Price List

July 2015

WARNINGS

GENERAL SALES AND DELIVERY CONDITIONS

The present price list substitutes all previous and constitutes as integral part of our catalogues and our collections. The current price list is expressed in Euro.

RETAIL PRICE LIST

The present price list is relative to the commercial European area.

On this price list, retailers have a discount which is to be agreed upon with our sales office.

For sales made in Italy, VAT will be applied to the net discounted price.

1) **Customer own material**

Fabrics and leather supplied by the customers must arrive free of any charge for IPE, otherwise they will be refused.

The fabric requirement, which is indicated in this price list, refers to plain fabrics, of height 140 cm. For other kinds of fabric or velvet, the necessary quantity must be requested from our offices every time.

Combinations of fabrics

If the requested covering is to be made with coordinated fabrics of different categories, the price applied will be that of the higher category.

2) **Measurements and characteristics of the products**

The measurements indicated in our catalogues and price list are in cm. and concern the total encumbrance of the item, including any protuberance. Minimum variations in size with respect to dimensions indicated are possible.

IPE reserves the right to make **eventual aesthetic, technical or constructive** variations without prior warning, in order to improve the products.

3) **Fabrics and leathers**

Fabrics and leathers in our catalogue of samples are to be considered as samples of the quality and are indicative regarding colour. As it is not technically possible to guarantee the same tonality in time, IPE cannot be held responsible for possible tone differences in comparison with the sample or colour differences among products made in different periods.

4) **Leather characteristics**

Eventual natural imperfections which may be noted on the surface of the leathers are in fact the characteristic and the virtue of "*full grain workmanship*" and guarantees the authenticity of the leather. The chemical products necessary for the production of the leather, used during the tanning, dyeing and finishing of the raw materials, **do not contain noxious substances for the health and for the environment.**

5) **Washing**

IPE does not guarantee the inalterability of fabrics which undergo any form of washing. On request, before the sewing of the covers, the fabrics may be pre-washed and ironed. In this case an ulterior cost will be added per linear metre to the invoice, cost to be agreed upon each time with our Sales Office.

6) **Delivery terms**

The delivery terms indicated in the order confirmations are approximate. No penalties or responsibilities due to delayed delivery will be accepted..

7) **Deliveries**

All articles produced are packed in cardboard or wooden boxes, the packaging is considered in view of the nature of the goods, the weight and the dimensions of every single piece.

The number of packages and their condition must be carefully checked by the receiver . Any shortage or damage has to be notified to the forwarding agent or courier, immediately and before the receipt of the goods, being them the only responsible.

8) **Transport**

In the case of transport being "free delivered", should the value of the invoiced goods be less than Euro 850,00, a fixed amount of Euro 50,00 will be added to the final invoice for costs incurred.

9) **Claims**

Any kind of claim must be made within 8 (eight) days from the receipt of the goods. The claims must be detailed and precise and always accompanied by photographs of both the goods and the packaging.

10) **Returns**

The return of goods will not be accepted unless expressly authorised in writing. The returned goods have to be delivered, at the customers' expense to our warehouse. The amount of the possible credit will be agreed upon each time.

11) For any controversy which may arise between the parts, the Bologna law courts will have exclusive competence.

WARNING:

Please consider that the velvet fabrics could be easily subject to dents, due to the fact of being natural fibers.

So this is a characteristic typical of the product and NOT a production flaws.

In case this will happens, please use a flat iron with steem at a low temperature and iron the velvet following the wool direction.
