarette burns or small cuts, use the "Maintenance Kit" (supplied on request), or a sequence of fine-grain sandpaper sheets: 220/320/500 (possibly 1000, to finish), taking care to clean the area with hot water and a soft cloth between one sanding and the next.

TO AVOID: Attention that some particularly aggressive chemical products such as strong acids (e.g. concentrated sulphuric acid), chetones (e.g. acetone), chlorinated solvents (e.g. chloroform) or combinations of solvents (e.g. paint removers) can stain and damage the materials. In case of accidental contact with these products, remove all traces at once. Whatever happens, nothing is irreparable: Tecnoril® can be repaired and restored quickly and easily by contacting an expert.

TECNORIL®

ZUSAMMENSETZUNG: Tecnoril® ist ein Verbundmaterial bestehend aus 70% natürlichem Mineralstoff, kombiniert mit 100%igen Acrylharz (und nicht Polyesterharz) bester Qualität (ATH & PMMA). Dieses Material ermöglicht es, seine ursprüngliche Farbe ohne Vergilbung langfristig beizubehalten. Tecnoril® ermöglicht dank der kompakten, hygienischen und feuerbeständigen Eigenschaft elegante u. extrem leistungsfähige Installationen zu erzielen. Die kompakte u. nicht poröse Oberfläche ist langlebig und einfach mit herkömmlichen Haushaltsreinigern zu reinigen.

PFLEGE UND REINIGUNG: Als allgemeine Wartungsbehandlung wird empfohlen die Oberfläche mit lauwarmem Wasser und Reiniger für empfindliche Produkte mit einem weichen, feuchten Tuch, bzw. Schwamm zu reinigen. Danach mit einem weichen Tuch trocknen

FLECKEN: Bei Flecken auf Grund von kalkhaltigem Wasser, Seifen bzw. mineralischen Produkten muss die Reinigung mit einem kalklösenden Reiniger (z.B. Essig, VIAKAL®, AJAX, CIF Entkalkungsmittel) vorgenommen werden. Die Reinigung mit lauwarmen Wasser und einem weichen Tuch beenden. Danach mit einem weichen Tuch trocknen.

SCHÄDEN: Bei anderen Flecken (Kosmetikstifte, Lippenstift, Fette, Lebensmittelreste usw.) muss die Reinigung mit einem Reiniger mit Ammoniakbasis vorgenommen werden (z.B. CIF, Ammoniakal). Bei besonders hartnäckigen Flecken bzw. kleinen Schnitten und Kratzern benutzen Sie einen abrasiven Reiniger (z.B. VIM, AJAX) und einen Schleifschwamm (z.B. Scotch Brite). Die Reinigung mit lauwarmen Wasser und einem weichen Tuch beenden. Bei tiefen Zigarettenverbrennungen bzw. kleinen Schnitten benutzen Sie bitte das Wartungsset (auf Wunsch lieferbar) bzw. nacheinander ein Schmirgelpapier von 220/320/500 (u. zum Abschluss evtl. von 1000). Bei jedem Wechsel des verschieden starken Schmirgelpapiers, sollte wenn notwendig den behandelten Bereich gut mit warmen Wasser und einem weichen Tuch gereinigt werden.

ZU VERMEIDEN: Es ist zweckmäßig Tecnoril® vor einem direkten Kontakt mit sehr starken Hitzequellen zu schützen (z.B. mit Topfluntersetzern). Einige besonders aggressive, chemische Produkte wie starke Säuren (z.B. Schwefelsäure), Ketone (z.B. Azeton), Chlorlösemittel (z.B. Chloroform) bzw. Lösemittelverbindungen (z.B. Produkte zum Abbeizen) können Flecken bewirken und das Material beschädigen. Bei ungewolltem Kontakt mit diesen Produkten wird empfohlen, jegliche Spur dieser Produkte sofort zu entfernen.

TECNORIL®

COMPOSITION: Tecnoril® est un matériau constitué principalement de 70% d'une partie minérale naturelle en combinaison avec une résine acrylique à 100% de haute qualité (ATH & PMMA) et non pas de résine polyester. Ceci fait qu'il reste inaltéré dans le temps en conservant sa couleur d'origine (il ne jaunissant pas). Grâce à la caractéristique d'être un matériau compact, hygiénique et ignifuge non revêtu ou laminé, Tecnoril® permet d'avoir des installations élégantes et de haut rendement. La surface compacte et non poreuse est durable et facile à nettoyer avec les produits communs de nettoyage domestique. Grâce à sa composition et à la couleur homogène le long de toute l'épaisseur de sa masse, les petites coupures, les rayures et les brûlures de cigarettes peuvent être enlevées facilement pour rendre au produit sa beauté d'origine

ENTRETIEN ET NETTOYAGE: Tecnoril® est un matériau résistant et durable mais, comme tous les produits de haute qualité, il peut être endommagé s'il est utilisé de façon impropre. Comme traitement général d'entretien, nous vous conseillons de nettoyer la surface avec de l'eau tiède et du détergent dilué en utilisant un chiffon doux ou une éponge douce, humide. Essayez ensuite avec un chiffon doux.

TACHES: Tecnoril® est un matériau non poreux et les taches seront donc difficilement absorbées par la surface. Cependant l'importance du dommage éventuel dépend de la durée du contact avec l'agent tachetant, nous vous conseillons d'enlever tout de suite les taches. Dans le cas de taches laissées par l'eau riche en calcaire, par des savons ou des produits minéraux, nettoyez avec un détergent anticalcaire (ex : vinaigre, VIAKAL®, AJAX®, CIF®, anticalcaire). Ensuite nettoyez avec de l'eau tiède et un chiffon doux. Essayez à la fin avec un chiffon doux. Dans le cas de taches d'autre nature (encre indélébile, rouge à lèvres, graisses, résidus de nourriture, etc.), nettoyez avec un détergent à base d'ammoniacale (ex : CIF® ammoniacal). Ensuite nettoyez avec de l'eau tiède et un chiffon doux. Essayez à la fin avec un chiffon doux.

DOMMAGES: Dans le cas de taches particulièrement persistantes ou de petites coupures et rayures, utilisez un détergent abrasif ex: VIM®, AJAX®, et une éponge abrasive (ex : SCOTCH-BRITE®). Ensuite nettoyez avec de l'eau tiède et un chiffon doux. Essayez à la fin avec un chiffon doux. Dans le cas de brûlures de cigarette ou de petites coupures utilisez une séquence de papiers de verre 220/320/500 et 1000 pour finir en nettoyant chaque fois entre un papier et l'autre la zone avec de l'eau chaude et un chiffon doux.

À EVITER: Attention aux certains produits chimiques particulièrement agressifs, comme les acides forts (ex: acide sulfurique concentré), cétones (ex: acétone), solvants chlorurés (ex: chloroforme) ou les combinaisons de solvants (ex: produits pour décapier), peuvent tacher et endommager. Dans le cas de contact accidentel avec ces produits, nous vous conseillons d'enlever tout de suite toute trace de ces produits. Protéger contre le contact direct avec les sources de haute chaleur. Quoi qu'il arrive, il n'y a rien d'irréparable. En effet, le Tecnoril® peut être réparé et rétabli facilement et rapidement en s'adressant à un artisan spécialisé.

