Finnish sauna

SPECIAL PLUS BioSauna

The Biosauna is an evolution of the traditional Finnish sauna; it envisages lower temperatures, of around 50°, while a purpose-designed mechanism adjusts the temperature and the steam production in order to achieve a hot and humid environment very much like that of a steam room.

- 6. Steam outlet with essential oil dispenser
- 7. Door
- 8. Window

- Electrical connection
- Steam
- Air circulation connection
- Water inlet and outlet and rinsing
- Electrical power supply

Pasha - Prefabricated structure

Prefabricated cabin for Turkish bath, processed and shaped, complete with levelling compound on both sides (interior + exterior), plus two perimeter fillers to bridge the gap between the ceiling of the structure and the ceiling of the room (up to a maximum height of 270 cm).

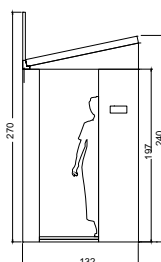

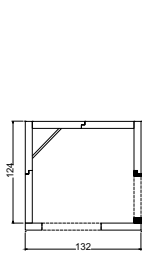

The cabin will be made up of prefabricated modular high density EPS foam panels, 8 cm thick, previously shaped, with fittings.

The prefabricated structure is rectangular shaped, and it includes all the perimeter walls and is designed to accommodate two apertures.

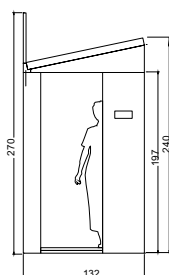

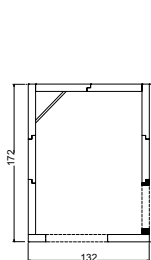

- Components supplied: walls and sloping roof, designed to accommodate 1 door, 1 window and accessories for the operation of the Turkish bath, mesh for the levelling of adjacent panels and polyurethane glue. Corner tall unit included, designed to house specific Turkish bath components, the steam outlet and the recirculating fan.
- Floor: not supplied since the cabin is designed to be glued straight onto the concrete. Always arrange drainage flooring and a drain system.
- Installation: installation requires a small quantity of levelling compound and a waterproofing treatment (not supplied).
- Tiling: the cabin is supplied with levelling compound and is suitable for the subsequent application of mosaics or tiles measuring between 1 and 15 mm in thickness. The ceiling can be tiled with or painted with humidity-proof products.
- Includes aluminium plate inset beneath the levelling along the perimeter of the door and window.
- Includes the assembly kit consisting of the correct quantity of plastic disks and polyurethane glue.
- **Due to its construction, the prefabricated structure does not require the thermal insulation kit K135 - K136 - K137 (on page 25).**
- Every structure is built according to the diagram provided by the customer to adapt to the actual space available. See prices below.
- For structures with dimensions not covered by the four types envisaged herein, feasibility and pricing are available upon request.

Pasha Prefabricated structure

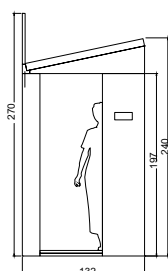

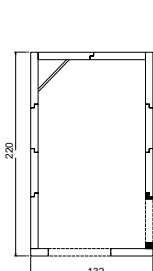

Insulation (as an alternative to the prefabricated structure)

	code	€
Up to 132x124x240 cm exterior	HP01 - - - -	4.460,00

Pre-installation kit compulsory. To be ordered separately **K194 - - - -** 33,00

Waterproof TOUCH technology control panel, icon-based menu, high-visibility backlit display, daily and weekly programming settings, polished stainless steel frame.

Waterproof TOUCH technology control panel **K204 - - - -** 773,00

and TOUCH technology secondary control panel
Pre-installation kit compulsory. To be ordered separately **K195 - - - -** 82,00

Waterproof TOUCH technology control panel, icon-based menu, high-visibility backlit display, daily and weekly programming settings, polished stainless steel frame and TOUCH technology secondary control panel controlling the main functions, installing it internally or externally on the basis of user requirements

OPTIONAL

Extension cable for control panel **K119 - - - -** 44,00
(if the K203 is positioned more than 4 metres away from the steam generator)

CROMOEXPERIENCE - AUDIO (one version compulsory)

Chromotherapy ceiling light featuring RGB LED technology **K205 - - 1 -** 2.390,00

Pre-installation kit compulsory. To be ordered separately. **K196 - - - -** 12,00

Chromotherapy ceiling light featuring RGB LED technology:
4 automatic programmes - 9 fixed colours and white light - integrated audio system with high-quality speakers - suitable for "marine use" and HI-FI stereo amplification - Bluetooth system - decorative Duralight frame. **For use with at most seven K206 or K207 ceiling lights**

Chromotherapy ceiling light featuring RGB LED technology **K206 - - 1 -** 1.112,00

Pre-installation kit compulsory. To be ordered separately. **K196 - - - -** 12,00

Chromotherapy ceiling light featuring RGB LED technology:
4 automatic programmes - 9 fixed colours and white light - decorative Duralight frame
In combination with the K205, up to 7 units can be installed.

