Intrisa di energia e del senso della “cura”, la vasca rappresenta da sempre uno degli elementi chiave della stanza da bagno. Un elemento non soltanto protagonista, ma anche funzionale al raggiungimento dell’obiettivo primario dello spazio bagno per Rexa Design: essere uno spazio sensoriale, da percepire, sentire, vivere.

La nostra conoscenza ed esperienza sul mondo delle vasche non poteva che confluire finalmente tra le pagine di questo strumento, disegnato e creato per raccogliere tutte le competenze acquisite su questo oggetto iconico nel corso del tempo, grazie allo studio dei materiali, delle forme e dei colori, all’evolversi del gusto e delle ispirazioni.

Ecco a voi l’intera collezione vasche feestanding di Rexa Design.

Infused with energy and a sense of "care", the bathtub has always been one of the key elements of the bathroom. An element not only protagonist, but also functional to achieve the primary goal of the bathroom space for Rexa Design: being a sensory space, to perceive, feel, live. Our knowledge and experience on the world of bathtubs could only finally flow into the pages of this tool, designed and created to collect all the skills acquired on this iconic object over time, thanks to the study of materials, shapes and colors, evolving taste and inspirations. Here is the entire Rexa Design feestanding bathtub collection.

Imprégnée d'énergie et d'un sens du «soin», la baignoire a toujours été l'un des éléments clés de la salle de bain. Un élément qui n'est pas seulement le protagoniste, mais aussi fonctionnel pour atteindre l'objectif principal de l'espace de salle de bain pour Rexa Design: être un espace sensoriel, pour percevoir, ressentir, vivre. Nos connaissances et notre expérience sur le monde des baignoires n'ont pu que finalement couler dans les pages de cet outil, conçu et créé pour rassembler toutes les compétences acquises sur cet objet iconique au fil du temps, grâce à l'étude des matières, des formes et des couleurs. Évolution du goût et des inspirations. Voici toute la collection de baignoires en îlot Rexa Design.

Durchdrungen von Energie und einem Gefühl von "Fürsorge", ist die Badewanne seit jeher eines der Schlüsselemente des Badezimmers. Ein Element, das nicht nur ein Protagonist ist, sondern auch funktional, um das Hauptziel des Badezimmers für Rexa Design zu erreichen: ein sensorischer Raum zu sein, wahrgenommen, gefühlt, gelebt zu werden. Unser Wissen und unsere Erfahrung in der Welt der Badewannen konnten erst endlich in die Seiten dieses Tools einfließen, das entwickelt und erstellt wurde, um alle Fähigkeiten zu sammeln, die im Laufe der Zeit auf diesem ikonischen Objekt erworben wurden, dank des Studiums von Materialien, Formen und Farben Entwicklung des Geschmacks und der Inspirationen. Hier finden Sie die gesamte Kollektion freistehender Badewannen von Rexa Design.

Infundida de energía y sentido de "cuidado", la bañera siempre ha sido uno de los elementos clave del baño. Un elemento que no solo es protagonista, sino también funcional para lograr el

objetivo primordial del espacio de baño para Rexa Design: siendo un espacio sensorial, percibir, sentir, vivir. Nuestro conocimiento y experiencia en el mundo de las bañeras solo pudo finalmente fluir a las páginas de este catálogo, diseñado y creado para recopilar todas las habilidades adquiridas en este objeto icónico a lo largo del tiempo, gracias al estudio de materiales, formas y colores, a la evolución de gustos e inspiraciones. Aquí está toda la colección de bañeras independientes de Rexa Design.

DIP

design by Monica Graffeo

L'immersione in acqua come rituale per rilassare e purificare il corpo e l'anima. Dall'ideale dell'Ofuro, il tradizionale bagno giapponese, nasce Dip, la cui forma compatta e profonda è stata concepita per dedicarsi un'esperienza rigenerante, seduti, avvolti completamente dall'energia dell'acqua calda.

Dive into water as a ritual to relax and purify the body and soul. Dip was born from the ideal of the Ofuro, the traditional Japanese bath. Its compact and deep shape was designed to enjoy a regenerating experience, seated, completely surrounded by the energy of hot water.

L'immersion dans l'eau comme rituel pour détendre et purifier le corps et l'âme. De l'idéal de l'Ofuro, le traditionnel bain japonais, naît Dip, dont la forme compacte et profonde a été conçue pour se dédier une expérience régénérante, assis, complètement enveloppés par l'énergie de l'eau chaude.