INFO MATERIALI :: MATERIAL'S INFORMATION :: INFO MATERIALIEN :: INFO MATERIAUX

MITEK - Mineralmarmo®

COMPOSIZIONE: MITEK-MineralMarmo® è un materiale composto per il 75% da cariche minerali naturali (carbonati di calcio e triidratati di alluminio) e per il 25% da resina poliestere. Il film di gelcoat che riveste la superficie del materiale è di tipo poliestere acrilato che consente di ottenere ottime caratteristiche di resistenza. L'estetica e le caratteristiche meccaniche e chimiche rendono questo materiale adatto all'arredo del bagno e degli ambienti pubblici.

CURA E PULIZIA: la pulizia frequente di MITEK-MineralMarmo® assicura il mantenimento della sua bellezza originaria ed impedisce anche i segni dell'usura nel tempo. Alcune sostanze chimiche aggressive possono danneggiare la superficie di MITEK - MineralMarmo®. Si sconsiglia l'uso di: acidi e basi forti (come acido cloridrico e soda caustica), chetoni (acetone), solventi clorurati (triellina) e prodotti usati nel settore della verniciatura. Nella quasi totalità dei casi non teme il contatto con prodotti per il trucco, lo smalto per unghie ed il relativo solvente.

MACCHIE: per rimuovere la maggior parte delle macchie, il calcare e lo sporco che normalmente si depositano sulla superficie, è sufficiente pulire con acqua saponata o i comuni detergenti non abrasivi insieme ad una spugna non abrasiva o un panno di cotone; al termine risciacquare bene la superficie. I prodotti consigliati sono: ACE crema gel, ClF in gel, AJAX, da utilizzarsi con spugna non abrasiva o panno di cotone.

DANNEGGIAMENTI: un uso improprio può provocare dei danni visibili sulla superficie: è possibile rimediare a graffi, lievi scheggiature, macchie ostinate solo se il film di gelcoat non è stato danneggiato in tutto lo spessore, è sufficiente carteggiare con carta abrasiva finissima (grana 800-1000) fino ad uniformare completamente la superficie e ripristinare la lucentezza originaria utilizzando pasta lucidante o polish (prodotti impiegati per lucidare la carrozzeria delle auto).

DA EVITARE: evitare l'uso di detergenti e spugne abrasive. Mitek - MineralMarmo® è un materiale con buona resistenza al calore, tuttavia evitare di appoggiare sulla superficie oggetti roventi. Si sconsiglia inoltre l'uso di prodotti chimici aggressivi. Alcune sostanze come inchiostro, cosmetici e tinture, a contatto prolungato con il materiale, possono rilasciare del colorante sulla superficie.

MITEK - Mineralmarmo®

COMPOSITION: MITEK-MineralMarmo® is material composed of 75% natural mineral charges (calcium carbonates and aluminium trihydrates) blended with 25% polyesterresin. The gelcoat film that covers the surface of the material is of the acrylate polyester type which allows excellent characteristics of resistance to be obtained. Its appearance and its mechanical land chemical characteristics make this material perfectly suitable for furnishing bathrooms and public rooms.

CARE AND CLEANING: The frequent cleaning of MineralMarmo® ensures that its original beauty is maintained and prevents signs of wear over time. Some aggressive chemicals may damage the surface of MineralMarmo®. It is advised not to use strong acids and bases (such as hydrochloric acid and caustic soda), ketones (acetone), chlorinated solvents (trichloroethylene) and products used in the painting sector. In many cases it doesn't have problem with make-up, nail enamel and related solvent.

STAIN: Taking care of MineralMarmo®, is easy and quick. In order to remove stains, limescale or stains that commonly deposit on the surface just clean MineralMarmo®. with soapy water or with common non abrasive gel cleaners and rinse carefully. The cleaning products more used are: ACE gel, ClF gel, AJAX to use with non abrasive sponge or with a cotton cloth.

DAMAGE: Improper use can cause visible defects on MineralMarmo®. surface. It is often possible to eliminate scratches, stains or splinters easily at home. If the gelcoat isn't damaged totally in its depths, it will be possible to uniform the surface by using very fine sandpaper (800-1000 grain). To regain original brilliance use polish products (i. e. car bodies polish will be ok).

TO AVOID: Avoid abrasive sponges or cleaners. MineralMarmo® has a good resistance to heat but it is better to avoid leaning scorching objects on the surface. Do not use aggressive chemical cleaners such as nail varnish remover or trichloroethylene. Some substances such as ink, cosmetics and dyes could leave stains on the surface after a prolonged contact. Do not lean directly on Mineralmarble lit up cigarettes. Do not cut anything directly on MineralMarmo® surface.

MITEK - Mineralmarmo®

ZUSAMMENSETZUNG: MineralMarmo® ist ein Material, das zu 75% aus natürlichen mineralischen Ladungen besteht (Kalziumkarbonat und Aluminiumtrihydraten) und 25% aus Polyesterharz. Der Gelcoat Film, der die Oberfläche des Materials bedeckt ist vom Typ Polyesteracrylat, das optimale Eigenschaften der Widerstandsfähigkeit erlaubt. Aufgrund der Ästhetik und der mechanischen und chemischen Eigenschaften ist dieses Material für die Einrichtung von Badezimmern und öffentlichen Räumen geeignet. MineralMarmo® ist ein sehr vielseitiges Material, das die Entwicklung von vielen Formen ermöglicht: Waschbecken, Platten, Grundflächen, Säulen in zahlreichen Farben und Feinbearbeitungen.

PFLEGE UND REINIGUNG: Das Reinigen des Waschtisches geschieht am einfachsten mit Wasser und Seife oder milden Flüssigreinigern. Reinigungsmittel mit Schleifmittel dürfen nicht verwendet werden, da die Oberfläche dadurch matt werden kann. Das Produkt verträgt die meisten im Haushalt vorkommenden Chemikalien, doch sollten eventuelle Flecken schnellstens beseitigt werden.

FLECKEN: Sich um Mineralmarmor zu kümmern ist einfach und schnell. Um der größte Teil von Flecken, Kalkstein und Schmutz wegzunehmen, die sich normalerweise auf die Oberfläche absetzten, genügt es, Mineralmarmor mit Seifenwasser oder üblichen NICHT SCHLEIFENDEN REINIGUNGSMITTELN zu putzen. Die Oberfläche gut ausspülen. Dafür benutzen Sie ein Baumwollentuch oder einen nicht schleifenden Schwamm.

SCHÄDEN: Bei unsachgemäßem Einsatz von scheuernden Reinigungsmitteln, bei Beanspruchung durch scharfe, ritzende oder schleifende Gegenstände oder bei langzeitigem Einfluss von Farbstoffen sind Schäden in der Oberfläche (Gelcoat) möglich. Die Beseitigung dieser Schleif- oder Farbspuren erfolgt anhand eines Reparatursets auf Wunsch lieferbar.

