L'azienda

The Company

Quando lavoriamo ci piace cercare l'ispirazione nelle cose che ci circondano: i nostri prodotti raccontano quello che siamo e quello a cui diamo valore. Crediamo nelle nuove eco-tecnologie perché vogliamo dare una dimensione responsabile al nostro operare.

When we work, we like to draw inspiration from what surrounds us. Our products tell who we are and what we value. We believe in new eco-friendly technologies because we want to adopt a responsible approach in our way of working.

Quand nous travaillons, nous aimons chercher l'inspiration dans les choses qui nous entourent: nos produits racontent ce que nous sommes et ce à quoi nous attachons de la valeur. Nous croyons aux nouvelles éco-tecnologies parce que nous voulons donner une dimension responsable à notre fonctionnement.

Wenn wir arbeiten, suchen wir Inspiration in den Dingen um uns herum: Unsere Produkte sagen uns, wer wir sind und was wir schätzen. Wir glauben an neue Öko-ökologien, weil wir unserer Arbeit eine verantwortungsvolle Dimension verleihen wollen.

Cuando trabajamos, nos gusta buscar inspiración en las cosas que nos rodean: nuestros productos nos dicen quiénes somos y qué valoramos. Creemos en las nuevas tecnologías ecológicas porque queremos dar una dimensión responsable a nuestro trabajo.

Approccio al design

Design approach

Impegno | Commitment

Ci prendiamo il tempo necessario per realizzare i nostri prodotti: costruire, anche con le mani, e impegnarsi in prima persona implica una diversa energia, un coinvolgimento più profondo, un operare responsabile.

We take all the time we need to make our products, because creating, even manually, and becoming personally involved imply a different energy, a deeper involvement, a responsible way of working.

Nous prenons le temps nécessaire pour réaliser nos produits: construire, même avec les mains, et s'engager à la première personne implique une énergie différente, une implication plus profonde, une action responsable.

Wir nehmen uns die nötige Zeit um unsere Produkte herzustellen: Selbst mit Ihren Händen zu bauen und sich auf die erste Person einzulassen, bedeutet eine andere Energie, ein tieferes Engagement und einen verantwortungsvollen Betrieb.

Nos tomamos el tiempo para hacer nuestros productos: construir, incluso con las manos, y participar en primera persona implica una energía diferente, una participación más profunda, una operación responsable.

Artigianalità | Handcraft

Un approccio artigianale al progetto permette di integrare il prestigio delle lavorazioni manuali ad un sistema produttivo industriale innovativo.

An artisan approach to the project allows combining the prestige provided by manual processing with an innovative industrial production system.

Une approche artisanale du projet permet d'intégrer le prestige des usinages manuels à un système productif industriel innovatif.

Ein handwerklicher Ansatz für das Projekt ermöglicht es, das Prestige der manuellen Arbeit in ein innovatives industrielles Produktionssystem zu integrieren.

Un enfoque artesanal del proyecto permite integrar el prestigio de la fabricación manual con un innovador sistema de producción industrial.

Sensibilità al dettaglio | Details awarness

Ci mettiamo passione nelle cose che facciamo e niente è lasciato al caso: dedichiamo attenzione alla scelta dei materiali e alla cura dei dettagli, perchè tutto contribuisce a creare un prodotto di qualità.

We do what we make with passion and we do not leave anything to chance: we give attention to the choice of raw materials and to details, because everything contributes to make top quality products.

Nous mettons de la passion dans les choses que nous faisons et rien n'est laissé au hasard: nous portons attention au choix des matériaux et au soin des détails, parce que tout contribue.

Pocket collection

Wir setzen Leidenschaft in die Dinge, die wir tun, und nichts wird dem Zufall überlassen: Wir achten auf die Auswahl der Materialien und auf Details, weil alles zur Schaffung eines Qualitätsprodukts beiträgt.