Eintauchen in Wasser als Ritual zur Entspannung und Entschlackung von Körper und Seele. Aus dem Ideal des Ofuro, des traditionellen japanischen Bades, wurde Dip geboren, dessen kompakte und tiefe Form ein regenerierendes Erlebnis im Sitzen, vollständig umhüllt von der Energie des heißen Wassers, bietet.

Inmersión en agua como rituales para relajar y purificar el cuerpo y el alma. Del ideal de Ofuro, el tradicional baño japonés, nació Dip, cuya forma compacta y profunda fue concebida para dedicar una experiencia regeneradora, asientos, completamente envueltos por la energía del agua caliente.

Il sistema airpool si basa sull'apporto di bolle d'aria all'interno della vasca per un massaggio rigenerante che aiuta a stimolare il rinnovamento cellulare e a tonificare la pelle. L'aria viene immessa nella vasca dai microfori posti sul fondo, secondo un metodo specifico dedicato ad una precisa distribuzione dell'aria per un massaggio rigenerante. Questo sistema prende ispirazione dalle terme dove, in modo naturale, il vapore si espande dal basso. Grazie al sistema ad aria, i tubi microforati si asciugano automaticamente a fine utilizzo.

The airpool system is based on the supply of air bubbles inside the tub for a regenerating massage that helps to stimulate cell renewal and to tone the skin. Air is blown into the tub by the micro-holes placed on the bottom, according to a specific method dedicated to a precise distribution of air for a reinvigorating massage. This system takes inspiration from the thermal baths where, in a natural way, the steam expands from the bottom. Thanks to the air system, the micro-hole pipes are dry out automatically at the end of use.

Le système d'Airpool est basé sur l'apport de bulles d'air à l'intérieur de la baignoire pour un massage régénérant qui aide à stimuler le renouvellement cellulaire et à tonifier la peau. L'air est soufflé dans la baignoire par les micro-trous placés sur le fond, selon une méthode spécifique dédiée à une distribution précise de l'air pour un massage revigorant. Ce système s'inspire des thermes où, d'une façon naturelle, la vapeur s'étend à partir du fond. Grâce au système d'air, les tuyaux à micro-trous s'assèchent automatiquement à la fin de l'utilisation.

Das Airpool-System basiert auf der Zufuhr von Luftblasen in die Wanne für eine regenerierende Massage das hilft, die Zellerneuerung zu stimulieren und die Haut zu straffen. Durch die am Boden angebrachten Mikrolöcher wird die Luft nach einer bestimmten Methode in die Wanne geblasen einer präzisen Luftverteilung für eine belebende Massage gewidmet. Dieses System ist inspiriert von den Thermalbädern, in denen sich der Dampf auf natürliche Weise von unten ausdehnt.

Dank des Luftsystems trocknen die Mikrolochrohre am Ende der Nutzung automatisch aus.

El sistema Airpool se basa en el suministro de burbujas de aire dentro de la bañera para un masaje regenerador que ayuda a estimular la renovación celular y a tonificar la piel. El aire se introduce en la bañera mediante los microagujeros situados en el fondo, según un método específico dedicado a una distribución precisa del aire para un masaje revitalizante. Este sistema se inspira en los baños termales donde, de forma natural, el vapor se expande desde el fondo. Gracias al sistema de aire, las tuberías con microagujeros se secan automáticamente al final de su uso.

Il colore delle forme

The color of shapes | La couleur des formes | Die Farbe der Formen | El color de las formas

“I colori parlano tutte le lingue”
— Joseph Addison
Il colore da forma e definisce la nostra personale percezione degli spazi. Le tendenze cromatiche hanno attraversato i tempi, evolvendo a seconda del gusto e degli eventi che hanno caratterizzato ogni momento storico. Rexa Design reinterpreta i trend del colore nella stanza da bagno, e crea innovativi abbinamenti cromatici grazie alle nuove nuances delle vasche.

“Colors speak all languages”
— Joseph Addison
Color shapes and defines our personal perception of spaces.

Vasche

The chromatic trends have crossed the times, evolving according to the taste and the events that have characterized every historical moment. Rexa Design reinterprets color trends in the bathroom, and creates innovative color combinations thanks to the new shades of the bathtubs.

«Les couleurs parlent toutes les langues» — Joseph Addison
La couleur façonne et définit notre perception personnelle des espaces. Les tendances chromatiques ont traversé les époques, évoluant au gré du goût et des événements qui ont caractérisé chaque moment

Il colore delle forme

historique. Rexa Design réinterprète les tendances des couleurs dans la salle de bain et crée des combinaisons de couleurs innovantes grâce aux nouvelles teintes des baignoires.