ZU VERMEIDEN: Einige aggressive chemische Substanzen können die Oberfläche von MineralMarmo® beschädigen. Es wird von der Verwendung von folgenden abgeraten: Säuren und starke Basen (wie Chlorwasserstoffsäure und Atznatron), Ketonen (Aceton), Chlorlösungsmitteln (Trichloräthylen) und Produkten, die im Lackiersektor verwendet werden. Vorsicht bei der Benutzung von Haarfärbemitteln. Einige Mittel sind so aggressiv, dass sich die Spuren nicht entfernen lassen. Vom Wäschewaschen im Becken ist abzuraten, da die Farbstoffe der Kleidung sich absetzen können und das Beckendauerhaft geschädigt wird.

MITEK - Mineralmarmo®

COMPOSITION: MITEK - MineralMarmo® est un matériau composé de 75% de minéraux naturels (carbonates de Calcium et ti hydrates d'aluminium) et de 25 % de résine polyester. Le film de gelcoat, qui recouvre la surface du matériau, est en polyester acrylate, permettant d'obtenir une résistance optimale. Grâce à son côté esthétique et ses caractéristiques mécaniques et chimiques, ce matériau convient parfaitement pour l'équipement de la salle de bains et des espaces publics.

ENTRETIEN ET NETTOYAGE: Le nettoyage fréquent du MineralMarmo® garantit le maintien de son éclat d'origine, sans laisser apparaître aucun signe d'usure au fil du temps. Certaines substances chimiques agressives attaquent les surfaces en MineralMarmo®. Aussi est-il vivement déconseillé d'utiliser des acides et des bases fortes (comme par exemple l'acide chlorhydrique et la soude caustique), des cétones (acétone), des solvants chlorurés (trichloréthylène) ainsi que les produits utilisés dans le domaine de la peinture. Dans presque tous les cas ne craint pas de contact avec le maquillage, vernis à ongles, et son solvant.

TACHES: Pour enlever la plus grande partie des tâches, le calcaire et les impuretés qui d'habitude se déposent sur la surface, il suffit de nettoyer MineralMarmo® avec de l'eau savonneuse ou des détergents communs non abrasifs. Utiliser une éponge non abrasive ou un chiffon en coton en prenant soin de bien rincer la surface. Les produits conseillés sont : ACE crème gel, ClF en gel, AJAX.

DOMMAGES: Un emploi non correct peut provoquer des défauts visibles sur la surface. En cas de rayures profondes, de légères ébréchures et de tâches difficiles, une simple procédure peut solutionner le problème : si la pellicule gelcoat n'a pas été endommagée dans toute son épaisseur, il suffit de frotter et uniformiser la surface à l'aide du papier de verre (grain 800-1000). Pour obtenir le brillant d'origine il faut utiliser de la pâte à cirer ou du polish (produits utilisés pour la carrosserie des voitures) selon les indications fournies par le producteur.

À EVITER: Pour le nettoyage de MineralMarmo® il faut éviter les détergents et les éponges abrasives. MineralMarmo® est un matériel résistant à la chaleur mais il faut éviter de poser sur la surface des objets brûlants. Il est déconseillé l'emploi de produits chimiques. Certains produits comme l'encre, les cosmétiques et la teinture, à contact prolongé avec MineralMarmo®, peuvent relâcher des colorants sur la surface.

INFO MATERIALI :: MATERIAL'S INFORMATION :: INFO MATERIALIEN :: INFO MATERIAUX

FENIX®

COMPOSIZIONE E ASPETTO: FENIX ® è un materiale innovativo creato per applicazioni di interior design. La sua peculiare estetica è dovuta alla presenza nella parte superficiale di una lamina di vero metallo. Il materiale viene prodotto mediante l'applicazione simultanea di calore (circa 150°C) e alta pressione specifica (> 7 MPa) per ottenere un prodotto omogeneo non poroso. Il cuore di FENIX ® è composto da carta impregnata in resina termoindurente. La superficie decorativa, ottenuta con l'ausilio di nanotecnologie, è costituita da un substrato trattato con resine acriliche di nuova generazione indurite attraverso il processo di Electron Beam Curing. Le sue caratteristiche : alta resistenza al graffio ed al calore, anti impronta, morbidezza al tatto, bassa riflessione della luce, riparabilità termica dei micrograffi, alta attività di abbattimento della carica batterica.

CURA E PULIZIA: Come qualsiasi altro materiale per l'interior design, una superficie in FENIX deve essere pulita regolarmente. Non richiede alcuna manutenzione particolare, solo un panno umido con acqua tiepida o un detergente delicato. Quasi tutti i normali prodotti e disinfettanti per la pulizia domestica sono perfettamente tollerati. Per le macchie più comuni è sufficiente pulire la superficie con acqua calda, utilizzando un panno non abrasivo.

MACCHIE : La peculiarità della superficie in FENIX , con il suo strato esterno a porosità chiusa, permette di mantenerla pulita attraverso la normale manutenzione quotidiana. In caso di macchie ostinate si consiglia l'utilizzo di un detergente specifico per la rimozione di tutte le macchie e tracce. In caso di micro-grafì sulla superficie disporre un foglio di carta da cucina inumidito sull'area, posizionare il ferro da stiro a 180 C sulla superficie per max 10 sec alla fine sbriciare l'area riparata con acqua tiepida e un panno in microfibra.

DANNEGGIAMENTI: nonostante sia molto resistente, la superficie di FENIX non deve mai essere trattata con prodotti contenenti sostanze abrasive, spugne abrasive o altri strumenti inadeguati, come carta vetrata o lana d'acciaio.

DA EVITARE: gli acidi e i prodotti molto alcalini vanno evitati perché possono macchiare la superficie. Non utilizzare prodotti per la lucidatura dei mobili, né prodotti a base di cera in generale, perché tendono a formare sulla superficie del FENIX uno strato appiccicoso al quale lo sporco aderisce; non utilizzare raschietti metallici, spazzole di ferro o altri utensili metallici per rimuovere macchie, vernice, intonaco o altre sostanze.

FENIX®

COMPOSITION AND ASPECT: FENIX® is an innovative material created for interior design. A real metal structure gives a unique aesthetic feature. It is produced by the simultaneous application of heat (approx. 150 °C) and high specific pressure (> 7 MPa) to obtain a homogeneous non porous material.

The core structure of FENIX® is composed of paper impregnated with thermosetting resins. Its top surface involves the use of nanotechnology and its main performances are obtained through next generation acrylic resins cured by Electron Beam Curing process. Its features: high resistance to scratching and heat, anti-fingerprint, soft touch, low light reflectivity, thermal healing of micro-scratches, enhanced anti-bacterial properties. **MAINTENANCE AND CLEANING:** As with any other material for interior design, a FENIX® surface should be cleaned regularly. It does not require any special maintenance, just a damp cloth with warm water or a mild detergent. Almost all regular household cleaning products or disinfectants can be safely used. For the most common stains, you can simply clean the surface with warm water using a non-abrasive cloth.

STAINS: FENIX® surfaces have a unique non-porous external layer, allowing you to keep it neat with simple, everyday care and cleaning methods. In case of stubborn stains, we recommend the use of a specific cleaning agent to remove any trace of the stain.