Ponemos pasión en las cosas que hacemos y nada se deja al azar: prestamos atención a la elección de materiales y atención a los detalles, porque todo contribuye a crear un producto de calidad.

Condivisione | Sharing

Abbiamo intrapreso un nuovo percorso fatto di confronti, incontri con professionisti e condivisioni di competenze.

We have embarked on a new path where confrontations, meetings with professionals and expertise sharing are major milestones.

Nous avons entrepris un nouveau parcours fait de comparaisons, de rencontres avec des professionnels et de partages de compétences.

Wir haben einen neuen Weg eingeschlagen, der aus Vergleichen, Treffen mit Fachleuten und dem Austausch von Fähigkeiten besteht.

Nos hemos embarcado en un nuevo camino de comparaciones, reuniones con profesionales y el intercambio de habilidades.

Esperienza | Experience

L'esperienza maturata nella produzione di manufatti in solid surface e lo sviluppo di un materiale proprio come il Korakril™ ci ha permesso di applicare nuove tecnologie all'ambiente bagno, declinando idee e soluzioni tecniche in progetti di design, completi e aperti alla personalizzazione.

Thanks to the experience gained in the production of solid surface items and the development of our own material, Korakril™, new technologies can be applied to the bathroom area, generating a wide range of ideas and technical solutions for design projects, complete and open to customization.

L'expérience acquisé dans la production de produits manufacturés en solid surface et le développement d'un matériau comme le Korakril™ nous a permis d'appliquer de nouvelles technologies à la salle de bain, déclinant des idées et des solutions techniques dans des projets de design, complets et ouverts à la personnalisation.

Die Erfahrungen bei der Herstellung von Produkten mit fester Oberfläche und der Entwicklung eines Materials wie Korakril™ haben es uns ermöglicht, neue Technologien auf die Badezimmerumgebung anzuwenden und Ideen und technische Lösungen in Designprojekten abzulehnen, die vollständig und offen für Anpassungen sind.

La experiencia adquirida en la producción de productos de superficie sólida y el desarrollo de un material como Korakril™ nos ha permitido aplicar nuevas tecnologías al ambiente del baño, ideas en declive y soluciones técnicas en proyectos de diseño, completos y abiertos a la personalización.

know how

**Modello presente a catalogo |
Model in the catalogue**

Le collezioni sono complete di tutti gli elementi utili della stanza da bagno, intercambiabili grazie alla possibilità di scegliere e coordinare materiali, colori e finiture.

Collections are complete with all useful items for the bathroom area, interchangeable thanks to the possibility of selecting and coordinating materials, colours and finishes.

Les collections sont complètes de tous les éléments nécessaires pour la salle de bain, interchangeables grâce à la possibilité de choisir et de coordonner les matériaux, les coloris et les finitions.

Die Kollektionen sind komplett mit allen nützlichen Utensilien fürs Badezimmer, austauschbar Dank der Wahl und Koordination der Materialien, Farben und Oberflächen.

Las colecciones están equipadas con todos los elementos del baño, intercambiables con la capacidad de elegir y coordinar materiales, colores y acabados.

**Personalizzazione su modello esistente |
Existing models canbe customised**

La produzione integrale interna dei prodotti permette la massima personalizzazione degli elementi lineari mentre per quelli caratterizzati da linee curve è possibile creare delle sagome ad hoc.

The in-house manufacturing process allows us to fully customize linear elements and create tailor-made shapes for items featuring curvy lines.

Le processus de fabrication interne des produits nous permet de personnaliser entièrement les éléments linéaires et de créer des formes sur mesure pour les articles aux formes courbes en créant des gabarits spécifiques.

Die hausinterne Produktion der Produkte erlaubt die maximale Anpassung und Personalisierung von allen linearen Produkten, während die runden Elemente mittels neu erstellten Druckformen erstellt werden können.

La producción integral interna de los productos permite la máxima personalización de elementos lineales mientras para aquellos caracterizados por líneas curvas se pueden crear moldes ad hoc.