Without the K205, up to 8 units can be installed, specifying the quantity in the penultimate field of the code.

Chromotherapy ceiling light featuring RGB LED technology **K207 - - 1 -** 803,00

Pre-installation kit compulsory. To be ordered separately. **K197 - - - -** 12,00

Chromotherapy ceiling light featuring RGB LED technology:
4 automatic programmes - 9 fixed colours and white light - polished stainless steel frame
In combination with the K205, up to 7 units can be installed.

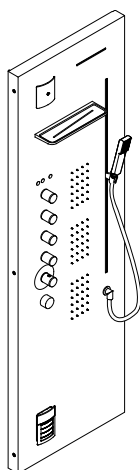

Without the K205, up to 8 units can be installed, specifying the quantity in the penultimate field of the code.

OPTIONAL

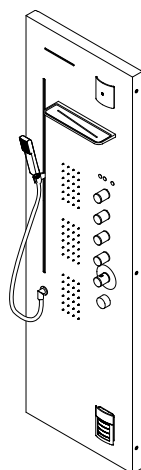

Supplementary 3-metre air pipe **K122 - - - -** 23,00

General terms of sale

1	ORDERS	Product orders will only be binding on TEUCO Spa after written acceptance.
2	ORDER CANCELLATIONS	No orders without an acceptance deadline can be cancelled without the explicit written authorisation of TEUCO Spa. If not, the latter will have the right to charge the related costs. Unjustified order cancellations are not allowed. Under no circumstances will TEUCO Spa take into consideration cancellation requests received later than 15 days prior to the expected delivery date.
3	DELIVERY TERMS AND METHODS	The product delivery times, where confirmed by TEUCO Spa, must be understood to be purely indicative and never binding. Ordered goods shall, nevertheless, be deemed as having been delivered, when they have been handed over to the carrier assigned with the transport, at TEUCO's facility in Montelupone.
4	PRICES	The sale price of each product is specified in the price list, valid at the time the order is made, and must be considered as valid for goods ex works in Montelupone (MC - Italy), unless otherwise agreed. All expenses and additional costs, however, must be added to the list price (including for example: duty and/or taxes relating to sale and transportation), which shall be payable by the purchaser. The installation of the products is excluded in all circumstances and must be performed at the expense and under the responsibility of the purchaser. TEUCO Spa reserves the right to modify its price lists, quotes and discounts without needing to give prior notice thereof.
5	PAYMENT	The payment terms, unless otherwise approved and specified in writing by TEUCO Spa, are as follows: a) for sales within Italy: 30 days after the invoice date, when a credit agreement exists; otherwise: cash on delivery; b) for sales outside Italy: irrevocable letter of credit, confirmed by one of the main Italian banking institutions. Non-payment - even partial - of the amount due at the agreed deadlines or even of just one instalment of any payment in instalments agreement will lead to the expiry of the deadline for subsequent instalments and TEUCO Spa will therefore have the right to demand the immediate total payment of the entire outstanding sum due from the purchaser. All the products supplied remain the property of TEUCO Spa until full payment has been made.
6	PACKAGING	The list price of all products includes packaging, if envisaged, for overland road transport. Goods delivered by train and/or boat require special packaging, which entails an additional charge of 5% on the net total of the ordered supply.
7	TRANSPORTATION	Once the goods have been delivered by being handed over to the carrier, they travel at the risk and under the responsibility of the purchaser, even if TEUCO Spa has agreed to pay the transport costs.
8	LIABILITIES	The liabilities on the part of TEUCO Spa for damage due to faulty products are those set forth by the law.
	IMPORTANT NOTICE	The product must be installed as supplied by Teuco, following the instructions and cautions recommended in the technical catalogue. TEUCO provides no guarantee for damage to the product following incorrect installation.