In case of micro-scratches, place a dampened sheet of kitchen roll over the area where the micro-scratches can be seen. Place the hot iron on the surface that needs repairing. Do not leave the iron on the surface for more than 10 seconds at a time. Rinse the repaired area with lukewarm water and a microfibre cloth.

DAMAGES: although very resistant, a FENIX surface must still never be treated with products containing abrasive substances, macroabrasive sponges or unsuitable materials such as sandpaper or steel wool.

AVOID: strongly acidic or alkaline products should be avoided because they can stain the surface. Do not use furniture polish or wax-based cleaners in general, because they tend to form a sticky layer on the FENIX® surface that attracts and traps dirt; do not use metal scrapers, iron brushes or any other metal tool to remove stains, paint, plaster or other substances from the surface.

FENIX®

ZUSAMMENSETZUNG UND AUSSEHEN: FENIX ® ist ein innovatives Produkt für den Innenbereich kreiert. Eine Echtmetallstruktur gibt dem Material seine besondere Ästhetik. Es wird durch den Einsatz von Hitze (ca. 150° C) und hohem Druck (> 7MPa) gefertigt. Die Kernstruktur von FENIX ® setzt sich aus imprägniertem Papier und wärmehärtenden Harzen zusammen. Die Oberfläche beinhaltet Nanotechnologie, die besonderen Eigenschaften werden durch eine neue Generation acrylischer Harze die mit Elektronenstrahlhärtung gehärtet werden - erzielt.

PLENGE UND REINIGUNG: Genauso wie jedes andere Material für das Interior Design, sollten die FENIX Oberflächen regelmäßig gereinigt werden. Sie benötigen keine besonderen Hilfsmittel, sondern nur ein Tuch, angefeuchtet mit warmem Wasser oder sanfte Reinigungsmittel. Beinahe alle Haushaltsreiniger oder Desinfektionsmittel werden perfekt vertragen. Für die üblichen Flecken ist es ausreichend, die Oberfläche mit warmem Wasser und einem nicht abrasiven Tuch zu reinigen.

FLECKEN: Die Besonderheit von Fenix-Oberflächen, die geschlossene Porosität, ermöglicht es die Oberfläche durch tägliche Reinigung sauber zu halten. Bei hartnäckigen Flecken wird empfohlen, einen speziellen Reiniger zu verwenden, um jede Spur zu beseitigen.

BESCHÄDIGUNGEN: Obwohl das Material sehr resistent ist, darf die Oberfläche von FENIX® niemals mit Produkten gereinigt werden, die abrasive Substanzen beinhalten. Makroabrasive Schwämme oder Hilfsmittel wie zum Beispiel Sandpapier oder Stahlwolle, sind ebenfalls ungeeignet.

ZU VERMEIDEN: Säuren oder alkalische Produkte sollten vermieden werden, da sie Flecken bilden können; Keine Möbelpolitur oder Reiniger auf Wachsbasis im Allgemeinen verwenden, da diese eine klebrige Schicht auf der dichten FENIX Oberfläche hinterlassen, auf der sich Schmutz ablagert. Keine Metallschachtel, Eisenbürsten oder andere Metallwerkzeuge verwenden, um Flecken, Farbflecken, Plaster oder andere Substanzen zu entfernen.

FENIX®

COMPOSITION ET ASPECT : FENIX® est un produit innovant créé pour le design intérieur. Une véritable feuille métallique lui confère une caractéristique esthétique unique. Il est fabriqué à haute pression (> 7 MPa) et haute température (environ 150°C). Le cœur de FENIX®est composé de papier imprégné de résines thermodurcissables. La surface décorative est obtenue par l'utilisation de nanotechnologie et ses caractéristiques: haute résistance aux rayures et à la chaleur, anti-empreintes digitales, doux au toucher, faible réflexion de la lumière, réparation thermique des micrographies, haute activité de réduction de la charge bactérienne

ENTRETIEN COURANT ET TACHES FREQUENTES Comme tout autre élément destiné à la décoration d'intérieur, la surface de FENIX® doit être nettoyée régulièrement. Elle ne nécessite pas d'entretien particulier. Il suffit de la nettoyer régulièrement avec un chiffon imprégné d'eau chaude additionnée d'un détergent doux. La plupart des détergents ménagers courants ou les désinfectants sont parfaitement bien tolérés. Pour les tâches les plus courantes, il suffit de nettoyer la surface avec de l'eau chaude en utilisant un chiffon non-abrasif.

TACHES RESISTANTES La surface des panneaux FENIX est composée d'une couche extérieure non poreuse qui leur permet de rester propres grâce à un simple entretien quotidien. En cas de tâches résistantes, il est recommandé d'utiliser un agent nettoyant spécifique pour enlever toute trace de saleté.

DEGATS Bien que la surface de FENIX présente une résistance remarquable, il ne faut pas la frotter avec des éponges abrasives, des produits contenant des substances abrasives, ou avec des produits inadaptés de type papier de verre ou paille de fer.

A EVITER Les acides et les produits très alcalins doivent être évités. N'utiliser pas de produits de polissage de meubles, ou de produits à base de cire en général, de grattoirs métalliques, de brosses métalliques ou d'autres outils métalliques pour enlever les taches, la peinture, le plâtre ou d'autres substances.

GRAFITE - HPL

COMPOSIZIONE ED ASPETTO: Grafite è un innovativo prodotto particolarmente indicato per la realizzazione di piani e top. Grafite utilizza un supporto in legno ed una particolare lamina molto resistente grazie all'impiego di alcuni strati di resine termoindurenti ed una strato decorativo superficiale impregnato di resine amino plastiche e trattato ad altissima pressione ed a una temperatura fino a 150°C. Lo strato decorativo superficiale permette di ottenere molteplici effetti materici piacevoli al tatto.

CURA E PULIZIA: per la pulizia quotidiana è sufficiente l'uso di un panno o spugna morbidi ed un detergente neutro. Sciacquare ed asciugare accuratamente la superficie.

MACCHIE: Grafite è un prodotto resistente e non permeabile, tuttavia il contatto con prodotti che possono rilasciare colore sulla superficie possono macchiare. Nella maggior parte dei casi è possibile rimediare alle macchie con una spugna umida ed un detergente tipo Cif crema.

DANNEGGIAMENTI: Grafite è particolarmente resistente alle abrasioni, a piccoli urti, al calore ed all'umidità. Un uso improprio ed eccessivo può tuttavia creare danni difficilmente riparabili.

DA EVITARE: non usare prodotti chimici aggressivi quali acetone, trielina, acidi, anticalcare e candeggina. Evitare il contatto prolungato con inchiostro, cosmetici e tinture che possono colorare e macchiare la superficie. Non appoggiare oggetti roventi.

GRAFITE - HPL

COMPOSITION AND APPEARANCE: Grafite is an innovative product, particularly suitable for making tops. Grafite consists of a wood support and a special laminate with very high resistance thanks to the multiple layers of thermosetting resins and decorative surface layer impregnated with amino-plastic resins and treated at very high pressure and a temperature of up to 150°C. The decorative surface layer enables numerous textures with a pleasing feel to be obtained.

CARE AND CLEANING: For everyday cleaning, use just a soft cloth or sponge with neutral cleaning products. Rinse and dry the surface thoroughly.