“Farben sprechen alle Sprachen”
— Joseph Addison
Farbe formt und definiert unsere persönliche Wahrnehmung von Räumen. Die chromatischen Trends haben die Zeit überschritten und sich je nach Geschmack und Ereignissen entwickelt, die jeden historischen Moment geprägt haben. Rexa Design interpretiert Farbtrends im

Shark è il risultato dell'unione tra un minerale naturale e una resina poliestere, il tutto rivestito da un ulteriore film superficiale di resina che conferisce al materiale un'ottima resistenza all'acqua e ai batteri. Shark è disponibile in quattro differenti colorazioni oltre al bianco.

Shark is the result of the union between a natural mineral and a polyester resin, all recovered with an additional resin surface film that gives the material excellent resistance to water and bacteria. Shark is also available in four different color in addition to white.

Shark est le résultat de l'union entre un minéral naturel et une résine polyester, le tout ensuite recouvert d'un film de résine supplémentaire que confère au matériau une excellente résistance à l'eau et aux bactéries. Shark est également disponible en quatre teintes différentes en plus du blanc

Shark ist eine Mischung von einem natürlichen Mineral und einem Polyesterharz. Die Oberfläche ist mit einem Acrylharzfilm beschichtet, der die Oberfläche wasser - und bakterienbeständig macht. Shark ist nebst Weiß, noch in 4 Farben erhältlich.

Shark es el resultado de la unión entre un mineral natural y una resina de poliéster, todo cubierto con una película de resina de superficie adicional que da al material una excelente resistencia al agua y a las bacterias. Shark está disponible en cuatro colores diferentes además del blanco.

Shark opaco | Matt Shark

Pulizia
Per una facile manutenzione e un duraturo utilizzo di un lavabo o di un piano, pulire la superficie con acqua tiepida e detergente delicato usando un panno morbido e umido. Risciacquare e asciugare sempre con un panno morbido. Per questo materiale sia nella versione bianca che in quella colorata è meglio utilizzare come detergente uno sgrassatore universale o candeggina, mentre evitare i saponi in polvere. Per macchie difficili come fondotinta, tinte per capelli o smalti per unghie, si consiglia di pulire immediatamente per evitare di far asciugare il prodotto e ridurre le possibilità di smacchiamento. Si sconsiglia l'utilizzo di spugna abrasive. Nel caso di graffi o danneggiamenti superficiali, il materiale non sarà ripristinabile.

Cleaning
For easy maintenance and long-term use of a sink or top, clean the surface with warm water and mild detergent, using a wet soft cloth or sponge. Always rinse and dry with a soft cloth. For this material, both in the white and colored versions, it is better to use a universal degreaser or bleach as a detergent, while avoiding soap soaps. For difficult stains such as make-up, hair dyes or nail polishes, we recommend cleaning immediately to avoid drying the product and reducing the possibility of stain removal. The use of abrasive sponges is not recommended. In the case of scratches or surface damage, the material cannot be restored.

Nettoyage
Pour un entretien facile et une utilisation durable d'un lavabo ou d'un plan de travail, nettoyez la surface avec de l'eau tiède et un détergent doux à l'aide d'un chiffon doux et humide. Rincez et séchez toujours avec un chiffon doux. Pour ce matériau, à la fois dans les versions blanches et colorées, il est préférable d'utiliser un dégraissant universel ou un javellisant comme détergent, tout en évitant les savons au savon. Pour les taches difficiles telles que le fond de teint, les teintures capillaires ou les vernis à ongles, nous recommandons de nettoyer immédiatement pour éviter de sécher le produit et de réduire la possibilité d'élimination des taches. L'utilisation d'éponges abrasives n'est pas recommandée. En cas de rayures ou d'endommagement de la surface, le matériau ne peut pas être restauré.

Reinigung
Für eine einfache Wartung und langfristige Nutzung eines Waschbeckens oder einem Top, reinigen Sie die Oberfläche mit warmem Wasser und einem milden Reinigungsmittel mit einem weichen nassem Tuch oder Schwamm. Spülen Sie die Oberfläche und dann mit einem weichen Tuch trocknen. Für die glänzende Shark wird es empfohlen, die Verwendung von Reinigungsmitteln und Scheuerschwämme zu vermeiden.— Im Falle Flecken, die von Wasser reich an Kalkstein, Seifen oder

Mineralprodukte verursacht werden, reinigen mit einer Entkalkungsmittel (zB: Essig, Cif Entkalker).Beenden der Reinigung mit warmem Wasser und trocknen mit einem weichen Tuch.— Im Fall von anderen Arten von Flecken (Filzstift, Lippenstift, Fett, Speisereste, etc.) mit ammoniakhaltigen Reinigungsmittel reinigen (zB: Cif).Beenden der Reinigung mit warmem Wasser und trocken mit einem weichen Tuch.