**Modello realizzato su disegno del cliente |
Model made upon customer's drawing**

Creare composizioni, incollare elementi diversi e comporre nuove figure permette ad architetti e designer di non avere limitazioni nella configurazione degli spazi.

Creating new combinations and shapes and glueing different elements enables architects and designers to go beyond limits when configuring new spaces.

La création de nouvelles combinaisons, de formes et le collage des éléments différents permet aux architectes et designer de ne pas avoir de limitations lors de la configuration de nouveaux espaces.

Schaffen von Kombinationen, verschiedene Elemente zusammenführen und neue Figuren kreieren, erlauben dem Architekten und Designer ohne Einschränk-ungen neue Räume zu realisieren.

Crear composiciones, pegando distintos elementos y componer nuevas formas permite a los arquitectos y diseñadores de no tener limitaciones en la configuración del espacio.

Solid surface

Solid surface

Corian®

È un materiale non poroso e omogeneo, composto da ±1/3 di resina acrilica e da ±2/3 di sostanze minerali; il componente principale è il tri-idrato di alluminio (ATH), minerale derivato dalla bauxite.

A homogeneous and non-porous material, consisting of ±1/3 of acrylic resin and ±2/3 of mineral substances; the main component is Alumina trihydrate (ATH), a mineral that derives from bauxite.

Corian® est un matériel de revêtement homogène massif et non poreux, composé de ±1/3 de résine acrylique et de ±2/3 de minéraux naturels. Son composant principal est le Trihydrate de la bauxite (ATH).

Corian® ist ein massives, nicht poröses und homogenes Oberflächenmaterial aus ±1/3 Acrzlharz und ±2/3 natürlichen Mineralien. Der Hauptbestandteil ist das Mineral Aluminiumhydroxid (ATH).

Corian® es un material para superficies sólido sin poros y homogéneo, compuesto de ±1/3 de resina acrílica y ±2/3 de minerales naturales. Su principal ingrediente es el mineral trihidrato de aluminio (ATH).

Korakril™

È un materiale realizzato con una mescola di resine acriliche e minerali naturali. Korakril™ è resistente, igienico, antistatico, inalterabile alla luce, resistente alle macchie e termoformabile.

This material is obtained by mixing acrylic resin and natural minerals. Korakril™ is resistant, hygienic, antistatic, unchangeable with light, stain resistant and thermoforming.

C'est un matériel réalisé avec un mélange des résines acryliques. Korakril™ est résistant, hygiénique, antistatique, inaltérable à la lumière, résistant aux taches et thermoformable.

Ist eine Mischung von Acrylherzen und natürlichen Mineralen. Korakril™ ist fest, hygienisch, antistatisch, lichtecht, fleckbeständig und man kann es Thermoformen.

Es un material realizado por una mezcla de resinas acrílicas y minerales naturales. Korakril™ es resistente, higiénico, antiestático, inalterable a la luz, resistentes a las manchas y puede ser termoformado.

Compact Living

Design by Monica Graffeo

Mobili Furniture	●
Piatti doccia Shower trays	
Vasche Bathtubs	
Lavabi Basins	●
Rivestimenti Wall paneling	

Nato come monoblocco evoluto, Compact Living soddisfa le esigenze dei piccoli spazi creando soluzioni innovative e di design. Forme squadrate impreziosite dal taglio a 45° delle ante ed esaltate dall'introduzione di nuovi materiali come la lamiera materica.

Born as an evolved monobloc, Compact Living meets the needs of small spaces creating innovative and design solutions. Squared shapes embellished by 45% cut of the doors and enhanced by the introduction of new materials such as rough metal.

Né comme monobloc évolué, Compact Living satisfait les exigences des petits espaces en créant des solutions innovative et de design. Formes carrées enrichies par la coupe à 45 mm des portes et améliorées par l'introduction de nouveaux matériaux comme le métal.