MARKS: Grafite is a resistant impermeable product. However, contact with objects with colours which may bleed could stain the surface. In most cases, the marks can be removed with a damp sponge and a cleaning product such as Cif cream cleaner.

DAMAGE: Grafite is particularly resistant to abrasion, slight knocks, heat and moisture. Improper and excessive use may however cause irreparable damage.

TO BE AVOIDED: Do not use aggressive chemical products such as acetone, trichloroethylene, acids, descaler and bleach. Avoid prolonged contact with inks, cosmetics and dyes which could colour and stain the surface. Do not rest very hot objects on the surface.

GRAFITE - HPL

ZUSAMMENSETZUNG UND AUSSEHEN: GRAFITE ist ein innovatives Produkt, das sich vor allem für die Herstellung von Arbeitsplatten eignet. Graphit besteht aus einem Trägermaterial aus Holz, einer speziellen, sehr widerstandsfähigen Platte aus mehreren Schichten Duroplast und aus einer Dekorschicht, die mit Aminoplasten imprägniert und unter Hochdruck sowie bei einer Temperatur bis zu 150°C behandelt ist. Mit der Dekorschicht können zahlreiche Materialeffekte mit berührungsfreundlicher Oberfläche erzielt werden.

PFLEGE UND REINIGUNG: Für die tägliche Reinigung können ein weiches Tuch oder ein weicher Schwamm und ein neutrales Reinigungsmittel verwendet werden. Die Oberfläche gründlich nachspülen und trocknen.

FLECKEN: GRAFITE ist ein widerstandsfähiges und undurchlässiges Produkt, dennoch können bei Kontakt mit Produkten, die abfärben, Flecken auf der Oberfläche entstehen. In den meisten Fällen lassen sich die Flecken mit einem feuchten Schwamm und einem Reinigungsmittel wie Viss Scheuermilch beseitigen.

BESCHÄDIGUNGEN: GRAFITE ist besonders widerstandsfähig gegenüber Abrieb, leichten Stößen, Wärme und Feuchtigkeit. Bei unsachgemäßem Gebrauch und Überbeanspruchung können jedoch schwer reparierbare Schäden verursacht werden.

ZU VERMEIDEN: Keine aggressiven Chemikalien verwenden, wie Aceton, Trichlorethen, Säuren, Entkalker und Bleiche. Längerer Kontakt mit Tinte, Kosmetika und Färbemitteln ist zu vermeiden, da sich die Oberfläche verfärben könnte oder Flecken entstehen könnten. Keine heißen Gegenstände abstellen.

GRAFITE - HPL

COMPOSITION ET ASPECT: Graphite est un produit innovant particulièrement indiqué pour la réalisation de plans. Graphite emploie un support en bois et une feuille spéciale très résistante grâce à l'utilisation de couches de résines thermodurcissantes et d'une couche de surface décorative imprégnée de résines amino-plastiques et traitée à très haute pression à une température jusqu'à 150 °C. La couche de surface décorative permet d'obtenir de nombreux effets de texture agréables au toucher.

ENTRETIEN ET NETTOYAGE: Pour le nettoyage quotidien, il suffit d'utiliser un chiffon doux ou une éponge souple et un produit détergent neutre. Rincer et sécher soigneusement la surface.

TACHES: Graphite est un produit résistant et imperméable, toutefois le contact avec des produits pouvant laisser une couleur sur la surface peut engendrer des taches. Dans la plupart des cas, il est possible d'éliminer les taches avec une éponge humide et un produit détergent de type Cif crème.

DÉGÂTS: Graphite est particulièrement résistant aux abrasions, aux petits chocs, à la chaleur et à l'humidité. Une utilisation impropre et excessive peut cependant provoquer des dégâts difficilement réparables.

À ÉVITER: Ne pas utiliser de produits chimiques agressifs comme l'acétone, le trichloréthylène, les acides, l'anticalcaire et l'eau de Javel. Éviter le contact prolongé avec l'encre, les cosmétiques et les teintures qui peuvent colorer et tacher la surface. Ne pas appuyer d'objets brûlants.

INFO MATERIALI :: MATERIAL'S INFORMATION :: INFO MATERIALIEN :: INFO MATERIAUX

TOP IN LEGNO

COMPOSIZIONE ED ASPETTO: i Tops sono realizzati con pannelli in particelle di legno trattato idrorepellente. La finitura color legno è realizzata in rivestimento melaminico. La finitura Mat è una laccatura satinata opaca, quella Lux è una laccatura lucida, quella Perlé una laccatura madreperlata. La bordatura con incollaggio a colla poliuretana garantisce un'ottimale tenuta del pannello contro acqua ed umidità. I Tops sono disponibili in spessore 2 e 6 cm.

CURA E PULIZIA: per la pulizia quotidiana è sufficiente l'uso di un panno o spugna morbidi ed un detergente neutro diluito in acqua. Asciugare sempre il piano evitando il ristagno di liquidi avendo cura di tamponare con un panno morbido senza strofinare. Le superficie laccate, Mat, Perlé, ma in modo particolare quelle Lux, necessitano di cura ed attenzioni particolari: panni e detersivi non dovranno essere assolutamente di tipo abrasivo o contenere polveri che possono rigare la superficie.

MACCHIE: evitare, per quanto possibile, di far invecchiare qualsiasi macchia di sporco sulla superficie: pulire subito significa preservare in buone condizioni e più a lungo il Top. Residui ed aloni di calcare, tracce di rossetto e prodotti per il trucco vanno rimossi con delicatezza usando un panno morbido e una soluzione di acqua e detergente neutro.

DANNEGGIAMENTI: le superfici laccate, se pur trattate per garantire la massima resistenza possibile, si possono strisciare o scalfire nella caduta di oggetti pesanti od appuntiti: danni di questo tipo possono difficilmente essere rimediati con semplicità ed in modo autonomo, vi consigliamo di contattare il vostro fornitore che vi potrà consigliare relativamente al tipo di danno creato.

DA EVITARE: non usare prodotti chimici aggressivi quali acetone, trielina, acidi, anticalcare e candeggina. Evitare il contatto con inchiostro, cosmetici e tinture che possono colorare e macchiare la superficie. Non appoggiate oggetti molto caldi o appuntiti. Evitare il ristagno, anche per brevi periodi, di acqua o altri liquidi.

VETRO

ASPETTO E FINITURE: il vetro utilizzato per la realizzazione di Top e Lavabi-Top integrati dalla MASTELLA è tutto dello spessore di 10 mm e di qualità "extrachiaro" per garantire una maggiore stabilità e fedeltà del colore. La gamma di colori disponibile copre l'intera gamma delle laccature dei mobili. Sono disponibili due diverse finiture di superficie: EXTRACOLOR, tutti i colori Mastella con finitura della superficie lucida; SATIN, tutti i colori Mastella con finitura della superficie satinata.

CURA E PULIZIA: per la pulizia quotidiana è sufficiente rimuovere eventuali sostanze presenti sul piano con delle salviette di carta, lavare con acqua calda, un detergente liquido o un comune prodotto per la pulizia del vetro ed un panno morbido. La finitura SATIN è trattata con un prodotto anti-impronta, si consiglia la pulizia con acqua ed alcol. Queste semplici raccomandazioni preserveranno intatto il vostro piano nel tempo.