Limpieza
Para facilitar el mantenimiento y el uso duradero de un lavabo o encimera, limpie la superficie con agua tibia y detergente delicado con un paño suave y húmedo. Siempre enjuague y seque con un paño suave. Para este material, tanto en la versión blanca como en la de color, es mejor usar un desengrasante universal o lejía como detergente, evitando jabones jabonosos. Para manchas difíciles como maquillajes, tintes para el cabello o esmaltes de uñas, recomendamos limpiar de inmediato para evitar secar el producto y reducir la posibilidad de eliminar manchas. No se recomienda el uso de esponjas abrasivas. Se recomienda el uso de esponjas abrasivas. En caso de arañazos o daños en la superficie, el material no se puede restaurar.

Korakril™ Blend

Parte della famiglia dei Solid Surface, Korakril™ Blend è un materiale realizzato dalla combinazione tra minerali naturali e resine di altissima qualità. Korakril™ Blend nasce sottoforma di resina liquida che viene iniettata in stampi per creare il prodotto finale. Grazie a questi processi di lavorazione, Korakril™ Blend risulta un materiale compatto e omogeneo sull'intera superficie che, non presentando nessuna porosità, lo rende igienico, ignifugo e antibatterico.

As a solid surface, Korakril™ Blend is a material made from the combination of natural minerals and very high quality resins. Korakril™ Blend is basically in the form of liquid resin which is injected into molds to create the final product. Thanks to these manufacturing processes, Korakril™ Blend is a compact and homogeneous material on the entire surface which, without presenting any porosity, makes it hygienic, flame retardant and antibacterial.

Faisant partie de la famille Solid Surface, le Korakril™ Blend est un matériau fabriqué à partir de la combinaison de minéraux naturels et de résines de très haute qualité. Korakril™ Blend est né sous forme de résine liquide qui est injectée dans des moules pour créer le produit final. Grâce à ces procédés de fabrication, Korakril™ Blend est un matériau compact et homogène sur toute la surface qui, sans présenter de la porosité, le rend hygiénique, ignifuge et antibactérien.

Verbundwerkstoff mit 2/3 Aluminiumhydrate, gemischt mit Polyesterharzen, modifiziert mit Acrylmonomeren mit hohen chemischen und mechanischen Leistungen gemacht, um die Homogenität und die Gleichförmigkeit durch die Dicke

Impiegato per la realizzazione di vasche stampate e lavabi | Used for the realization of injected basins and bathtubs | Utilisé pour la réalisation de vasque injectées et baignoires | Verwendet für die Realisierung von gegossenen Waschbecken | Se utiliza para la realización de los lavabos inyectados y baneras

Impiegato per la realizzazione di top, lavabi, e vasche | Used for the production of tops, washbasins and bathtubs | Employé pour plans, vasques et baignoires | Wird für die Herstellung von Platten, Waschbecken und Badewannen verwendet | Empleado para la realización de encimeras, lavabos y bañeras.

Materiale realizzato con una miscela di resine acriliche e minerali naturali, il Korakril™ è resistente, igienico, antistatico, inalterabile alla luce, resistente alle macchie e termoformabile: le lastre scaldate possono essere modellate con stampi di legno o metallo, creando forme bi e tridimensionali. La sua particolare composizione permette di realizzare top in totale assenza di giunzioni percettibili con il vantaggio di una continuità estetica all'interno delle composizioni. L'uniformità del materiale impedisce che si possano verificare punti critici per lo sporco o il deposito di batteri e muffe. Questo materiale viene realizzato sia in versione bianca opaca sia in quella colorata disponibile in cinque differenti tonalità. La presenza discreta di granuli visibili dei vari minerali di diverse dimensioni e cromie, conferisce un aspetto materico alla superficie mantenendo la sua omogeneità nell'intera superficie.

Material realised with a mixture of acrylic resins and natural minerals. Korakril™ is resistant, hygienic, anti-static, inalterable to light, stain resistant and can be thermoformed: the heated slabs can be moulded with wooden or metal moulds, creating two and three-dimensional shapes. The particular composition of Korakril™ enables the manufacture of tops without visible joints that make the composition continuative. With its uniformity, you will not find critical point for the deposit of dust and neither for bacteria. This material is made both in a matt white version and in a colored one available in five different shades. The discreet presence of different sizes and colours of various minerals visible grains, gives the surface a texture effect while maintaining its homogeneity throughout the entire surface.

