*con trattamento Acid Shield.
Acid Shield è il rivoluzionario trattamento protettivo per marmi e pietre contro agenti acidi, coloranti e grassi. Forma un vero e propio scudo invisibile satinato al tatto e, senza alterare le qualità cromatiche naturali dei materiali, protegge da macchie, aloni, rigature e perdite di tonalità e brillantezza. Il trattamento è frutto della ricerca del nostro partner ed è applicato dall'azienda presso i propri laboratori non solo su lastre e altri oggetti piani, ma anche su manufatti tridimensionali, torniti o scavati. Acid Shield é certificato dal Laboratorio del marmo di Verona in base alla norma UNI EN 12720 (Valutazione della resistenza delle superfici ai liquidi freddi, prodotti di pulizia e agenti macchianti) e consente di superare tutte le problematiche di manutenzione e pulizia dei materiali lapidei naturali.

*with Acid Shield protecion.
Acid Shield is a revolutionary treatment for marbles and stones conceived against acids, colorants and grease. It creates an invisible satin-like shield without altering its natural chromatic aspect and protects it from stains, etches and loss of brillance and colors. This treatment has been developed internally by our partner and is applied by the firm on marble slabs and surfaces, but also on 3D-shaped or carved objects. Acid Shield is certified by the Marmo di Verona Laboratory in compliance with UNI EN 12720 regulation (Assessment of surface resistance to cold liquids).

SLOPE

Design by Monica Graffeo

Lavabo integrato Slope tondo o rettangolare, con vassoio inclinato removibile.
Il top, disponibile a metro lineare, può accogliere il lavabo di forma tonda o rettangolare, può essere sospeso oppure abbinarsi perfettamente alle collezioni Moode, R1 e Esperanto.

Slope integrated round or squared basin, with removable tray.
The top, which is available at linear meter, can fit the round or squared basin, it can be suspended or it can be laid on the units to match Moode, R1 and Esperanto collections.