MACCHIE: per la naturale caratteristica del vetro vi potranno essere solo macchie dovute a calcare d'acqua: sulla superficie lucida della finitura EXTRACOLOR è possibile usare un prodotto anticalcare (Viakal); NON è possibile usare invece prodotti acidi (anticalcare) o basici (candeggina, soda caustica) sulla superficie satinata della finitura SATIN che possono danneggiare il trattamento anti-impronta. Nella finitura SATIN usare solo prodotti per la pulizia del vetro o detersivi a Ph neutro.

DANNEGGIAMENTI

La natura propria del vetro conferisce ai top ed ai lavabi-top EXTRACOLOR e SATIN una discreta delicatezza agli urti ed alle abrasioni o graffi che difficilmente potranno essere ripristinati. Si raccomanda per tanto la massima cura ed attenzione.

DA EVITARE: non appoggiare sulla superficie in vetro oggetti che possono strisciare e scalfire la superficie stessa. Non usare detersivi o panni abrasivi. In modo particolare nella finitura SATIN non usare acidi, soda caustica, anticalcare, candeggina.

WOODEN AND LACQUERED TOPS

COMPOSITION: The wooden tops are made of PANEL MADE OF PARTICLES OF WATER-REPELLENT TREATED WOOD. The wooden finish is made of melamine coating. The Mat is a satin mat lacquer finish, the Lux is a glossy lacquer finish, the Metallic one is a mother pearl lacquer finish. Thanks to the application of polyurethane glue on the edge, the product is guaranteed to be damp resistant. The available thickness of the wooden and lacquered tops are 2 and 6 cm.

CARE AND CLEANING: For everyday cleaning, simply remove any substances present on the top using soft cloth and neutral detergent diluted with water. Dry always the top's surface using a soft cloth without wrinkling and avoiding the stagnation of liquids on its surface. The Mat, Metallic and moreover the Lux lacquered surfaces need more care and attention: absolutely don't use abrasive detergents and abrasive cloths or items which could contain dust and most probably could rub the surface.

STAINS: Avoid as much as possible to leave on the surface any kind of stains: to clean immediately the surface means that the top will be preserved in a good condition for longer time and ensures its original beauty. Limestone and cosmetic products must be removed carefully, using a soft cloth and a neutral detergent diluted with water.

DAMAGE: The lacquered tops have been treated with special varnish in order to guarantee the maximum resistance; anyway it can happen that the surface can be damaged by the accidental fall of heavy or sharp items: these kind of damages are more difficult to be resolved in a simply way, therefore it is recommended to contact your dealer.

TO AVOID: Do not lean on the surface sharp or hot items. Do not use harsh chemicals such as acetone, turpentine , acids, paint strippers, bleach and anti-limestone products. Some substances such as ink, cosmetics and dyes in prolonged contact with the product, can leave stains on the surface. Do not put lighted cigarettes on the surface, do not cut directly on the surface. Avoid, even for short time, the stagnation of liquids or water.

GLASS

APPEARANCE AND FINISHES: All glass used to make MASTELLA Tops and integrated Basin-Tops is 10 mm thick and "extra-clear" to guarantee improved colour fastness and accuracy. The range of colours available covers the entire lacquer range of our units. Two different finishes are available. EXTRACOLOR, all Mastella colours with a gloss surface; SATIN, all Mastella finishes with a satin surface.

CARE AND CLEANING: For everyday cleaning, simply remove any substances present on the top using paper wipes, then wash with a soft cloth, hot water, liquid detergent or other common glass cleaning products. The SATIN finish is treated with a fingerprint-resistant product and should be cleaned with water and alcohol only. These simple tips will preserve your top over time.

MARKS: Given the natural characteristics of glass, the only marks which may form are caused by limescale in the water. You can remove these from the EXTRACOLOR gloss finish with a limescale remover such as Viakal. Acids (descalers) or alkalis (bleach, caustic soda) must NOT be used on the SATIN finish surface as they could damage the fingerprint resistant treatment. Use only glass cleaning products or neutral detergents on the SATIN finish.

DAMAGE: The very nature of glass makes EXTRACOLOR and SATIN tops and basin-tops somewhat delicate to impact, abrasion and scratches which cannot be restored. We recommend maximum care and attention.

TO BE AVOIDED: Do not rest glass objects on the surface as they could leave scratches or abrasions. Do not use abrasive cleaning products or cloths. Descaler or bleach on the SATIN finish.

HOLZWASCHTISCHPLATTEN

ZUSAMMENSETZUNG UND AUSSEHEN: Die Waschtischplatten sind aus wasserabweisenden Holzspanplatten hergestellt. Die Holzdekor Oberfläche wird mit einer Melaminbeschichtung erzeugt. Die Ausführung Mat ist eine satinierte Mattlackierung, die Ausführung Lux ist eine Hochglanzlackierung, die Ausführung Perlé ist eine Perlmutterlackierung. Die Kantenverleimung mit Polyurethanleber garantiert eine optimale Dichtheit der Platte gegen Wasser und Feuchtigkeit. Die Waschtischplatten sind in den Stärken 2 und 6 cm erhältlich.

PFLEGE UND REINIGUNG: Für die tägliche Reinigung können ein weiches Tuch oder ein weicher Schwamm und ein neutrales, mit Wasser verdünntes Reinigungsmittel verwendet werden. Die Platte immer trocken und stehendes Wasser vermeiden, immer sorgfältig mit einem weichen Tuch abtupfen, ohne zu reiben. Die lackierten Oberflächen, Mat, Perlé, doch insbesondere die Oberflächen Lux, erfordern besondere Pflege und Aufmerksamkeit: es dürfen keinesfalls scheuernde oder pulverhaltige Tücher oder Reinigungsmittel verwendet werden, da sie die Oberfläche verkratzen könnten.

FLECKEN: Avoid as much as possible to leave on the surface any kind of stains: to clean immediately the surface means that the top will be preserved in a good condition for longer time and ensures its original beauty. Limestone and cosmetic products must be removed carefully, using a soft cloth and a neutral detergent diluted with water.

DAMAGE: Soweit möglich vermeiden, dass sich Schmutzflecken auf der Oberfläche festsetzen: bei sofortiger Reinigung kann die Waschtischplatte länger in gutem Zustand erhalten werden. Rückstände und Kalkränder, Lippenstiftspuren und Schminkeprodukte müssen mit einem weichen Tuch und einer Lösung aus Wasser und neutralem Reiniger vorsichtig entfernt werden.

BESCHÄDIGUNGEN: Die lackierten Oberflächen können, auch wenn sie behandelt sind, um maximale Beständigkeit zu garantieren, beim Herabfallen von schweren oder spitzen Gegenständen verkratzt werden oder absplintern. Schäden dieser Art können schwer einfach und selbst repariert werden, wir empfehlen Ihnen, Ihren Lieferanten zu kontaktieren, der Sie hinsichtlich des entstandenen Schadens beraten kann.