C'est un matériel réalisé avec un mélange des résines acryliques. Korakril™ est résistant, hygiénique, antistatique, inaltérable à la lumière, résistant aux taches et thermoformable: les dalles chauffées peuvent être modélisées avec des moules en bois ou en métal, en créant des formes bidimensionnelles et tridimensionnelles. Sa particulière composition permet de réaliser des plans tops sans joints visibles avec l'avantage d'avoir une continuité esthétique à l'intérieur des compositions. L'uniformité de ce matériel empêche la formation des points critiques pour la poussière ou l'accumulation des bactéries. Ce matériau est fabriqué soit en version blanc mat soit en couleur disponible en cinq teintes différentes. La présence discrète de grains visibles de divers minéraux de différentes tailles et couleurs donne à la surface un aspect matériel tout en conservant son homogénéité sur toute la surface.

Ist eine Mischung von Acrylherzen und natürlichen Mineralen. Korakril™ ist fest, hygienisch, antistatisch, lichtecht, fleckbeständig und man kann es Thermoformen: die beheizten Platten können mit Holzoder Metallformen modelliert werden, um bi oder dreidimensionale Formen zu schaffen. Mit dieser speziellen Zusammensetzung, kann man mit Korakril™ Platten ohne Verbindungen realisieren, die den Kompositionen eine schöne ästhetische Kontinuität bieten. Die Gleichmäßigkeit des Material gibt die Möglichkeit eine andauernde saubere Oberfläche ohne kritische Punkte für Schmutz zu haben. Inert und ungiftig, es kann an öffentlichen Plätzen verwendet werden, da es keinerlei Gas ausströmt. Die Herstellung von Korakril™ entsteht mit Systemen, die den Abfall minimieren, der jedoch auch in den

Produktionsprozess zurückgeführt wird, ein optimiertes Verfahren, das auf die maximale Energieeinsparung führt. Es un material realizado por una mezcla de resinas acrílicas y minerales naturales. Korakril™ es resistente, higiénico, antiestático, inalterable a la luz, resistentes a las manchas y puede ser thermoformado: las losas calentadas pueden ser modeladas con moldes de madera o de metal, creando formas bidimensionales y tridimensionales. La composición particular de Korakril™ permite realizar encimeras en total ausencia de uniones perceptibles donando continuidad estética a las composiciones. La uniformidad del material no permite el deposito de mugre y bacterias. Este material está hecho tanto en una versión blanca mate como en una de color disponible en cinco tonos diferentes. La presencia discreta de granos visibles de varios minerales de diferentes tamaños y colores le da a la superficie una apariencia matérica mientras mantiene su homogeneidad en toda la superficie

Impiegato per la realizzazione di top, lavabi, piatti doccia, vasche, rivestimenti e accessori | Used for the realisation of tops, washbasins, shower trays, bathtubs, wall panelling and accessories | Employé pour plans, vasques, receveurs de douche, baignoire, revêtement mural et accessoires | Es wurde für die Herstellung von Platten, Waschbecken, Duschtassen und Badewannen entwickelt | Es empleado para la realización de encimeras, lavabos, platos de ducha, bañeras, revestimiento de paredes y accesorios

Corian® è un materiale non poroso, omogeneo e inalterabile alla luce, composto da ±1/3 di resina acrilica (polimetilmetacrilato o PMMA) e da ±2/3 di sostanze minerali. Il componente principale è il tri-idrato di alluminio (ATH), minerale derivato dalla bauxite, da cui si ricava l'alluminio. Dal 1967, anno della sua produzione, a oggi il Corian® ha dimostrato di essere un materiale resistente, versatile e igienico. Non essendo poroso, muffe e batteri non trovano appigli e non possono diffondersi nelle giunture o sotto la superficie. Inerte e non tossico, in condizioni normali di temperatura non emette gas. Quando viene bruciato rilascia ossidi di carbonio, il fumo è leggero e non contiene gas alogeni tossici. Per ulteriori informazioni consultare il sito internet: www.dupont.it