Compact Living wurde als Monoblock geboren und erfüllt die Anforderungen kleiner Räume durch die Schaffung innovativer und gestalterischer Lösungen. Quadratische Formen, die durch den 45 ° -Schnitt der Türen und durch die Einführung neuer Materialien wie Blech verbessert werden.

Nacido como un monobloque evolucionado, Compact Living satisface las necesidades de espacios pequeños mediante la creación de soluciones innovadoras y de diseño. Formas cuadradas mejoradas por el corte de 45° de las puertas y mejoradas por la introducción de nuevos materiales como la chapa.

Argilla cotta, rosata e morbida, spalmata o declinata in listoni e piastrelle, affiancata al bianco vellutato del Corian è il nuovo materiale che Rexa Design introduce nella collezione disegnata da Monica Graffeo.

Clay pink, soft, spread or made in planks and tiles, combined with velvety white Corian, this is the new material that Rexa Design introduces with the new collection designed by Monica Graffeo.

L'argile cuite, rosée, étendue ou déclinée sous forme de carrelage, unie au blanc velouté du Corian®, est le nouveau matériau que Rexa Design présente dans sa nouvelle collection dessinée par Monica Graffeo.

Lehm: Rosa, soft als Beschichtung oder als Fliese, kombiniert mit Corian®. Lehm ist ein neuer Werkstoff den Rexa Design in seiner neuen Kollektion, entworfen von Monica Graffeo, vorstellt.

La arcilla, cocida, extendida o declinada en forma de azulejos, unidos con el blanco suave del Corian®, es el nuevo material que Rexa Design presenta en la nueva colección diseñada por Mónica Graffeo.

Un progetto ispirato alla filosofia giapponese e declinato in un insieme di elementi diversi tra loro specifici nelle loro funzione, ma allo stesso tempo armonici nel creare un paesaggio vitale, legato al mondo naturale.

Inspired by Japanese philosopy, this project combines different elements with specic functions but at the same time being harmonic when creating a vital landscape linked to the natural world.

Un projet inspiré de la philosophie japonaise et décliné dans un ensemble d'éléments différents les uns des autres spécifiques dans eurs fonctions, mais au même temps harmoniques dans la création d'un paysage vital, lié au monde naturel.

Ein Projekt, das von der japanischen Philosophie inspiriert ist und sich in einer Reihe verschiedener Elemente ablehnt, die in ihrer Funktion für einander spezifisch sind, aber gleichzeitig harmonisch eine lebenswichtige Landschaft schaffen, die mit der natürlichen Welt verbunden ist.

Un proyecto inspirado en la filosofía japonesa y rechazado en un conjunto de diferentes elementos específicos entre sí en su función, pero al mismo tiempo armonioso en la creación de un paisaje vital, vinculado al mundo natural.

Lavabi Basins	•
Rivestimenti Wall paneling	

Una collezione ispirata all'interpretazione contemporanea del pozzo che declina il lavabo in forme morbide e pure dal bacino nero e i pensili in linee cricolari per evocare gli antichi mastelli.

This collection aims at revisiting the well in a contemporary key, featuring washbasins with soft shapes as well as a black basin and wall-units with circular lines to evoke old thoughts.

Une collection inspirée par l'interprétation contemporaine du puits qui décline le lavabo en formes douces et pures avec celles du bassin noir et les meubles suspendus dans des lignes criculaires pour évoquer les anciens mâts.

Eine Kollektion, die von der zeitgenössischen Interpretation des Brunnens inspiriert ist und die Spüle in weichen und reinen Formen mit einem schwarzen Becken und den Wandeinheiten in Krikellinien ablehnt, um an die alten Wannen zu erinnern.

Una colección inspirada en la interpretación contemporánea del pozo que rechaza el fregadero en formas suaves y puras con un lavabo negro y las unidades de pared en líneas criculares para evocar las antiguas bañeras.