ZU VERMEIDEN: Keine aggressiven Chemikalien verwenden, wie Aceton, Trichlorethen, Säuren, Entkalker und Bleiche. Den Kontakt mit Tinte, Kosmetika und Farbmitteln vermeiden, da sich die Oberfläche verfärben könnte oder Flecken entstehen könnten. Keine sehr heißen oder spitzen Gegenstände ablegen. Stehendes Wasser oder andere Flüssigkeiten, auch kurzzeitig, vermeiden.

GLAS

ZUSAMMENSETZUNG UND OBERFLÄCHEN: Glas wird als Platte oder als Waschtisch in 10mm Stärke angeboten. Es können alle von Mastella angebotenen Farben ausgewählt werden. Um eine perfekte farbliche Abstimmung zu garantieren wird ausschließlich Klarglas verwendet. Es sind zwei Oberflächen verfügbar: EXTRACOLOR, alle Mastella Farben in Glanzoberfläche; SATIN, alle Mastella Farben mit satiniert Oberfläche.

PFLEGE UND REINIGUNG: Für die tägliche Reinigung reicht es die schmutzige Oberfläche mit einem Papiertuch und warmem Wasser oder mit einem haushaltsüblichen Reinigungsmittel oder Glasreiniger und einem feuchten Tuch zu putzen. Die satinierte Oberfläche wird mit einem Antiabdruckmittel behandelt, es wird die Reinigung mit Wasser und Alkohol empfohlen. Diese einfachen Empfehlungen werden Ihre Platte in der Zeit vor Verschleiß bewahren.

FLECKEN: Auf Grund seiner natürlichen Beschaffenheit können sich nur durch Wasser entstandene Kalkflecken bilden: auch der EXTRACOLOR Glanzoberfläche kann ein Kalkreiniger verwendet werden (z.B. Antikal); bei der SATIN Oberfläche dürfen KEINE säurehaltigen Produkte (Kalkreiniger) oder basische Produkte (Chlorbleiche, Atznatron) verwendet werden. Bei der SATIN Oberfläche dürfen nur Glasreinigungsprodukte oder pH neutrale Produkte verwendet werden.

BESCHÄDIGUNGEN: Die natürliche Beschaffenheit verleiht den Glasplatten- und Waschtischen in EXTRACOLOR UND SATIN eine gewisse Empfindlichkeit gegen Stöße, Abschürfungen und Kratzer, die nur schwer entfernt werden können. Es wird daher äußerste Aufmerksamkeit und Pflege empfohlen.

ZU VERMEIDEN: Keine Gegenstände auf die Glasplatte stellen, die die Oberfläche zerkratzen oder zerschrammen können. Keine abrasiven Reinigungsmittel oder Scheuerschwämme verwenden. Vor allen Dingen bei der SATIN Oberfläche keine säurehaltigen Produkte, Kalkreiniger, Chlorbleiche oder Atznatron verwenden.

PLANS EN BOIS

COMPOSITION ET ASPECT: Les plans sont réalisés avec matériel de particules de bois traité hydrofuge. Finition bois: revêtement mélaminé. Finition Mat: laqueage opaque satiné. Finition Lux: laqueage brillant. Finition Perlé: laqueage perlé. Bord avec colle polyuréthane excellente contre l'eau et l'humidité. Plans disponibles en épaisseur cm 2 et cm 6.

ENTRETIEN ET NETTOYAGE: Pour le nettoyage quotidien il suffit utiliser un chiffon doux et un détergent neutre diluée dans de l'eau. Rincer toujours. Eviter stagnation de liquides. Tamponner avec chiffon doux et ne pas frotter. Attention particulière pour les finitions laquées Mat, Perlé et surtout Lux : éviter détergents et chiffons abrasifs ou contenant poussières qui peuvent rayer la surface.

TACHES: Enlever tout de suite toutes les taches sur la surface. Résidus, traces de calcaire, rouges à lèvres et produits pour le maquillage doivent être enlevés délicatement avec un chiffon doux, eau et détergent neutre.

DÉGATS: Eviter impacts avec objets lourdes et à pointe dans les surfaces laquées, qui mêmes si traités pour assurer résistance, se peuvent ramper et rayer. Ce type de dommage peut être réparé : contacter le fournisseur qui vous conseillera la meilleure solution.

A EVITER: A éviter produits chimiques comme acétone, trichloréthylène, acides, anticalcaire et l'eau de Javel. A éviter le contact avec l'encre, cosmétiques et teintures. Eviter de poser objets chauds et à pointe. Eviter stagnation de liquides et d'eau.

VERRE

ASPECT ET FINITIONS: Pour la réalisation des plans et des lavabos-plans intégrés MASTELLA emploie exclusivement du verre de 10 mm d'épaisseur, de qualité « extra clair » pour garantir une plus grande stabilité et fidélité de la couleur. La gamme de coloris disponibles correspond à toute la gamme des laquages des meubles. Deux finitions de surface différentes sont disponibles : EXTRACOLOR, tous les coloris Mastella avec une finition de surface brillante, et SATIN, tous les coloris Mastella avec une finition de surface satinée.

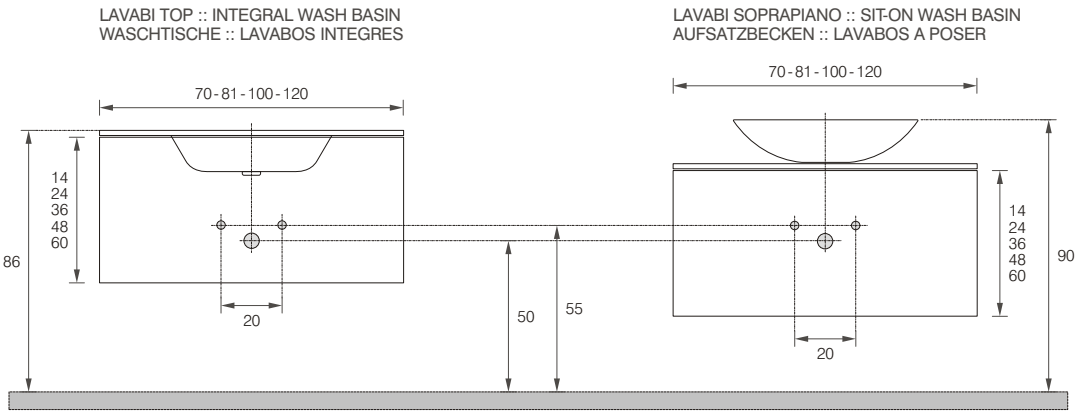

ENTRETIEN ET NETTOYAGE: Pour le nettoyage quotidien, il suffit d'éliminer les éventuelles substances présentes sur le plan avec des serviettes en papier, de laver avec de l'eau chaude et un produit détergent liquide ou bien d'utiliser un simple produit pour le nettoyage des vitres avec un chiffon doux. La finition SATIN est traitée avec un produit anti-empreintes et il est conseillé d'effectuer le nettoyage avec de l'eau et de l'alcool. Ces simples conseils permettront de maintenir intact votre plan au fil du temps.