Corian® is a solid, non-porous, homogeneous surfacing material, composed of ±1/3 acrylic resin (also known as Polymethyl Methacrylate or PMMA), and ±2/3 of natural minerals. These minerals are composed of Aluminium Trihydrate (ATH) derived from bauxite, an ore from which aluminium is extracted. Since its birth in 1967 Corian® has proved to be really resistant, versatile and hygienic. Being a non-porous material, mold and bacteria cannot root nor spread themselves in the joints or under the surface. Corian® is non-toxic and inert. In normal temperature conditions is not emitting gas. If burnt releases mostly carbon monoxide and the light smoke does not have any halogen toxic gas. For further information on its composition, consult the website: www.corian.uk

Corian® est un matériel de revêtement homogène massif et non poreux, composé de ±1/3 de résine acrylique (également connue sous le nom de Polyméthyle

Méthacrylate ou PMMA), et de ±2/3 de minéraux naturels. Son composant principal est le Trihydrate de la bauxite (ATH), un minéral dérivé de la bauxite, le minéral dont on extrait l'aluminium. Depuis sa naissance en 1967, Corian® a démontré d'être vraiment résistant, versatile et hygiénique. Etant aussi un matériel homogène et non-poreux, moisissures et bactéries ne se déposent pas ni dans les joint et ni en dessous de la surface. Corian® est inerte et nontoxique. En condition de température normale, il génère aucune émission de gaz. En cas de combustion, il émet surtout des oxydes de carbone et le fumée est léger et contient pas des gaz halogènes toxiques. Pour plus d'information, consultez le site: www.dupontdenemours.fr

Corian® ist ein massives, nicht poröses und homogenes Oberflächenmaterial aus ±1/3 Acrzlharz (auch als Polymethylmetacrylat oder PMMA bekannt) und ±2/3 natürlichen Mineralien. Der Hauptbestandteil ist das Mineral Aluminiumhydroxid (ATH), das aus Bauxit (Aluminiumerz) gewonnen wird. Seit der Markteinführung im Jahr 1967 hat sich Corian® als langlebiges und nutzerfreundliches Material bewährt. Das porenlose, massive Corian® kann optisch fugenlos verarbeitet werden und verfügt deshalb über eine besonderes hygienische Oberfläche. Diese verhindert das Wachstum von Bakterien oder Schimmelpilzen. Corian® ist ein inaktives, nicht toxisches Material. Bei Normaltemperatur kommt es zu keiner Gasentwicklung. Wird es verbrannt, setzt der Werkstoff hauptsächlich Kohlendioxid frei. Der Rauch ist optisch hell und enthält keine toxischen halogenierten Gase. Informationen zur

Materialzusammensetzung entnehmen Sie bitte dem Corian® auf: www.dupont.de

Corian® es un material no poroso, homogéneo e inalterable a la luz, compuesto de ±1/3 de resina acrílica (también conocida como Polimetilmetacrilato o PMMA) y ±2/3 de minerales naturales. Su principal ingrediente es el mineral trihidrato de aluminio (ATH), un derivado de la bauxita que sirve de base para la producción de aluminio. Desde su introducción en 1967, Corian® ha demostrado ser un material resistente, versátil e higiénico. Como no es poroso, el moho y las bacterias no encuentran bodegas y no pueden propagarse en las articulaciones o debajo de la superficie. Corian® es un material inerte y no tóxico. Bajo condiciones normales de temperatura, no emite gases. Cuando se quema, principalmente desprende gas carbónico, el humo que genera es liviano y no contiene gases halogenados tóxicos. Para tener más información sobre la composición del material, consulte Corian® la página: www.dupont.es

Pulizia Corian® e Korakril (Blend e Stone)	
Uso e manutenzione Corian® e Korakril (Blend e Stone)	macchia con candeggina diluita con acqua, sciacquare più volte con acqua calda e asciugare con un panno morbido.
Manutenzione giornaliera A – B – C	
Acqua ricca di calcare, sapone, minerali A – B – F – H	F. Usare una spugna e strofinare sulla macchia con un prodotto di pulizia anticalcare (tipo Viakal®) o aceto. Sciacquare più volte con acqua calda ed asciugare con un panno morbido.
Graffio signicativo, bruciatura di sigaretta, inchiostro, segni di penna A – B – C – E – H	
Mercurocromo, sangue, profumo A – B – C – D – E – H	G. Usare una spugna e strofinare sulla macchia con un prodotto privo di acetone. Sciacquare più volte con acqua calda ed asciugare con un panno morbido.
Smalto per unghie A – B – C – G – H	
Ferro o ruggine A – B – C – G – H	H. Se le macchie persistono, contattare Rexa Design (tel: 0434 593182).
Iodio A – B – C – E – H	Molti danni dovuti a urti, calore o prodotti chimici possono essere riparati solitamente sul luogo ridando integralmente alla supercie il suo aspetto originale, regolare, igienico.
Corian® colorato A – B – G	
Agire sempre con movimenti circolari. Se non viene rimossa completamente risciacquando con acqua, la candeggina può scolorire il Corian®.	
Metodi di pulizia	
A. Rimuovere il residuo con un panno.	
B. Sciacquare la superficie con acqua calda e asciugare con un panno morbido.	
C. Usare un panno umido e una crema abrasiva leggera (es. Cif).	
D. Usare una spugna, strofinare sulla macchia con un prodotto detergente a base di ammoniaca.	
E. Usare una spugna, strofinare sulla	