Sistema Airpool

Il sistema airpool si basa sull'erogazione di bollicine d'aria all'interno della vasca per un massaggio rigenerante volto al rinnovamento, alla compattezza e alla tonicità dei tessuti. L'aria viene soffiata nella vasca tramite dei microfori posti sul fondo, secondo uno schema studiato e specifico, dedito all'erogazione precisa dell'aria per un massaggio rinvigorente.

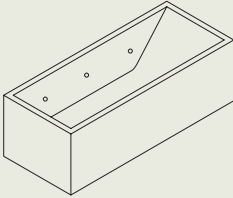

The airpool system is based on the distribution of air bubbles inside the bathtub for a regenerating massage aimed at the regeneration and toning up of tissue. The air is blown into the bathtub through micro holes placed on the bottom, according to a rehearsed and specific method, intended to the precise distribution of air for a reinvigorating massage.

Sistema idromassaggio

Il sistema idromassaggio si basa sull'erogazione di acqua calda mescolata ad aria per un massaggio energico, il quale consente di combattere la cellulite, migliorare la circolazione e l'ossigenazione dei tessuti. Per ottenere risultati ottimali si consiglia di mantenere la temperatura dell'acqua compresa tra 33° e 37°C (33°C – massaggio energizzante; 37°C – massaggio rilassante).Durante l'utilizzo del sistema idromassaggio è sconsigliato l'utilizzo di bagnoschiuma e sali minerali poiché potrebbero danneggiare l'impianto.

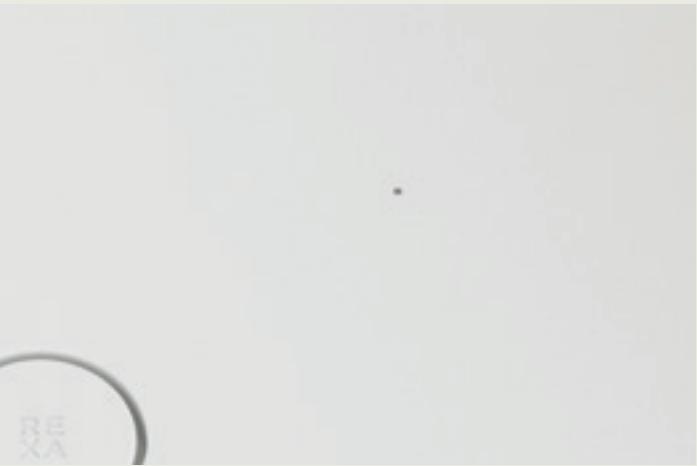

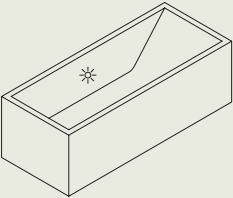

The whirlpool system is based on the distribution of hot water mixed up with air for a vigorous massage, which helps reducing cellulite, improve flow of blood and oxygenation of tissues. Thanks to a pump, that compose the mechanism of the whirlpool system, the water contained in the bathtub is loaded in the circuit, heated, mixed up with air and reintroduced through the nozzle. For an optimal result, it is suggested to maintain the water temperature between 33° and 37°C (33°C – energizing massage, 37°C–relaxing massage). While using the whirlpool, use of shower gel and minerals is avoided, they can damage the system.

Cromoterapia

Il sistema funziona grazie all'inserimento di un impianto d'illuminazione a tre colori all'interno della vasca (impianto sicuro e isolato) che permette di “colorare” l'acqua secondo tre cicli cromatici studiati appositamente per ottenere il massimo beneficio psico-fisico: Tonic, Relax e Energy.

The system is composed of a three colors lighting system installed inside the bathtub (isolated and non-dangerous) that “paint” the water according to three chromatic loops, specifically set up to gain the maximum psychophysical benefit: Tonic, Relax and Energy.