TACHES: En raison de la caractéristique naturelle du verre, des taches dues au calcaire de l'eau peuvent se former. Sur la surface brillante de la finition EXTRACOLOR, il est possible d'utiliser un produit anticalcaire (Viakal); NE PAS utiliser en revanche de produits acides (anticalcaire) ou basiques (eau de Javel, soude caustique) sur la surface satinée de la finition SATIN, car ils peuvent endommager le traitement anti-empreinte. Sur la finition SATIN, utiliser uniquement des produits pour le nettoyage des vitres ou des détergents à pH neutre.

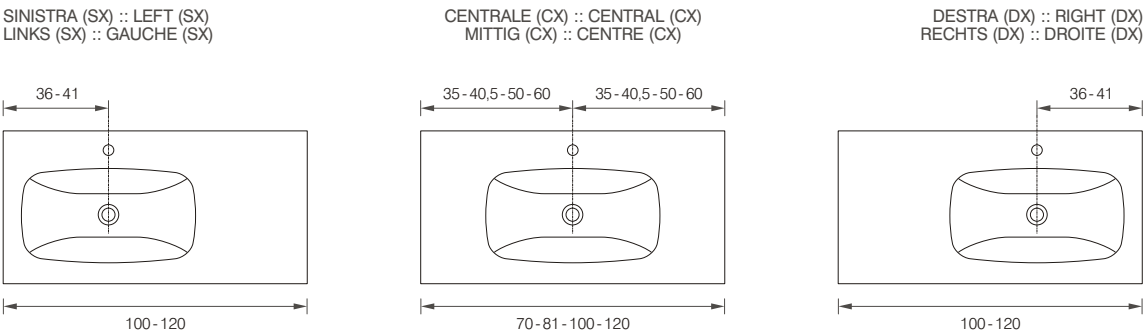

DÉGÂTS: La nature propre au verre confère aux plans et aux lavabos-plan EXTRACOLOR et SATIN une délicatesse modeste aux chocs et aux abrasions ou aux rayures qui seront difficiles à reprendre. Il est donc recommandé d'apporter le plus grand soin et la plus grande attention.

À ÉVITER: Ne pas appuyer sur la surface en verre des objets pouvant glisser et rayer la surface. Ne pas utiliser de produits détergents ou de chiffons abrasifs. Sur la finition SATIN en particulier, ne pas utiliser de produits acides, soude caustique, anticalcaires ni eau de Javel

SODDISFAZIONE DEL CONSUMATORE

RACCOMANDIAMO DI VISIONARE E CONSERVARE LA SCHEDA PRODOTTO CHE ACCOMPAGNA OGNI CONSEGNA. LA SCHEDA INFORMA IL CONSUMATORE SULLA NATURA DEL BENE ACQUISTATO: I MATERIALI UTILIZZATI, LE CARATTERISTICHE TECNICHE GENERALI, LA MANUTENZIONE E LA PULIZIA.

SCHEMI DI ASSEMBLAGGIO E ASSISTENZA

OGNI CONSEGNA E' DOTATA DI DOCUMENTI NECESSARI ALL'ASSEMBLAGGIO ED AL MONTAGGIO. ALL'INTERNO DELLA CONFEZIONE CONTENENTE LA FERRAMENTA, E' ALLEGATO IL MANUALE DI "MONTAGGIO" RELATIVO ALL'ARTICOLO ACQUISTATO. I NOSTRI UFFICI TECNICO E COMMERCIALE SONO COMUNQUE DISPONIBILI PER OGNI CHIARIMENTO.

PREZZI

I PREZZI INDICATI IN QUESTO LISTINO, SONO ESPRESSI IN EURO, IVA ESCLUSA. IL PRESENTE LISTINO, STAMPATO NEL MESE DI MARZO 2018, ANNULLA E SOSTITUISCE I PRECEDENTI.

CUSTOMER SATISFACTION

ALL PRODUCTS ARE SUPPLIED WITH A PRODUCT SHEET. PLEASE READ IT CAREFULLY AND KEEP IT FOR FUTURE REFERENCE. OUR PRODUCT SHEET HAS ALL INFORMATION ON MATERIALS USED, GENERAL TECHNICAL CHARACTERISTICS, MAINTENANCE AND CLEANING.

ASSEMBLING INSTRUCTIONS AND ASSISTANCE

ALL OUR PRODUCTS ARE DELIVERED WITH ASSEMBLING INSTRUCTIONS. THE INSTRUCTIONS BOOKLET IS INSIDE THE "FERRAMENTA" BOX (BOX CONTAINING ALL FIXINGS) AND IS RELATIVE TO THE TYPE OF PRODUCTS DELIVERED. OUR TECHNICAL AND SALES OFFICES ARE AVAILABLE FOR ALL FURTHER INFORMATION.

PRICES

PRICES ARE EXPRESSED IN EURO, EX-VAT. THIS PRICE LIST PRINTED IN MARCH 2018 CANCELS ALL THOSE ISSUED FOR PREVIOUS YEARS.

VERBRAUCHERZUFRIEDENHEIT

WIR EMPFEHLEN DIE BEIGEFÜGTEN TECHNISCHEN INFORMATIONEN GRÜNDLICH ZU LESEN UND AUFZUBEWAHREN. SIE ENTHALTEN INFORMATIONEN ÜBER DIE MATERIALIEN, DIE TECHNISCHEN MERKMALE, DIE WARTUNG UND REINIGUNG DES PRODUKTES.

MONTAGEANWEISUNGEN UND KUNDENDIENST

BEI JEDER LIEFERUNG SIND MONTAGEANWEISUNGEN ENTHALTEN. UNSERE VERKAUFS UND TECHNISCHE ABTEILUNGEN STEHEN JEDERZEIT FÜR EVENTUELLE FRAGEN ZUR VERFÜGUNG.

PREISE

DIE PREISE DIESER PREISLISTE SIND EURO-PREISE UND VERSTEHEN SICH EXKLUSIV MEHRWEHRSTEUER. DIESE PREISLISTE VOM MÄRZ 2018 ERSETZT ALLE VORHERIGEN PREISLISTEN.

SATISFACTION DU CLIENT

MERCI DE LIRE ET CONSERVER LA FICHE PRODUIT QUE VOUS TROUVEZ DANS CHAQUE LIVRAISON. LA FICHE CONTIENT TOUTES LES INFORMATIONS SUR LE PRODUIT ACHETE : LES MATERIAUX UTILISES, LES CARACTERISTIQUES TECHNIQUES GENERAUX, LA MANUTENTION ET LE NETTOYAGE.

INSTRUCTIONS POUR L'ASSEMBLAGE ET ASSISTANCE

CHAQUE LIVRAISON EST ACCOMPAGNEE DE LA DOCUMENTATION POUR LE MONTAGE. DANS LA BOITE CONTENANT LE FERRAGE (FERRAMENTA) IL Y A AUSSI LE MANUEL DE MONTAGE POUR LE PRODUIT ACHETE. NOS SERVICES TECHNIQUE ET COMMERCIAL SONT TOUJOURS A VOTRE DISPOSITION POUR TOUTS RENSEIGNEMENTS COMPLEMENTAIRES.

PRIX

LES PRIX SONT EN EURO HORS TVA. LE PRESENT TARIF PUBLIE EN MARS 2018 ANNULE ET REMPLACE LES PRECEDENTS.