Cleaning methods for Corian®, Korakril (Blend and Stone)

Corian® and Korakril (Blend and Stone) use and maintainance	F. Use a microfiber cloth and rub over the stain with a standard household lime-scale remover (Viakal®, Lime-lite) or vinegar . Rinse several times with warm water and dry with a soft cloth.
For everyday cleaning A – B – C	
Water rich of limestone, soaps, minerals A – B – F – H	G. Use a microfiber cloth and rub over the stain with a non-acetone based Nail varnish remover. Rinse several times with warm water and dry with a soft cloth.
Light scratch, cigarette burns, ink, marker pen A – B – C – E – H	
Mercurochrome, blood, perfume A – B – C – D – E – H	H. If the stains persist, contact Rexa Design (tel: +39 0434 593182).
Nail varnish spills A – B – C – G – H	Most damages, including sever impact, heat or chemical damage, can usually be repaired on site to restore the original, smooth, hygienic solid surface integrity.
Iron or rust A – B – C – G – H	
Iodine A – B – C – E – H	
Colored Corian® A – B – G	
Always clean using circular motion. Bleach can discolour Corian® if not removed completely by rinsing with water afterwards.	

Cleaning methods

- A. Remove excess with a soft cloth.
- B. Rinse surface with warm water and dry with a soft cloth.
- C. Use a damp microfiber cloth and a light abrasive cream.
- D. Use a microfiber cloth and wipe the stain with an ammonia detergent
- E. Use a microfiber cloth and rub over the stain with some diluted bleach. Rinse several times with warm water and dry with a soft cloth.

Corian®, Korakril (Blend et Stone) Methodes de nettoyage

Corian® et Korakril (Blend et Stone) utilisation et maintenance	E. Utilisez une éponge à récurer et frottez la tâche avec un peu d'eau de javel dilué. Rincez plusieurs fois à l'eau chaude, puis séchez avec un chiffon doux.
Nettoyage quotidien A – B – C	
Dépôt calcaire, savons, minéraux A – B – F – H	F. Utilisez une éponge à récurer et frotter la tâche avec un produit anti-calcaire (type Viakal®) ou de vinaigre. Rincez plusieurs fois à l'eau chaude, puis séchez avec un chiffon doux.
Égratignure importante, brûlure de cigarette, encre, marques de stylo A – B – C – E – H	G. Utilisez une éponge à récurer et frottez la tâche avec un dissolvant à ongles sans acétone. Rincez plusieurs fois à l'eau chaude, puis séchez avec un chiffon doux.
Mercurochrome, sang, parfum A – B – C – D – E – H	H. Si la tache persiste, contactez Rexa Design (tel: +39 0434 593182).
Vernis à angle A – B – C – G – H	
Fer ou rouille A – B – C – G – H	La plupart des dégâts, y compris les dommages importants dus à un choc, à la chaleur ou à des produits chimiques, sont habituellement réparables sur place pour redonner aux
Iode A – B – C – E – H	
Corian® coloré A – B – G	
Nettoyez toujours en effectuant un mouvement circulaire. L'eau de javel risque de décolorer le Corian® si elle n'est pas ensuite rincée complètement à l'eau.	

Methodes de nettoyage

- A. Épongez avec un chiffon doux.
- B. Rincez à l'eau chaude et séchez avec un chiffon doux.
- C. Utilisez un chiffon humide et un détergent doux en crème (type Cif).
- D. Utilisez une éponge et frottez la tâche avec un détergent ou un nettoyant pour surface dure à l'ammoniaque dilué (type Ajax ou Monsieur Propre).

Corian®, Korakril (Blend y Stone) metodos de limpieza:

Corian® y Korakril (Blend y Stone) uso y mantenimiento	Aclare varias veces con agua caliente y seque con un trapo suave.
Para la limpieza cotidiana A – B – C	
Cal de agua dura, jabon, minerales A – B – F – H	F. Con un estropajo que esté gastado frote la mancha con un producto doméstico para eliminar los residuos de cal (Viakal®) o vinagre. Aclare varias veces con agua caliente y seque con un trapo suave.
Rasguños significativos, quemaduras de cigarrillos, tinta, marcas de lápiz A – B – C – E – H	G. Con un estropajo que esté gastado frote la mancha con un detergente sin acetona. Aclare varias veces con agua caliente y seque con un trapo suave.
Sangre, vino, perfume A – B – C – D – E – H	
Manchas de esmalte de uñas A – B – C – G – H	H. Si la mancha persiste, contacte Rexa Design (tel: +39 0434 593182).
Hierro u oxidacion A – B – C – G – H	La mayoría de los daños, incluso los causados por un golpe, el calor y productos quimicos, se pueden reparar en el sitio de instalación.
Yodo A – B – C – E – H	
Corian® de colores A – B – G	
Siempre limpie con movimientos circulares. La Lejía puede dejar manchas blancas en la superficie de Corian® si no se aclare con agua abundante.	

Metodos de limpieza

- A. Elimine manchas con un trapo suave.
- B. Aclare la superficie con agua caliente y segue con un trapo suave.
- C. aplique una crema ligeramente abrasiva (como Cif) con un paño mojado.
- D. Con un estropajo que esté gastado frote la mancha con un producto para limpiar superficies sólidas a base de amoniaco.
- E. Con un estropajo que esté gastado frote la mancha con un poco de lejía diluida.

Corian®, Korakril (Blend und Stone) Reinigungsmethode

Corian® et Korakril (Stone) gebrauch und wartung	Ammoniakbasis (z.B. Ajax, Meister Proper, General) über den Fleck reiben.
Tägliche Reinigung A – B – C	
Kalk-, Seifen- Mineralablagerungen A – B – F – I	E. Mit einem abrasiver Scheuerschwamm (z.B. Scotch Brite®) und Haushaltsbleiche. Oberfläche mehrmals mit warmem Wasser abspülen und mit einem weichen Tuch trockenwischen.
Lilienpollen, Safran, leichte Kratzer, Zigarettenbrandfleck Tinte, Filzstift A – B – C – E – I	F. Mit einem abrasiver Scheuerschwamm (z.B. Scotch Brite®) und einem standard-mäßigen Haushaltsmittel zur Entfernung von Kalkablagerungen (Sidl) oder Essig über den Fleck reiben. Oberfläche mehrmals mit warmem Wasser abspülen und mit einem weichen Tuch trockenwischen.
Mercurochrom, Blut, Rotwein, Parfum A – B – C – D – E – I	G. Mit einem abrasiver Scheuerschwamm (z.B. Scotch Brite®) und einem acetonfreien Nagellackentferner über den Fleck reiben. Oberfläche mehrmals mit warmem Wasser abspülen und mit einem weichen Tuch trockenwischen.
Nagellack A – B – C – G – I	
Eisen oder Rost A – B – C – H – I	H. Mit einem abrasiver Scheuerschwamm (z.B. Scotch Brite®) und einem Metallreiniger oder Rostentferner über den Fleck reiben. Oberfläche mehrmals mit warmem Wasser abspülen und mit einem weichen Tuch trockenwischen.
Jod A – B – C – E – I	
*Reinigen Sie die Oberfläche immer mit kreisenden Bewegungen **Bleiche sofort mit Waser vollständig abspülen, andernfalls kann sich die Corian® Oberfläche verfärben.	

Reinigungsmethode

- A. Rückstände mit einem weichen Tuch entfernen.
- B. Oberfläche mit warmen Wasser abspülen und mit einem weichen Tuch trockenwischen.
- C. Ein feuchtes Tuch und eine milde Scheuermilch verwenden (z.B. Viss, Frosch Scheuermilch).
- D. Mit einem abrasiven Scheuerschwamm (z.B. Scotch Brite®) und einem Reinigungs-mittel oder Reiniger für Massivoberflächen auf
- I. Wenn Flecken nicht entfernt werden können, setzen Sie sich mit Rexa Design (tel: +39 0434 593182) in Verbindung.
- Die meisten Schäden, ei nschließlich Schäden, die durch starke Schläge, Hitze oder Chemikalien verursacht wurden, können in der Regel vor Ort beseitigt werden. Die Oberfläche erhält dadurch ihre ursprüngliche, glatte, hygienische und massive Oberflächenbeschaffenheit zurück.
